The Long Pursuit Soundings:

The Sounding of the Whale D. Graham Burnett, 2022-12-22 This wonderful book documents the interplays among science conservation and politics in the evolving career of the whale over the last century William Perrin Senior Scientist for Marine Mammals at the Southwest Fisheries Science Center NOAA Fisheries Service From biblical times whales have breached in the human imagination as looming figures of terror power confusion and mystery In the twentieth century however our understanding of and relationship to these superlatives of creation underwent some astonishing changes and with *The Sounding of the Whale* D. Graham Burnett tells the fascinating story of the transformation of cetaceans from grotesque monsters useful only as wallowing kegs of fat and fertilizer to playful friends of humanity bellwethers of environmental devastation and finally totems of the counterculture in the Age of Aquarius When Burnett opens his story ignorance reigns even Nature was misclassifying whales at the turn of the century and the only biological study of the species was happening in gruesome Arctic slaughterhouses But in the aftermath of World War I an international effort to bring rational regulations to the whaling industry led to an explosion of global research and regulations that while well meaning were quashed or widely flouted by whaling nations the first shot in a battle that continues to this day The book closes with a look at the remarkable shift in public attitudes toward whales that began in the 1960s as environmental concerns and new discoveries about whale behavior combined to make whales an object of sentimental concern and public adulation A sweeping history grounded in nearly a decade of research *The Sounding of the Whale* tells a remarkable story of how science politics and simple human wonder intertwined to transform the way we see these behemoths from below

The Sounding Symbol George Odam, 1995 Providing music teachers and student teachers with an understanding of what constitutes good practice in the classroom this text combines recent research of music theory particularly on music and the brain with a strong practical emphasis on how this applies in class *Sounding Forth the Trumpet* Peter Marshall, David Manuel, 2009-06-15 *Sounding Forth the Trumpet* brings to life one of the most crucial epochs in America's history the events leading up to and precipitating the Civil War In this enlightening book readers live through the Gold Rush the Mexican War the skirmishes of Bleeding Kansas and the emergence of Abraham Lincoln as well as the tragic issue of slavery *Sounding Places* Karolina Doughty, Michelle Duffy, Theresa Harada, 2019 This edited collection examines the more than representational registers of sound It asks how sound comes to be a meaningful ingredient in the microgeographies of place making through the workings of affect emotion and atmosphere how sound contributes to shaping a variety of embodied and spatially situated experiences and how such aspects can be harnessed methodologically These topics contribute to broader debates on the relations between representation and the non or more than representational that are taking place across the social sciences and humanities in the wake of the cultural turn More specifically the book contributes to the fertile theoretical intersections of sound affect emotion and atmosphere ***Sounding the Abyss*** Roger V. Bell, 2004-01-01 *Sounding the Abyss* achieves an

analysis that extends Cavell's already rich range of work into surprising new directions in postcolonialism, multiculturalism and general cultural criticism. The work never strays from its concern with reassessing the divide between philosophy's analytic and Continental factions.

Sounding Indigenous M. Bigenho, 2016-04-30 *Sounding Indigenous* explores the relations between music, people and places through analysis of Bolivian music performances by a non-governmental organization involved in musical activities by a music performing ensemble and by the people living in two rural areas of Potosí. Based on research conducted between 1993 and 1995, the book frames debates of Bolivian national and indigenous identities in terms of different attitudes people assume towards cultural and artistic authenticity. The book makes unique contributions through an emphasis on music as sensory experience through its theorization of authenticity in relation to music through its combined focus on different kinds of Bolivian music, indigenous, popular, avant-garde through its combined focus on music performance and the Bolivian nation and through its interpretation of local, national and transnational fieldwork experiences.

Sounding Solitude Sr Mary Paul Cutri OCD, 2011-11-10 *Solitude* is a universal experience. For some people, its connotations of loneliness and isolation are terrifying prospects. Others seek it out, sensing solitude's potential for bringing depth and creativity to their lives. Even those who embrace it willingly, however, discover at some point that solitude, like nature, has its changing seasons. Why write a book about solitude? One answer: God. Those who are God-seekers often turn to solitude to listen to God, to be present to God, to be attentive to God's word, wisdom and Spirit. Embraced purposefully, solitude enables us to cultivate another way of seeing and being, to be more open to discovery of and exploration into those unfathomable riches we call God.

Sounding the Bookshelf 1501 Tim Shephard, Oliver Doyle, Ciara O'Flaherty, Annabelle Page, Laura Ștefănescu, 2025-08-06 *Sounding the Bookshelf 1501* explores how everyday texts in Renaissance Italy engaged with music, sound and hearing. Of the 358 known editions printed in 1501, only a few contained formal music notation or specialist theory. Yet a surprising wealth of musical knowledge emerges from religious texts, classical commentaries, lifestyle guides, poetry and more. These sources, rarely penned by professional musicians, reflect the broader cultural presence of music in early 16th-century life, touching on themes like music's moral influence, its role in education and its scientific understanding. Drawing from an ambitious cross-disciplinary survey, this groundbreaking study repositions everyday references to music as vital to understanding Renaissance musical culture. It challenges scholars to look beyond elite and theoretical traditions and instead engage with the rich, often overlooked world of non-specialist musical discourse. Set against the backdrop of 1501, a landmark year when Ottaviano Petrucci revolutionized music printing, this book offers a compelling snapshot of how music was understood and discussed by ordinary readers in Renaissance Italy. By sounding out these diverse voices, the project reimagines the contours of music history and opens new avenues for musicological inquiry.

Sounding Feminine David Kennerley, 2020-05-01 *Sounding Feminine* traces the development of attitudes towards the female voice that have decisively shaped modern British society and culture, examining how the

responses of late 18th and early 19th century audiences to the sounds of women s singing exposed the intricate links between gender nationality class and religion in a pivotal era of change *Sounding Conflict* Fiona Magowan, Pedro Rebelo, Stefanie Lehner, Julie M. Norman, Ariana Phillips-Hutton, 2023-01-26 Sound music and storytelling are important tools of resistance resilience and reconciliation in creative practice from protracted conflict to post conflict contexts When they are used in a socially engaged participatory capacity they can create counter narratives to conflict Based on original research in three continents this book advances an interdisciplinary comparative approach to exploring the role of sonic and creative practices in addressing the effects of conflict Each case study illustrates how participatory arts genres are variously employed by musicians arts facilitators theatre practitioners community activists and other stakeholders as a means of strategic creativity to transform trauma and promote empowerment This research further highlights the complex dynamics of delivering and managing creativity among those who have experienced violence as they seek opportunities to generate alternative arenas for engagement healing and transformation
