Slow Birds: And Other Stories Ian Watson, 2011-09-29 Where do the metal death gliders come from To the glass sailors of the five villages the slow birds that inched over the Earth at shoulder height appearing and vanishing were a mystery until young Daniel climbed aboard one of the scarred Missiles and vowed to find out where it went Ian Watson's third short story collection is his best yet a brilliant array of original and imaginative inventions that plunge the reader into strangely familiar new worlds

Salvage Rites: And Other Stories Ian Watson, 2011-09-29 Ian Watson's latest collection shows the same range and apparently inexhaustible fund of ideas that have characterized all his previous books No other contemporary figure in SF is so prolific or inventive a writer of short stories In the title story we immediately encounter a phantasmagoric vision of a society increasingly dependent on recycling its usable material other brilliant inventions include a planet inhabited by lemur like aliens who bafflingly produce marvellously finished stone carvings without apparently having the tools to do so The Moon and Michelangelo people fighting their way through the various levels of what appears to be a real life version of a computer adventure game Jewels in an Angel's Wing and a zoo in which are caged the extensions into our universe of four dimensional hyperbeings Hyperzoo And that is only the beginning there are fifteen stories in all each one a state of the art example of short science fiction at its finest

Evil Water: And Other Stories Ian Watson, 2011-09-29 In his fourth short story collection Watson again demonstrates the extraordinary scope of his imagination The title story has ancient witchcraft meeting complacent modern suburbia in a tale of spine chilling horror while When the Timegate Failed casts an unexpected light in the dangers of space travel and man's powers of self delusion Alien matters of a different kind crop up in Windows in which mysterious artefacts found on Mars prove to be something of a problem for their chic human owners Evil Water is a highly inventive collection which is a delight to read

Sunstroke: And Other Stories Ian Watson, 2011-09-29 This second collection of Watson's short stories further demonstrates his seemingly inexhaustible imagination In The Thousand Cuts the entire human race finds its consciousness blanked out for varying periods but life seems somehow to have gone on in the missing days and indeed previously intractable problems have moved towards a solution In Sunstroke a doctor blinded accidentally during the voyage to a seemingly benign new world becomes gradually aware of disturbing changes afflicting her sighted companions These stories and many others confirm Watson's place in the forefront of contemporary SF writers

Deathhunter Ian Watson,2011-09-29 The regions that have survived the holocaust in Watson s new novel have largely transformed themselves from prewar violence into a peaceful utopia without either conflict or art In place of belief in a religious afterlife the old and ailing accept euthanasia at Houses of Death where priestlike guides counsel them One of these guides is Jim Todhunter who pursues research into the nature of death despite official censure When he is assigned to guide that rarity in the new world a murderer he finds a natural ally in the obsessive Nathan Weinberger himself an ex guide As usual with Watson the initial impression of a green and pleasant land is revealed to be only one facet of a more complex and disturbing reality
