Copyright Office,1977 *Soho on Screen* Jingan Young,2022-05-13 Despite Soho's rich cultural history there remains an absence of work on the depiction of the popular neighbourhood in film *Soho on Screen* provides one of the first studies of Soho within post war British cinema Drawing upon historical cultural and urban studies of the area this book explores twelve films and theatrically released documentaries from a filmography of over one hundred Soho set productions While predominantly focusing on low budget exploitation films which are exemplars of British and international filmmaking Young also offers new readings of star and director biographies from Laurence Harvey to Emeric Pressburger and in so doing enlivens discussion on filmmaking in a time and place of intense social transformation technological innovation and growing permissiveness [Making the Grade](#) William A. Fischel,2009-11-15 A significant factor for many people deciding where to live is the quality of the local school district with superior schools creating a price premium for housing The result is a race to the top as all school districts attempt to improve their performance in order to attract homebuyers Given the importance of school districts to the daily lives of children and families it is surprising that their evolution has not received much attention In this provocative book

William Fischel argues that the historical development of school districts reflects Americans desire to make their communities attractive to outsiders The result has been a standardized interchangeable system of education not overly demanding for either students or teachers one that involved parents and local voters in its governance and finance Innovative in its focus on bottom up processes generated by individual behaviors rather than top down decisions by bureaucrats Making the Grade provides a new perspective on education reform that emphasizes how public schools form the basis for the localized social capital in American towns and cities

A History of the End of the World Tim Rayborn, 2022-01-18 We may never know when the actual end of the world is upon us but that doesn't mean we can't freak out about the end times Spanning centuries cultures and continents the more than 80 doomsday scenarios featured in *A History of the End of the World* examine humanity's tendency to envision the end of itself and everything else in the universe With offerings pulled from religion and mythology science literature and conspiracy theories the range of stories is fascinating illuminating and frequently strange But whether they issue from an ancient text or a pulp sci fi novel each of these apocalyptic visions will resonate and remain at the backs of our minds making us a little bit excited and a little bit anxious keeping us awake as we lay in bed wondering what we're moving toward

Book jacket *Losing My Mind* Thomas DeBaggio, 2002-04-05 When Tom DeBaggio turned fifty seven in 1999 he thought he was about to embark on the relaxing golden years of retirement time to spend with his family his friends the herb garden he had spent decades cultivating and from which he made a living Then one winter day he mentioned to his doctor during a routine exam that he had been stumbling into forgetfulness making his work difficult After that fateful visit and a subsequent battery of tests over several months DeBaggio joined the legion of twelve million others afflicted with Alzheimer's disease But under such a curse DeBaggio was also given one of the greatest gifts the ability to chart the ups and downs of his own failing mind *Losing My Mind* is an extraordinary first person account of early onset Alzheimer's the form of the disease that ravages younger more alert minds DeBaggio started writing on the first day of his diagnosis and has continued despite his slipping grasp on one of life's greatest treasures memory In an inspiring and detailed account DeBaggio paints a vivid picture of the splendor of memory and the pain that comes from its loss Whether describing the happy days of a youth spent in a much more innocent time or evaluating how his disease has affected those around him DeBaggio poignantly depicts one of the most important parts of our lives remembrance and how we often take it for granted But to DeBaggio memory is more than just an account of a time long past it is one's ability to function to think and ultimately to survive As his life becomes reduced to moments of clarity the true power of thought and his ability to connect to the world shine through and in DeBaggio's case it is as much in the lack of functioning as it is in the ability to function that one finds love hope and the relaxing golden years of peace At once an autobiography a medical history and a testament to the beauty of memory *Losing My Mind* is more than just a story of Alzheimer's it is the captivating tale of one man's battle to stay connected with the world and his own life

Bach in Berlin Celia Applegate, 2014-10-03 Bach s St Matthew Passion is universally acknowledged to be one of the world s supreme musical masterpieces yet in the years after Bach s death it was forgotten by all but a small number of his pupils and admirers The public rediscovered it in 1829 when Felix Mendelssohn conducted the work before a glittering audience of Berlin artists and intellectuals Prussian royals and civic notables The concert soon became the stuff of legend sparking a revival of interest in and performance of Bach that has continued to this day Mendelssohn s performance gave rise to the notion that recovering and performing Bach s music was somehow national work In 1865 Wagner would claim that Bach embodied the history of the German spirit s inmost life That the man most responsible for the revival of a masterwork of German Protestant culture was himself a converted Jew struck contemporaries as less remarkable than it does us today a statement that embraces both the great achievements and the disasters of 150 years of German history In this book Celia

Applegate asks why this particular performance crystallized the hitherto inchoate notion that music was central to Germans' collective identity. She begins with a wonderfully readable reconstruction of the performance itself and then moves back in time to pull apart the various cultural strands that would come together that afternoon in the Singakademie. The author investigates the role played by intellectuals, journalists, and amateur musicians; she is one herself in developing the notion that Germans were the people of music. Applegate assesses the impact on music's cultural place of the renewal of German Protestantism, historicism, the mania for collecting and restoring, and romanticism. In her conclusion, she looks at the subsequent careers of her protagonists and the lasting reverberations of the 1829 performance itself.
