Small Church At Large Thinking Local In A Global Context:

The Small Church at Large Robin J. Trebilcock, 2002-12-31 Written for small church leaders especially in rural and pent urban settings The Small Church at Large blends creative storytelling with practical principles This book is about thriving small churches as they confront the changes of our times and engage the people in their communities who were born after 1965 Gen Xers Millennials in worship and mission There is hope for the small church but only if the small church surrenders organizational models worship patterns stewardship assumptions leadership expectations and minority self interests that have come to be more precious to small churches than the gospel itself The competition that challenges the future of the small church is not the influence of other major religions nor is it the influence of deified cultural forms of sports success profit or politics The real competition comes from within the small church itself It is the smallness of its vision the smallness of its inclusivity and the smallness of its heart Robin John Trebilcock proves that neither the lack nor the abundance of resources will be decisive for the future of the small church Imagination sensitivity leadership and sheer undiluted faithfulness will win out every time **American Book Publishing Record** ,2007 Revitalizing Practice Malcolm L. Warford, 2008 Revitalizing Practice is designed to help theological faculties engage a common set of challenges particularly in the areas of diversity formation and institutional identity These are not technical problems but are instead the very stuff out of which teaching and learning are practiced Yet addressing such issues requires intentional strategies and collaborative work Revitalizing Practice offers four such intentional strategies A New Ecology Model An Improvisational Model An Appreciative Inquiry Model and A World Caf Model Each of these models provides a thorough and practical framework based on sound theoretical concepts designed to help faculties revitalize their practices of theological teaching and learning

Sense of Entitlement Heather Thomson, 2023-09-25 How might we keep alive the interests and concerns of protest theologies and the constructive contributions they make Feminist liberation and postcolonial theologies offer guiding questions for this task What is the purpose of theology Whose interests are being served What might be the public effects of this theology This book attends to these questions through a collection of publications over the lifetime of one feminist theologian Growing up in Australia as these new protest theologies were emerging Thomson recalls the influences that went into forming her as the theologian she became She specialized in hermeneutics looking for stars and compasses that might guide her theology into these new territories with a willingness to listen to the Christian tradition for its life giving words and a willingness to critique it for the ideologies it carried This double hermeneutic can be seen throughout her work The chapters in this book are divided thematically into five parts Theology and Teaching Public Theology The Church The Atonement and Being Human Her interests in feminist and liberation theologies inform each theme so that she might pass on theology better than she received it

Nature and the Environment in Amish Life David L. McConnell, Marilyn D. Loveless, 2018-11-01 The Amish relationship to the environment is much more complicated than you might think The pastoral image of Amish communities living simply and in touch with the land strikes a deep chord with many Americans Environmentalists have lauded the Amish as iconic models for a way of life that is local self sufficient and in harmony with nature But the Amish themselves do not always embrace their ecological reputation and critics have long questioned the portrayal of the Amish as models of environmental stewardship In *Nature and the Environment in Amish Life* David L. McConnell and Marilyn D. Loveless examine how this prevailing notion of the environmentally conscious Amish fits with the changing realities of their lives Drawing on 150 interviews conducted over the course of 7 years as well as a survey of household resource use among Amish and non Amish people they explore how the Amish understand nature in their daily

lives and how their actions impact the natural world Arguing that there is considerable diversity in Amish engagements with nature at home at school at work and outdoors McConnell and Loveless show how the Amish response to regional and global environmental issues such as watershed pollution and climate change reveals their deep skepticism of environmentalists They also demonstrate that Amish households are not uniformly lower in resource use compared to their rural non Amish neighbors though aspects of their home economy are relatively self sufficient The first comprehensive study of Amish understandings of the natural world this compelling book complicates the image of the Amish and provides a more realistic understanding of the Amish relationship with the environment **New Religions in Global Perspective** Peter B.

