The Human Hand, the Living Symbol, Etc. [With Plates and Illustrations.]. Noel Jaquin,1956 *The Archetypal Process* David Griffin,1989 Archetypal Process is a pioneering study linking the ideas of process philosophy as developed by Alfred North Whitehead and Charles Hartshorne with the archetypal psychology of C G Jung and James Hillman This is the first work to examine the interconnections of these two modes of thought Archetypal Process examines the importance of cosmological thinking and the need to ground archetypal psychology in a metaphysical philosophical framework It treats the necessity for symbol and myth the nature of the spirit and language as a metaphorical vehicle of thought and finally it adds a much needed feminist perspective to the debate **The Living Church** ,1906 **The Theosophical Review** ,1898

Living in Anticipation of the End-Time Edwin Zackrison, 2022-07-19 Not long ago those who wrote about the end time were preachers the more fundamentalist the more extreme by some standards The end is coming soon they said and cartoons were rampant with guys carrying placards captioned by The End is Near From the time of Christ whose noncritical predictions included such inspiration for the placards the religious prophets could not resist emphasis on such topics Today things are different The scientists and politicians make the predictions Twelve More Years is what we hear from the latter But they don't attack with religious terms They speak of time in the context of climate change and global warming They do not agree on how to interpret the evidence but the religionists also had trouble with agreement Strange interpretations of biblical texts have now gone the way of so called science Various elucidations carry one thing in common none gain consensus Some arguments enter discussions by censoring those who disagree with them Their opponents are not allowed to speak They must remain silent They are called nasty names and unfair methods are used to punish them They try to stop the incongruous from speaking at all Living in the end time demonstrates the conflict between good and evil *The Community of Religions* Wayne Teasdale, George Cairns, 2016-10-06 The papers in this volume form a record of the 1993 Parliament of the World's Religions which was one of the largest interfaith gatherings ever held Representatives from minority ethnic and tribal religions took the podium as equals alongside representatives from the world's largest religious traditions This volume contains major addresses and reflections of this parliament set in context by an introduction and conclusion by the editors

The Image of the Popular Front Simon Dell, 2006-11-17 During the 1930s Europe was convulsed by political violence The National Socialists rose to power in Germany and Fascists campaigned in Britain Spain and France Yet Europe was also transformed in this decade through new applications of film photography and radio In fact these political and technological developments were closely intertwined
