Paul Auster's "The New York Trilogy" as Postmodern Detective Fiction Matthias Kugler, 1999-10-28 Inhaltsangabe

Abstract Paul Auster's New York Trilogy published in one volume for the first time in England in 1988 and in the U S in 1990 has been widely categorised as detective fiction among literary scholars and critics There is however a striking diversity and lack of consensus regarding the classification of the trilogy within the existing genre forms of the detective novel Among others Auster's stories are described as metaanti detective fiction mysteries about mysteries a strangely humorous working of the detective novel very soft boiled a metamystery glassy little jigsaws a mixture between the detective story and the nouveau roman a metaphysical detective story a deconstruction of the detective novel antidetective fiction a late example of the anti detective genre and being related to hard boiled novels by authors like Hammett and Chandler Such a striking lack of agreement within the secondary literature has inspired me to write this paper It does not however elaborate further on this diversity of viewpoints although they all seem to have a certain validity and underline the richness and diversity of Auster's detective trilogy neither do I intend to coin a new term for Auster's detective fiction I would rather place The New York Trilogy within a more general and open literary form namely postmodern detective fiction This classifies Paul Auster as an American writer who is part of the generation that immediately followed the classical literary movement of American postmodernism of the 60s and 70s His writing demonstrates that he has been influenced by the revolutionary and innovative postmodern concepts characterised by the notion of anything goes on a planet of multiplicity as well as by French poststructuralism He may however be distinguished from a traditional postmodern writer through a certain coherence in the narrative discourse a neo realistic approach and by showing a certain responsibility for social and moral aspects going beyond mere metafictional and subversive elements Many of the ideas of postmodernism were formulated in theoretical literary texts of the 60s and 70s and based on formal experiments include the attempt of subverting the ability of language to refer truthfully to the world and a radical turning away from coherent narrative discourse and plot These ideas seem to have been internalized by the new generation of postmodern writers of the 80s to such

Christian Fundamentalism and the Culture of Disenchantment Paul Maltby, 2013 Within the familiar clash of religious conservatism and secular liberalism Paul Maltby finds a deeper discord an antipathy between Christian fundamentalism and the postmodern culture of disenchantment Arguing that each camp represents the poles of America's virulent culture wars he shows how the cultural identity lifestyle and political commitments of many Americans match either the fundamentalist profile of one who cleaves to metaphysical and authoritarian beliefs or the postmodern profile of one who is disposed to critical inquiry and radical democratic values Maltby offers a critique that operates in both directions His use of the resources of postmodern theory to contest fundamentalism's doctrinal claims ultra right politics anti environmentalism and conservative aesthetics informs his engagement with contemporary fundamentalist painting spiritual warfare fiction dominionist attitudes to nature and a

profoundly undemocratic interpretation of Christianity At the same time Maltby identifies some of fundamentalism s legitimate spiritual concerns assesses the cost of perpetual critique and exposes the deficit of spiritual meaning that haunts the culture of disenchantment *The Encyclopedia of Twentieth-Century Fiction, 3 Volume Set* Brian W. Paul Auster's The New York Trilogy Paul Auster,2025-04-08 From award winning novelist Paul Auster comes the graphic adaptation of his deeply beloved series The New York Trilogy a postmodern take on detective and noir fiction In 1994 Paul Auster s City of Glass was adapted into a graphic novel and became an immediate cult classic published in over 30 editions worldwide excerpted in The Norton Anthology of Postmodern Fiction But City of Glass was only the first novel in a series of books Auster s acclaimed New York Trilogy and graphic novel readers have been waiting for years for the other two tales to be translated into comics Now the wait is over The New York Trilogy is post modern literature disguised as Noir fiction where language is the prime suspect An interpretation of detective and mystery fiction each book explores various philosophical themes In City of Glass an author of detective fiction investigates a murder and descends into madness Ghosts

features a private eye named Blue trailing a man named Black for a client called White This too ends with the protagonist's downfall And in The Locked Room another author is experiencing writer's block and hopes to break it by solving the disappearance of his childhood friend The second two parts of this trilogy will be appearing in this volume for the very first time as a graphic novel Paul Karasik the mastermind behind the three adaptations art directed all three books City of Glass is illustrated by the award winning cartoonist David Mazzucchelli the second volume Ghosts is illustrated by New Yorker cover artist Lorenzo Mattotti and The Locked Room is adapted and drawn by Karasik himself These adaptations take Auster's sophisticated wordplay and translate it into comicsplay both highbrow and lowbrow and immensely fun reading

Detecting Texts Patricia Merivale, Susan Elizabeth Sweeney, 2011-06-07 Although readers of detective fiction ordinarily expect to learn the mystery's solution at the end there is another kind of detective story the history of which encompasses writers as diverse as Poe Borges Robbe Grillet Auster and Stephen King that ends with a question rather than an answer The detective not only fails to solve the crime but also confronts insoluble mysteries of interpretation and identity As the contributors to Detecting Texts contend such stories belong to a distinct genre the metaphysical detective story in which the detective hero's inability to interpret the mystery inevitably casts doubt on the reader's similar attempt to make sense of the text and the world Detecting Texts includes an introduction by the editors that defines the metaphysical detective story and traces its history from Poe's classic tales to today's postmodernist experiments In addition to the editors contributors include Stephen Bernstein Joel Black John T Irwin Jeffrey T Nealon and others
