The Prose Writers of America Rufus Wilmot Griswold, 1870 *Library of Choice Literature and Encyclopaedia of Universal Authorship* Ainsworth Rand Spofford, Charles Gibbon, 1895 **The Library of Choice Literature and Encyclopedia of Universal Authorship** Ainsworth Rand Spofford, 1894 Waverley Magazine, 1852 The Century of Space Science J.A. Bleeker, Johannes Geiss, M. Huber, 2012-12-06 One of the most attractive features of the young discipline of Space Science is that many of the original pioneers and key players involved are still available to describe their field. Hence at this point in history we are in a unique position to gain first hand insight into the field and its development. To this end The Century of Space Science a scholarly authoritative reference book presents a chapter by chapter retrospective of space science as studied in the 20th century. The level is academic and focuses on key discoveries, how these were arrived at, their scientific consequences and how these discoveries advanced the thoughts of the key players involved. With over 90 world class contributors such as James Van Allen, Cornelis de Jager, Eugene Parker, Reimar Lüst and Ernst Stuhlinger and with a Foreword by Lodewijk Woltjer, past ESO Director General, this book will be immensely useful to readers in the fields of space science, astronomy and the history of science. Both academic institutions and researchers will find that this major reference work makes an invaluable addition to their collection. *Harper's Weekly* John Bonner, George William Curtis, Henry Mills Alden, Samuel Stillman Conant, Montgomery Schuyler, John Foord, Richard Harding Davis, Carl Schurz, Henry Loomis Nelson, John Kendrick Bangs, George Brinton McClellan Harvey, Norman Hapgood, 1906 **The Christian Advocate**, 1900 *Christian Advocate and Journal and Zion's Herald*, 1900 The Oxford Handbook of Emily Dickinson Cristanne Miller, Karen Sánchez-Eppler, 2022-04-14 The Oxford Handbook of Emily Dickinson is designed to engage, inform, interest and delight students and scholars of Emily Dickinson of nineteenth century US literature and cultural studies of American poetry and of the lyric. It also establishes potential agendas for future work in the field of Dickinson studies. This is the first collection on Dickinson to foreground the material and social culture of her time while opening new windows to interpretive possibility in ours. The volume strives to balance Dickinson's own center of gravity in the material culture and historical context of nineteenth century Amherst with the significance of important critical conversations of our present, thus understanding her poetry with the broadest latitude of home as she puts it in her poem "Forever". It is composed of new debates about the lyric, about Dickinson's manuscripts and practices of composition, about the viability of translation across language, media and culture and about the politics of class, gender, place and race that circulate through this volume. These debates matter to our moment but also to our understanding of hers. Although rooted in the evolving history of Dickinson criticism, the chapters foreground truly new original research and a wide range of innovative critical methodologies including artistic responses to her poetry by musicians, visual artists and other poets. The suppleness and daring of Dickinson's thought and uses of language remain open to new possibilities and meanings even while they are grounded in contexts from over 150

years ago and this collection expresses and celebrates the breadth of her accomplishments and relevance
