Steam Towboat Directory Frederick Way (Jr.),1990 After the initial release in 1983 of Way s Packet Directory 1848 1983 the demand was enormous for a similar treatment of the steam towboats that once populated the Mississippi River System Captain Frederick Way Jr aided by Joseph W Rutter gathered together this wealth of information concerning steamboats that shoved river barges laden with coal petroleum products chemicals sand gravel and similar bulk commodities from the headwaters of the Ohio River to the jetties of the Mississippi The steam towboats that performed these services have completely disappeared from the scene their places having been taken by hundreds of modern diesel propeller towboats but this thorough and remarkable reference guide helps preserve their history *McClure's Magazine* ,1903 **Steamboat in' Log** Bern Keating,1986-03-01 Steam Andrea Sutcliffe,2024-03-26 In 1807 Robert Fulton using an English mail order steam engine chugged four miles an hour up the Hudson River passing into popular folklore as the inventor of the steamboat However the true first passenger steamboat in America and the world was built from scratch and plied the Delaware River in 1790 almost two decades earlier Its inventor John Fitch never attained Fulton s riches and was rewarded with ridicule and poverty Considering there was not a single working steam engine in America in the early 1780s Fitch s steamboat s development was nothing short of remarkable But he faced competition from the start and he and several other inventors fought a string of bitter battles legal and otherwise Steam tells the dramatic story of Fitch and his adversaries weaving their
