Dana Cuff

The Los Angeles Metropolitan Experience Uniqueness Generality And The Goal Of The Good Life:

L.A. Freeway David Brodsky, 2023-12-22 **The Los Angeles Metropolitan Experience** Howard J. Nelson, William A. V. Clark, 1976 A Guide to Information Sources in the Geographical Sciences Stephen Goddard, 1983-01-01 Geography is a wide ranging discipline and the number of information sources available is truly enormous These include printed books and journal articles maps satellite photographs archives statistical information and much else One particular problem facing geographers is that when one studies a foreign country information may be available only in the foreign country and difficult to obtain This book discusses the information sources available to geographers **New York, Chicago, Los Angeles** Janet L. Abu-Lughod, 1999 New York Chicago and Los Angeles for all their differences they are quintessentially American cities They are also among the handful of cities on the earth that can be called global Janet L Abu Lughod s book is the first to compare them in an ambitious in depth study that takes into account each city s unique history following their development from their earliest days to their current status as players on the global stage *The Provisional City* Dana Cuff, 2000 A look at urban transformation through the architecture and land development of large scale residential projects Housing and Planning References, 1977 Race, Police, and the Making of a Political Identity Edward J. Escobar, 2023-04-28 In June 1943 the city of Los Angeles was wrenched apart by the worst rioting it had seen to that point in the twentieth century Incited by sensational newspaper stories and the growing public hysteria over allegations of widespread Mexican American juvenile crime scores of American servicemen joined by civilians and even police officers roamed the streets of the city in search of young Mexican American men and boys wearing a distinctive style of dress called a Zoot Suit Once found the Zoot Suiters were stripped of their clothes beaten and left in the street Over 600 Mexican American youths were arrested The riots threw a harsh light upon the deteriorating relationship between the Los Angeles Mexican American community and the Los Angeles Police Department in the 1940s In this study Edward J Escobar examines the history of the relationship between the Los Angeles Police Department and the Mexican American community from the turn of the century to the era of the Zoot Suit Riots Escobar shows the changes in the way police viewed Mexican Americans increasingly characterizing them as a criminal element and the corresponding assumption on the part of Mexican Americans that the police were a threat to their community The broader implications of this relationship are as Escobar demonstrates the significance of the role of the police in suppressing labor unrest the growing connection between ideas about race and criminality changing public perceptions about Mexican Americans and the rise of Mexican American political activism In June 1943 the city of Los Angeles was wrenched apart by the worst rioting it had seen to that point in the twentieth century Incited by sensational newspaper stories and the growing public hysteria over allegations of widespread Mexican American juve **The Recursive Frontier** Michael Docherty, 2024-05-01 The Recursive Frontier is an innovative spatial history of both the literature of Los Angeles and the city itself in the mid twentieth century Setting canonical texts alongside underexamined

works and sources such as census bulletins and regional planning documents Michael Docherty identifies the American frontier as the defining dynamic of Los Angeles fiction from the 1930s to the 1950s Contrary to the received wisdom that Depression era narratives mourn the frontier's demise Docherty argues that the frontier lives on as a cruel set of rules for survival in urban modernity governing how texts figure race space mobility and masculinity Moving from dancehalls to offices to oil fields and beyond the book provides a richer more diverse picture of LA's literary production during this period as well as a vivid account of LA's cultural and social development as it transformed into the multiethnic megalopolis we know today

Extremes Of Mobility: Development And Consequences Of Transport Policy In Los Angeles Stefan Bratzel, 2023-10-06 The development of transportation policy in Los Angeles is a history of extremes in the 1920s the city had the largest regional rail network in the world which was completely abolished 40 years later In its place a vast network of freeways was built in the metropolis with a car focused mobility pattern Los Angeles became a symbol of car oriented mobility with all the negative ecological and social side effects Since the 1990s Los Angeles has been rebuilding its public rail transport with little success so far This book examines the history of Los Angeles development and identifies the key drivers that have shaped the metropolis extreme transport policies With other cities facing similar albeit less extreme transportation issues they can learn from how Los Angeles had responded and continues to adapt to its considerable transport policy problems especially in order to avoid the mobility experiences faced by the American city But to do so it is necessary to abandon the prevailing perspective which is largely limited to evaluating transport modes road versus rail A sustainable solution to the problems of metropolitan areas will only be possible if the origins of transport with their spatial social and economic interdependencies are understood and integrated into transport policy action

