Steel Tiger:

Steel Tiger Mark Berent, 1990 Vietnam 1967 America's most daring fighter pilots faced their greatest challenge in a desperate war. Now on his second tour Major Court Bannister is hunted by a new more determined breed of enemy and haunted by his brother's shocking act of treason. **Vietnam War** James H. Willbanks, 2017-11-16 This detailed two volume set considers the Vietnam War one of America's longest and bloodiest wars from a topical perspective addressing the main characters and key events of the war and supplying many relevant primary source documents. The Vietnam War not only claimed the lives of nearly 60,000 Americans and more than a million Vietnamese but the prolonged conflict also resulted in a firestorm of protest at home that shook the foundations of the country and made U.S. citizens question the moral principles and motivations behind our foreign policy and military actions. Written in a very accessible style by recognized authorities on the war Vietnam War A Topical Exploration and Primary Source Collection provides students and general readers with a complete overview of the conflict in Vietnam a broad topic that remains an important part of the American history and world history curriculum. Using a topical approach to cover all aspects of the war the set enables students to see the complete picture of the conflict through its presentation of reference entries and documents arranged in cohesive compelling chapters. Examples of the primary documents in the set include Communist Party Evaluation of the Tet Offensive 1968 and President Richard Nixon's Speech on Vietnamization 1969. These primary sources are augmented by oral histories of soldiers who fought in the Tet Offensive. Additionally maps and images in each section enhance the aesthetic appeal of the book and heighten students' understanding of the material. Readers will come away with both a strong comprehension of the Vietnam War as well as an appreciation for how significant this proxy conflict was as a lead up event to the global Cold War. **F-105**

Thunderchiefs W. Howard Plunkett, 2016-05-01 One of the U.S. Air Force's most important fighter bombers the F-105 Thunderchief was in operation for almost thirty years. It played a key role in the Vietnam War. This book details the histories of the 103 F-105s that are displayed around the world. Part One of the work summarizes the 29 years of F-105 operations focusing on events aircraft configurations units and bases. The individual histories and photographs of each surviving F-105 from its production to its static display are contained in Part Two. Appendices provide a mapped out state by state Thunderchief Tour and the fate by serial number of all 117 of the F-105s that survived their operational career only to end up in scrap yards. **Command and Control and Communications Structures in Southeast Asia** John J. Lane, 1981

The Nimrods Roger D. Graham, 2007 The Nimrods is an important new book for two reasons. First it is an accurate true life story told by an A-26 navigator co pilot who flew 182 combat missions in the Vietnam War about a magnificent band of A-26 pilots and navigator co pilots who flew from 1966 to 1969 countless high intensity nighttime dive bombing missions in The Secret War in Laos. Steel Tiger Barrel Roll and along the Ho Chi Minh Trail. To illustrate the intensity of the dive bombing missions in the Vietnam War the writer describes in detail more than twenty separate unforgettable missions and more.

importantly the personalities and psychological reactions of all of the unforgettable characters who were a part of the 609th Special Operations Squadron. Second, the book is highly relevant to the current Wars in Iraq and Afghanistan and the Global War on Terror because it addresses the lessons learned in the Vietnam War and World War II and the Korean War and advocates that Americans and their allies apply those lessons learned to terrorism and renewed threats of nuclear war from tyrants and terrorists around the world. This is a book whose time has come. The views of our military veterans and their families who have endured the life threatening and life changing experiences of combat are made known to the American public and our allies. Recommendations from The Iraq Study Group Report and President Bush's new Iraq strategy are reviewed and analyzed. The book articulates a new way forward and a new vision that can be embraced by the entire world and contrasts the vision of America and its allies with the vision of Osama bin Laden and the radical Islamic terrorists who threaten the security of the entire world.

Commando Hunt, 1969. A report on the joint interdiction operations of the Commando Hunt campaign. It describes the conduct of the campaign and its results in terms of enemy logistic flows reduced, trucks and supplies destroyed, resources tied down within Laos, and the effects of this had on enemy efforts within South Vietnam.

Batcats, Jack Sikora, Larry Westin, 2003. Written by men who flew the missions and gathered together the recollections of their comrades, this is an account of the political, social, cultural, technical, and combat context of an extraordinary side of the Vietnam conflict. An account touching on topics ranging from Thai supernaturalism to high tech warfare, it is also the very human story of American airmen obliged to keep heady secrets and perform demanding tasks under menacing conditions. A good read for aviation enthusiasts, students of the Vietnam War, veterans, and those wishing to learn more about Southeast Asia, this book is more than a history. It is a holistic portrait of a little known and less understood aspect of the Vietnam era.

The Phantom Vietnam War, David R. Honodel, 2018-09-15. David R. Buff Honodel was a cocky young man with an inflated self image when he arrived in 1969 at his base in Udorn, Thailand. His war was not in Vietnam; it was a secret one in the skies of a neighboring country almost unknown in America, attacking the Ho Chi Minh Trail that fed soldiers and supplies from North Vietnam into the South. Stateside, he learned the art of flying the F-4, but in combat, the bomb-loaded fighter handled differently, targets shot back, and people suffered. Inert training ordnance was replaced by lethal weapons. In the air, a routine day mission turned into an unexpected duel with a deadly adversary. Complacency during a long night mission escorting a gunship almost led to death. A best friend died just before New Year's. An RF-4 crashed into the base late in Buff's tour of duty. The reader will experience Buff's war from the cockpit of a supersonic F-4D Phantom II, doing 5 G pullouts after dropping six 500 pound bombs on trucks hidden beneath triple jungle canopy. These were well defended by a skillful, elusive, determined enemy firing back with 37mm anti-aircraft fire and tracers in the sky. The man who left the States was a naive self-centered young pilot. The man who came back 137 missions later was much different. *Air Force Magazine*, 2004.
