Names of Nihil Arvydas Šliogeris,2008 In this book probably for the first time in Western philosophy an attempt has been made to point out and systematically explicate the problem scope of the Nothing which is called Nihil in the book and to try to explain the springhead of the excessive negativity inherent only in the human being or in other words the springhead of the human s natural nihilism Nihilism is treated here not as a posture pose or an ideological attitude but as the spread of the human metaphysical nucleus of Nihil Nihilistic annihilation manifesting itself as the road of the naming of Nihil and of the production of thingly crystals artificial world as a result of that naming usually is called history Names of Nihil language phenomena being the antithesis of Nihil falsify and cover up Nihil itself turning it into supreme being e g into the One God Substance Matter Spirit ad infinitum This book should be interesting not only to philosophers or humanitarians but also to all those who concern themselves with the total human condition

The Orchard of Pomegranates - Pardes Rimoni Rabbi Moshe Cordovero (Ramak),2025-09-11 Pardes Rimoni The Orchard of Pomegranates is the magnum opus of Rabbi Moshe Cordovero Ramak 1522 1570 written in Safed in the mid 16th century It is the first systematic encyclopedia of Kabbalah in which ancient mystical teachings were gathered and organized into a coherent system The title of the book is symbolic the pomegranate with its hundreds of seeds represents the multitude of mysteries and meanings contained within the Torah and the cosmos Like a garden filled with diverse fruits Kabbalah is presented in the book as a holistic harmonious teaching Across 32 gates Ramak guides the reader through key areas of mystical thought from the doctrine of the One God and the ten Sefirot to the structure of spiritual worlds Angels and Demons the nature of the Soul the meaning of commandments and the mystery of future redemption This book blends philosophical clarity with poetic inspiration It opens a path not only to understanding Kabbalah but also to experiencing it as a living reality where each step of the seeker brings them closer to the Infinite There are books written in ink and there are books written in light Pardes Rimoni is not merely the treatise of a sage it is a garden into which one enters with a bare heart There branches intertwine like the paths of the Sefirot there pomegranates hang heavy with fruit each seed holding a secret each seed a part of the whole Rabbi Moshe Cordovero the great Ramak opened the gates of this garden in Safed where the air was filled with hymns and revelations and gathered all the voices of Kabbalah so that in one place they might sing a symphony of infinity Here we learn that God is One that His light shines through ten vessels that the human soul is bound to the roots of creation and that every commandment every prayer is a thread mending the fabric of the world But this garden is not only a solace it is also a challenge For the deeper we wander its paths the more we realize behind the first mystery lies a second behind the second a third and so on endlessly until we dissolve into Ein Sof Whoever enters this garden with an open heart will hear the leaves whisper eternal names and perhaps find there their own fruit sweet and radiant like a spark of the soul

The Basic Ways of Knowing Govardhan P. Bhatt,1989 The book gives a penetrating and full length study of epistemology in the school of Bhatta Mimamsa The work is based on an intensive and critical study of the Sanskrit texts which have not been utilized by any other Oriental scholar so far It is very much different from other books on the subject because it not only discusses historically the epistemology of the Bhatta School but also discusses many really philosophical problems connected with epistemology in general and Indian epistemology in particular One of the most valuable features of the work is the comparative references which it makes to standard epistemologists of Western philosophy The book reaches the highest watermark in its line It compares and contrasts the Bhatta position on various issues with not only other Indian schools but also with some of the European philosophers like Russell Moore Reid Hume Mill and Kant In a sense it is an exercise in comparative philosophy This is inevitable as otherwise the position of the Bhatta School cannot be clarified and brought out in depth
