telling, this is the book."

WINNERS AND LOSERS

An Anthology of Great Sports Fiction

edited by L. M. Schulman

"A dozen sporting short stories proving that life is not
a game—it has no rules, complete set of rules. Tread
the water in Jack London's winner Mexican revolution-
aries... fighting increasingly ugly progress in short
rifle for the future... Others examine the precious
relationship between youth and age... and for the
winning athletes, there's a heart beat from Faulkner
that has a human target. Charged!"

—*The Boston Globe* (international review)

"Well-related sports stories focus on the player rather
than the game, to capture the telling moment that re-
veals who a team is and what he is worth." Suggested
for the school library.

—*The Booklist*, American Library Association

"The outstanding collection... Careful decisions of
progressive, short stories backgrounds are skillfully
combined with the straight action narratives of sports
backgrounds, giving the stories broad appeal."

—*Library Journal*

The Loners Short Stories About The Young And Alienated:

The Loners L. M. Schulman, 1970 *James Baldwin and the Short Story* Benedict Ushedo, 2018-03-21 This book examines the range of issues that echo in James Baldwin's short stories. It articulates and defends the claim that the stories in the collection *Going to Meet the Man* are driven by the autobiographical memory of the author. To support this line of thought and the related proposition that the stories feed into themes relevant to self-knowledge, vicarious suffering, love, and forgiveness, their effectiveness as transformative and revelatory texts is highlighted. By drawing on contemporary studies and challenging the view that short stories are no more than miniature pieces merely echoing major works of their authors, this book demonstrates that the short story genre can be profoundly forceful and effective in the articulation of complex human issues. This study shows also that the humanistic import of the Baldwin stories is amplified by their ability to accumulate moral tension as they elicit the participation of the reader in an imaginative quest for a better world. **Ernest**