Clarke,2004-06-01 Peter B Clarke s in depth account explores the innovative character of new religious movements and new forms of spirituality from a global vantage point Ranging from North America and Europe to Japan Latin America South Asia Africa and the Caribbean it is the perfect introduction to NRMs such as Falun Gong Aum Shirikyo the Brahma Kumaris the Ikhwan or Muslim Brotherhood Sufism the Engaged Buddhist and Engaged Hindi movements Messianic Judaism and Rastafarianism Charting the cultural significance and global impact of NRMs he discusses the ways in which various religious traditions are shaping rather than displacing each other s understanding of notions such as transcendence and faith good and evil of the meaning purpose and function of religion and of religious belonging He then examines the responses of governments churches the media and general public to new religious movements as well as the reaction to older increasingly influential religions such as Buddhism and Islam in new geographical and cultural contexts Taking into account the degree of continuity between old and new religions each chapter contains not only an account of the rise of the NRMs and new forms of spirituality in a particular region but also an overview of change in the regions mainstream religions National Culture

and the New Global System Frederick Buell,1994-09 The three worlds theory is perhaps still the basis for our dominant assumptions about geopolitical and geocultural order writes Frederick Buell but its hold on our imagination and faith is passing fast In its place a startlingly different model the notion that the world is somehow interconnected into a single system has emerged expressing the perception that global relationships constitute not three separate worlds but a single network In the wake of disillusionment with anticolonial nationalism and in response to a wide variety of economic political demographic and technological changes Buell argues we have come increasingly to view the world as complexly interconnected In National Culture and the New Global System he considers how the notion of national culture has been conceived and reconceived in the postwar period For much of the period the three world theory provided economic political and cultural models for mapping a world of nation states More recently new notions of interconnectedness have been developed ones that have had profound and sometimes startling effects on cultural production and theory Surveying recent cultural history and theory Buell shows how our understanding of cultural production relates closely to transformations in models of the world order **Planting Churches That Reproduce** Joel Comiskey,2008-12 Small group resources tend to

overlook the spiritual side of small group leadership And yet most would agree that spiritual preparation is the most important aspect of leading a small group Only Gods supernatural power can draw people to the truth and liberate them to be all that God wants them to be The key distinction of this book is the spiritual perspective it gives to small group ministry So much of the literature about small groups that is already published relates to small group technique and only touches briefly on the Spirits power This book is a practical reference guide to help small group leadership begin to move in the supernatural realm The books first priority is to help small group leaders and members trust the Holy Spirit to lead them empower them and work in their group Small group facilitators often sense a lack of guidance power and spiritual authority Jesus knew His disciples would be powerless without a touch from the Holy Spirit and so He told them to wait in Jerusalem saying You will receive power when the Holy Spirit comes on you and you will be my witnesses in Jerusalem and in all Judea and Samaria and to the ends of the earth Acts 1 8 Small group leaders need a power boost to make small group ministry relevant and exciting The second priority of this book is to help the facilitator identify and mobilize each small group member to use his or her own spiritual gifts

An Intercultural Worship Handbook Ian Collinge, 2025-04-29 Many church leaders are aware of cultural diversity in their congregations and on their doorsteps but recognize cultural imbalances in their worship practices How then can we move from welcoming worshippers to join us in how we do worship here to become a culturally diverse fellowship of equals where all express their voice and play their part This book aims to fill the gap between aspiration and actuality It is a practical handbook rooted in decades of experience It provides solid foundations from the Bible theology and cross cultural mission as well as tested principles from ethnodoxology It gives advice from practitioners examples from a host of contexts and a suite of tools for church leaders to use at different times to guide their congregations to become intercultural in their worship not just multicultural in their numbers