A Computerized Inventory of Land Use in the Los Angeles Region Marcella Nystrom, 1981

Extreme der Mobilität Stefan Bratzel, 2013-07-01 Dieses Buch handelt von Mobilitäts Erfahrungen in Los Angeles im doppelten Sinne Nach den Erfahrungen des Autors in Los Angeles gewinnt man mit den Verkehrsmitteln Fahrrad und F e kein vollständiges Bild der dortigen Mobilität Um die verschiedenen Dimensionen der Mobilität und deren Bedeutung für die Bürger wirklich zu begreifen muß man die Metropole erfahren mit einem motorisierten Individualverkehrsmittel Die aufmerksame Fahrt auf einem der zahlreichen vielspurigen Freeways ist nicht nur ein kinetisches Erlebnis dessen Freud und Leid man zu jeder Tageszeit mit Tausenden von Menschen in Los Angeles teilen kann Die Freeway Erfahrung ist weit mehr Zu recht bezeichnet sie Joan Didion als das einziges kulturelle Glaubensbekenntnis das Los Angeles besitzt Didion 1977 Die Freeways sind die automobilen Kirchen der Metropole die Wahrzeichen der Stadt und die Symbole der Mobilität In ihnen verdichten sich die sozialen kulturellen Orientierungen und der Lebensstil der Bürger Südkaliforniens aber immer mehr auch die Probleme moderner

urbaner Agglomerationen Zunehmend lassen Unfa ne Stauungen und hohe Umweltbelastungen den Glauben der B rger an die Auto Mobilit t ersch ttern Los Angeles ist ein verkehrspolitischer Extrernfa l an dem nicht nur die negati ven Folgen von Mobilit t idealtypisch abgelesen werden k nnen Die Entwick lungsgeschichte der Metropole bietet vielmehr die M glichkeit Ursachen und Wechselwirkungen von Mobilit t und Verkehrspolitik klarer zu erkennen gerade weil sie im Vergleich mit anderen Metropolen nicht grunds tzlich verschieden sondern nur extremer verlaufen ist *The California Handbook* ,1987

Essays on Sunbelt Cities and Recent Urban America Raymond A. Mohl,1990 For centuries scholars have scrutinized the cities of the Old World poking into ruins and libraries for unwritten and written clues to origins and demise The American cities that have played major roles in the history of the United States have also had their share of study But only recently have historians applied systematic analysis to what is now called the Sunbelt where half the nation s ten largest cities are located cities that have grown astronomically since World War II This volume brings together the important findings of leading urban historians Addressing a variety of topics such as the reasons behind the Sunbelt s boom their essays place the sunbelt phenomenon within the larger context of urban development nationwide Kenneth T Jackson begins the introduction by pointing out the problem of defining the Sunbelt and the reasons for urban growth in the sunbelt areas during the post World War II era Essays by Robert Fisher Roger W Lotchin and Robert B Fairbanks focus on specific cities and leadership issues on the attitudes that shaped Houston on the military s role in the urban development of San Diego and on the politics of governing Dallas from 1930 to 1960 An essay by Carl Abbott looks at the distinctive physical characteristics of cities in the Southwest Raymond A Mohl s essay on the transformation of urban America since 1945 and Zane L Miller s essay on Walter Prescott Webb and cultural regionalism provide broader contexts in which to view and understand urban sunbelt development The essays of this volume reflect the individual authors different methodologies and approaches Taken together they highlight the belief that national development and twentieth century urban trends were as important in shaping sunbelt cities as was the regional culture **Journal of Economic Literature** ,1977 **Catalog of Copyright Entries. Third**

Series Library of Congress. Copyright Office,1977 **Planning** ,1975 *Research Paper* University of Chicago. Department of Geography,1948 **Chicano Protest and the Law** Edward J. Escobar,1983
