Federal Energy Administration, 1974 What is Project Independence The sources and uses of energy in the United States have changed dramatically in the last several decades As a result in just one generation we have shifted from a position of domestic energy abundance to a substantial and continually growing reliance on foreign energy sources Project Independence is a wide ranging program to evaluate this growing dependence on foreign sources of energy and to develop positive programs to reduce our vulnerability to future oil cut offs and price increases *The Savage Storm* James Holland, 2023-12-12 Acclaimed WWII historian James Holland both narrates

and reframes the controversial first months of the Italian Campaign and sets a new standard in the chronicling of war. Following victory in Sicily while the central command planned the spring 1944 invasion of France, Allied troops crossed into southern Italy in September 1943, expecting to drive Axis forces north and liberate Rome by Christmas. Italy quickly surrendered, but German divisions fiercely resisted, and the hoped-for quick victory descended into one of the most challenging and protracted battles of the entire war. James Holland's *The Savage Storm*, chronicling the dramatic opening months of the Italian Campaign in unflinching and insightful detail, is unlike any campaign history yet written. Holland has always narrated war at ground level, but here goes further by chronicling events almost entirely through the contemporary eyes of those who were there on all sides and at all levels: Allied Axis civilians alike. Weaving together a wealth of letters, diaries, and other documents from the likes of American General Mark Clark, German battalion commander Georg Zellner, New Zealand lance corporal Roger Smith, legendary war reporter Ernie Pyle, and Italian politician Filippo Caracciolo, Holland traces the battles as they were experienced across plains, over mountains, through shattered villages and cities in intense heat and towards the end of December 1943, frigid cold, and relentless rain. Such close-up views persuade Holland to recast important aspects of the campaign, reappraising the reputation of Mark Clark himself and other senior commanders of the U.S. Fifth and British Eighth armies. Given the shortage of Allied shipping and materiel allocated to Italy because of the build-up for D-Day, more was expected of Allied troops in Italy than anywhere else, and as accounts at the time attest, a huge price was paid by everyone for each bloodily contested mile. Putting readers vividly in the moment as events unfolded, with characters made unforgettable by their own words, *The Savage Storm* is a defining account of the pivotal months leading to Monte Cassino and a landmark in the writing about war. *Project Independence: Denver, Colorado, Aug. 6-9, 1974*, 1974

Health Communism Beatrice Adler-Bolton, Artie Vierkant, 2025-07-29 A searing analysis of health and illness under capitalism from hosts of the hit podcast *Death Panel*. In this fiery theoretical tour de force, Beatrice Adler-Bolton and Artie Vierkant offer an overview of life and death under capitalism and argue for a new global left politics aimed at severing the ties between capital and one of its primary tools, health. Written by co-hosts of the hit *Death Panel* podcast and longtime disability justice and healthcare activists, Adler-Bolton and Vierkant's *Health Communism* first examines how capital has instrumentalized health, disability, madness, and illness to create a class seen as surplus, regarded as a fiscal and social burden. Demarcating the healthy from the surplus, the worker from the unfit to work, the authors argue serves not only to undermine solidarity but to mark whole populations for extraction by the industries that have emerged to manage and contain this surplus population. *Health Communism* then looks to the grave threat capital poses to global public health and at the rare movements around the world that have successfully challenged the extractive economy of health. Ultimately, Adler-Bolton and Vierkant argue we will not succeed in defeating capitalism until we sever health from capital. To do this will require a radical new politics of solidarity that centers the surplus built on an understanding that we must not base the value of human life on

one's willingness or ability to be productive within the current political economy Capital it turns out only fears health

Social Sciences Studies in Turkey Eyup Saritas, 2018-05-14 OPEC members have been suffering from the dramatic decline in oil prices over the past two years which has seen crude dropping to between 40 and 50 per barrel from more than 100 in 2014 Since OPEC declared its noncutting policy on November 2014 both government budgets and economies of oil exporting countries felt tremendous pressure Saudi Arabia's economy had especially been seriously affected because of the strategy against the USA Faced with these challenges OPEC members finally agreed in a September 2016 meeting in Algeria to cut production in principle Exact quotas were determined in late November After this meeting OPEC oil production began to decrease and the oil prices began to increase In this study we found that there is a relation between OPECs oil production and oil prices We observed the monthly data from November 2014 to May 2017 and we showed that the OPECs influence on oil prices are dwindling OPEC is still important on prices and the announcements have an effect on these prices however this impact is dwindling Recently on May 2017 OPEC and other oil producers are on course to agree to an extension of supply cuts by a further nine months According to Forbes crude oil prices had gone up by more than 9% in November following the initial agreement to reduce output as opposed to just a 2% jump in oil prices when OPEC announced the extension of the cut This not only indicates that the proposed output restrictions are not enough to have a meaningful impact on oil prices but also hints at the fact that OPECs power to influence crude oil prices is waning **The Deep Change Field Guide** Robert E.
