Perspectives on State Socialism in China Timothy Cheek, Tony Saich, 2016-12-05 Placing Chinese Community Party history in the realm of social history and comparative politics this text studies the roots of the policy failures of the late Maoist period and the tenacity of the CCP Retrofitting Leninism Dimitar Gueorguiev, 2021-10-14 Retrofitting Leninism explains how modern Leninist regimes elicit and process bottom up information from citizens in the service of top down authoritarian control and public administration The book revolves around the modern Chinese Communist Party and its use of information technology to augment legacy institutions for social and political control While the empirical focus of the book is on contemporary China the analysis also builds on a historical and comparative understanding of state and society relations under authoritarianism **China, a Country Study** Frederica M. The Handbook of Political Behavior Samuel Long, 2013-11-11 In the writing of prefaces for works of this sort most editors report being faced with similar challenges and have much in common in relating how these challenges are met They acknowledge that their paramount objective is to provide more than an overview of topics but rather to offer selective critical reviews that will serve to advance theory and research in the particular area reviewed The question of the appropriate audience to be addressed is usually answered by directing material to a potential audience of social scientists graduate students and occasionally advanced undergraduate students Editors who are confronted with the problem of structuring their material often explore various means by which their social science discipline might be subdivided then generally conclude that no particular classification strategy is superior In elaborating on the process by which the enterprise was initiated editors typically resort to a panel of luminaries who provide independent support for the idea and then offer both suggestions for topics and the authors who will write them Editors usually concede that chapter topics and content do not reflect their original conception but are a compromise between their wishes and the authors' expertise and capabilities Editors report that inevitable delays occur authors drop out of projects and are replaced and new topics are introduced Finally editors frequently confess that the final product is incomplete with gaps occurring because of failed commitments by authors or because authors could not be secured to write certain chapters **The Religious Question in Modern China**

Vincent Goossaert, David A. Palmer, 2011-04-15 Recent events from strife in Tibet and the rapid growth of Christianity in China to the spectacular expansion of Chinese Buddhist organizations around the globe vividly demonstrate that one cannot understand the modern Chinese world without attending closely to the question of religion. *The Religious Question in Modern China* highlights parallels and contrasts between historical events, political regimes and cultural movements to explore how religion has challenged and responded to secular Chinese modernity from 1898 to the present. Vincent Goossaert and David A. Palmer piece together the puzzle of religion in China not by looking separately at different religions in different contexts but by writing a unified story of how religion has shaped and in turn been shaped by modern Chinese society. From Chinese medicine and the martial arts to communal temple cults and revivalist redemptive societies, the authors demonstrate that from the nineteenth century onward as the Chinese state shifted the religious landscape, consistently resurfaced in a bewildering variety of old and new forms. *The Religious Question in Modern China* integrates historical, anthropological and sociological perspectives in a comprehensive overview of China's religious history that is certain to become an indispensable reference for specialists and students alike.

Chinese Ethics in a Global Context Karl-Heinz Pohl, Anselm Müller, 2022-04-19 How do Chinese and Western ethical traditions interact today? In this collection of articles, both Chinese and Western scholars carefully examine the issue, one of fundamental importance for the mutual understanding between China and the West. The volume is the result of the second symposium which focused on a dialogue between China and the West on questions of ethics in particular concerning their commensurability and a possible common ground. The first part of the book discusses general problems of ethics in a cross-cultural context, followed by articles on ethical bases of Chinese and Western societies respectively. Further topics range from moral traditions in the context of social transformation in China today to developments in Western societies, politics, education and religion. The last part deals with controversial issues such as human rights vs. human duties and medical ethics.

Transitions and Transformations in the History of Religions

Reynolds, T.H.M. Ludwig, 2018-11-13 *How Maoism Was Made* Aaron William Moore, Jennifer Althenger, 2024-12-26 *How Maoism Was Made* features new scholarship on the early years after the Chinese Communist revolution, showing how ordinary people in China built socialism through their contributions to industry, science and the arts.

China's Continuous Revolution Lowell Dittmer, 2024-03-29 *China's Continuous Revolution: The Post-Liberation Epoch 1949-1981* explores the ambitious and transformative era of China's political landscape after the founding of the People's Republic in 1949. This meticulously researched volume delves into the ideology of continuous revolution under the dictatorship of the proletariat and its profound impact on Chinese politics. Drawing from extensive interviews and historical analysis, the book examines key elements such as charismatic leadership, mass mobilization and the complex restructuring of authority, highlighting the successes, failures and eventual exhaustion of revolutionary zeal. It provides a nuanced perspective on China's socio-political evolution during a pivotal era of change, grappling with questions about legitimacy, power dynamics and the role of ideology.

in shaping policy and governance Dittmer's work also contrasts China's revolutionary trajectory with global ideological movements presenting a critical examination of the enduring tensions between utopian aspirations and practical governance By analyzing the Cultural Revolution agricultural collectivization and the broader socio political reforms of the era the book offers a compelling narrative of a nation's struggle to reconcile revolutionary ideals with the realities of modern state building Scholars students and readers interested in China's contemporary history and political development will find this an invaluable resource for understanding the complexities of revolution and reform in a rapidly transforming society This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987