Mission and Evangelism in a Secularizing World Narry F. Santos, Mark Naylor, 2019-02-14 Secularization as a movement away from a religious orientation to life is strong in Canada and has influence worldwide In this volume missiologists and practitioners across Canada consider how an agenda of Christian mission and evangelism can be advanced in a secularizing environment How can believers be curious and engaged rather than defensive and fearful What changes are required from the evangelical community so that there is productive dialogue and action in ways that maintain faithfulness to the cause of Christ What should the approach of mission be to a new generation steeped in secular narratives How do we answer negative caricatures of Christian mission in light of the history of Residential Schools What examples from the past teach us about developing an irenic approach What positive trends are currently evident in Canada and around the world that counter the secularizing narrative These questions and more are considered in this volume by Canadian scholars who recognize the importance of being relevant to society while maintaining integrity with the Gospel message The essays address secularism in Canadian and worldwide contexts with seriousness insight and an underlying theme of hope recognizing that God s mission has been accomplished is being

accomplished and will be accomplished **World-Shaped Mission** Janice Price, 2012 This landmark study is the result of a three year project by the Mission and Public Affairs Division of the Archbishops Council to develop a new better narrative of mission for the church World Shaped Mission will reconfigure the way the church talks about and practices mission in the world today **New Ministries** William R. Burrows, 2006-05-01 This is an exciting informed thoughtful and ground breaking book on one of the most vital and threatening issues facing the contemporary church Father Burrows seeks effectively to show that the older forms of church and clerical life developed in the West are both irrelevant and stultifying when transferred in to the Third World and that as a consequence new forms of church and clerical life forms still within the Catholic heritage to which he affirms must be developed if the church is long to survive in that new world Frankly admitting that his suggestions are only the beginning and by no means final Burrows nevertheless makes crystal clear the need for more open attitudes towards the forms of church and the need for more open attitudes towards the forms of church and clergy if the newer churches are to become genuinely creative forces in the Third World rather than lingering embassies from the First World I found the work exceedingly stimulating the approach fresh and open and his suggestions more than worthy of careful thought by all those concerned with the Church in a global context Langdon Gilkey Shailer Mathews Professor of Theology University of Chicago Divinity School New Ministries deals with topics of vital concern for the Christian churches and it does so in a way that will catch and keep the reader's interest Burrows handles this rather explosive topic with personal sensitivity and with scholarly care Paul F Knitter Professor of Theology Xavier **Women Singers in Global Contexts** Ruth Hellier, 2013-02-07 Exploring and celebrating individual lives in diverse situations Women Singers in Global Contexts is a new departure in the study of women's worldwide music making Ten unique women constitute the heart of this volume each one has engaged her singing voice as a central element in her life experiencing various opportunities tensions and choices through her vocality These biographical and poetic narratives demonstrate how the act of vocalizing embodies dynamics of representation power agency activism and risk taking Engaging with performance practice politics and constructions of gender through vocality and vocal aesthetics this collection offers valuable insights into the experiences of specific women singers in a range of sociocultural contexts Contributors trace themes and threads that include childhood families motherhood migration fame training transmission technology and the interface of private lives and public identities **The Gospel in Human Contexts** Paul G. Hiebert, 2009-06 A leading evangelical anthropologist missiologist provides students of intercultural ministry with an understanding of worldview and a strategy for effective long term ministry **Multiplying Leaders in Intercultural Contexts** Evelyn Hibbert, Richard Hibbert, 2023-01-31 Develop Leaders in Culturally Relevant Ways Often church planters disciplers and pastors struggle to identify grassroots leaders and develop them in their context As leaders who want to develop other leaders our task is to come alongside these leaders and learn and grow together with them Multiplying Leaders in Intercultural Contexts focuses on how to develop grassroots

Christian leaders across cultures These often unrecognized leaders mostly lead small groups at the growing edges of the church They are ordinary people who faithfully share Christ amid the demands of daily life Another focus of the book is shaping the character of developers as they humbly walk beside leaders in the leaders community Using the four C s of Christian leadership Community Character Clarity and Care the authors weave together research experience and practical application to show how these characteristics are expressed across different cultures The book then discusses five principles illustrated in common settings for an intentional process that develops leaders and their communities collectively Take the next step now in developing yourself and others in the task of leading Jesus s church wherever that might be
