

The London Trolleybus 1931-1945

David Berguer

The London Trolleybus 1931-1945:

British Trolleybus Systems: London & South-East England Peter Waller, 2023-01-31 Although there had been experiments with the use of a new form of transport the trackless tram better known as the trolleybus during the first decade of the 20th century it was in June 1911 that Bradford and Leeds became the country's pioneering operators of trolleybuses. There had been earlier experimental users in places like Hove and London and as the tide turned against the tram in many towns and cities the trolleybus became a popular alternative with London becoming for a period the world's largest operator of trolleybuses. This volume one of four that examines the history of all trolleybus operators in the British Isles focuses on London and the other systems of south east England.

British Trolleybus Systems Peter Waller, 2023-05-04 Although there had been experiments with the use of a new form of transport the trackless tram better known as the trolleybus during the first decade of the 20th century it was in June 1911 that Bradford and Leeds became the country's pioneering operators of trolleybuses. There had been earlier experimental users in places like Hove and London and as the tide turned against the tram in many towns and cities the trolleybus became a popular alternative with the trolleybus coming to dominate the provision of local public transport in places like Derby and Ipswich. This volume one of four that examines the history of all trolleybus operators in the British Isles focuses on the systems that operated in Wales, the Midlands and East Anglia.

Under the Wires at Tally Ho David Berguer, 2011-02-01 Today pollution free transport is high on the political agenda yet it is sometimes forgotten that electric vehicles ran on the streets of London from the early 1900s until 1962. This book tells the story of that period and describes both the vehicles themselves and the effect they had on the development of the suburbs. Local historian David Berguer has endeavoured to paint a picture of what life was like in the capital during this golden age travelling and working on the trams and trolleybuses and includes material based on newspaper reports, council and official minutes and oral histories from those involved. With many previously unpublished photographs and detail on the vehicles and routes themselves there is even a chapter on the colourful pirate buses which competed against trams in the 1920s. Full of local interest and insights into daily life on north London trams and trolleybuses this celebration of the glory days of electric street traction in the suburbs of North London is bound to capture the imagination of both transport and local historians alike.
