Small World An Academic Romance:

Small World David Lodge, 1984 Philip Swallow Morris Zapp Persse McGarrigle and the lovely Angelica are the jet propelled academics who are on the move in the air and on the make in David Lodge's satirical *Small World*. It is a world of glamorous travel and high excitement where stuffy lecture rooms are swapped for lush corners of the globe and romance is in the air. **Small World** David Lodge, 1998-07 The book begins in April 1979 at a small academic conference at the University of Rumbridge. It is the first conference that Persse McGarrigle, an innocent young Irishman who recently completed his master's thesis on T.S. Eliot, has attended. He teaches at the fictional University College Limerick after having been mistakenly interviewed because the administration sent the interview invitation to him instead of someone else with the same last name. Several important characters are introduced: Rumbridge professor Philip Swallow, American professor Morris Zapp, retired American professor Sybil Maiden, and the beautiful Angelica Pabst, with whom McGarrigle falls immediately in love. Much of the rest of the book is his quest to find and win her. Angelica tells Persse that she was adopted by an executive at KLM after she was found abandoned in the washroom of an airplane in flight. Persse professes his love for her but she leaves the conference without telling him where she has gone.

Small World David Lodge, 1987 **The Campus Novel**, 2019-01-04 The *Campus Novel* Regional or Global presents innovative scholarship in the field of academic fiction. Whereas the campus novel is traditionally considered a product of the Anglo-American world, the present study opens a new perspective; it elucidates the intercultural exchange between the well-established Western canon of British and American academic fiction and its more recent regional response outside the Anglo-American territory. Mass Tourism in a Small World David Harrison, Richard Sharpley, 2017-05-26 This new book reviews all aspects of the phenomenon of mass tourism. It covers theoretical perspectives including political economy, ethics, sustainability, and environmentalism; the historical context and the current challenges to domestic, intra-regional, and international mass tourism. As tourism and tourist numbers continue to grow around the world, it becomes increasingly important that this subject is studied in depth and best practice applied in real-life situations. Finishing with a speculative chapter identifying potential future trends and challenges, this book forms an essential resource for all researchers and students within tourism studies.

Parody Margaret A. Rose, 1993-09-09 In this definitive work, Margaret Rose presents an analysis and history of theories and uses of parody from ancient to contemporary times and offers a new approach to the analysis and classification of modern, late modern, and post-modern theories of the subject. The author's *Parody: Meta-Fiction* (1979) was influential in broadening awareness of parody as a double-coded device which could be used for more than mere ridicule. In the present study, she both expands and revises the introductory section of her 1979 text and adds substantial new sections on modern and post-modern theories and uses of parody and pastiche, which also discuss the work of theorists and writers including the Russian formalists Mikhail Bakhtin, Hans Robert Jauss, Wolfgang Iser, Julia Kristeva, Roland Barthes, Michel Foucault, Jacques Derrida, Ihab Hassan, Jean

Baudrillard Fredric Jameson A S Byatt Martin Amis Charles Jencks Umberto Eco David Lodge Malcolm Bradbury and others

Tourism, Tradition and Culture David Harrison,2020-11-18 David Harrison has contributed to the academic study of tourism over the last 30 years This book brings together a collection of his published material that reflects the role played by tourism in development both in societies emerging from Western colonialism and in societies previously part of the Soviet system The overarching theme looks at how promoted as a tool for development tourism can lead to conflict between competing elites but can also empower groups previously subject to constraint by traditional authorities Tradition is intensely manipulatable and always reflects power relations Such pressure on tradition is but one aspect of tourism s wider social impacts This includes changes in economic and social structure which for many constitute social problems that need to be addressed At the same time sustainability though apparently a worthy aim can be a problematic concept especially when applied to traditional cultures and may conflict with such ideals as egalitarianism

Knowledge and Networking Anton Oleinik,2017-07-14 Success and career growth in academic life depend upon reaching and influencing the widest audience possible To do so scientists strive to develop personalized trust They do so by establishing a large number of connections through networking and also through the strength of their arguments and the validity and reliability of their research To secure increasingly rare tenure positions and achieve salary increases promotions and recognition scholars place themselves on a continuum of priorities ranging from total emphasis on networking to complete focus on advancing knowledge trying to find some middle ground between the two extremes Anton Oleinik argues that when scholars prioritize networking science reproduces features of a small world in which personal connections prevail Who knows whom matters more than who knows what In this scenario one s status derives more from affiliation with a specific group of scholars or a particular university than from contributing to advancing knowledge Acknowledging that it would be a mistake to consider networking the main source of evils in science Oleinik instead criticizes the decisions scholars make while struggling to find that middle ground between networking and advancing knowledge and managing conflicts between these priorities The fierce competition for increasingly scarce research funds and the difficulty of finding jobs in academia underlines the growing importance of the choices made by an academic Though Oleinik focuses particularly on the social sciences his ideas are just as relevant to other disciplinary areas
