Stefan George:

The Works of Stefan George Stefan George, 1974 This translation of all the poems in the main body of the work of George extensively revises the first publication of The Works of Stefan George which appeared in 1949 The editors have also expanded the volume adding a number of George's early poems under the collective title Drawings in Grey two essays including the eulogy on Holderlin and the lyrical drama The Lady's Praying along with a commentary by the translators A Companion to the Works of Stefan George Jens Rieckmann, 2005 Stefan George 1868-1933 is along with Hugo von Hofmannsthal and Rainer Maria Rilke one of the pre-eminent German poets of the twentieth century He also had an important albeit controversial and provocative role in German cultural history It is generally agreed that he played a significant part in the transition of German literature to Modernism particularly in poetry At the same time he was an outspoken critic of modernity He believed that only an all-encompassing cultural renewal could save modern man Although George is often linked with the *l'art pour l'art* movement and although his artistic consciousness was formed by European aestheticism his poetry and the writings that emerged from the poets and intellectuals he gathered around him in the George Circle are above all a scathing commentary on the political social and cultural situation in Germany at the turn of the century George who was imbued with the idea of the poet as a prophet and priest saw himself as the Messiah of a New Hellenism and a New Reich led by an intellectual and aesthetic elite consisting of men who were bonded together through their allegiance to a charismatic leader Some of the values that George proclaimed among them a glorification of power of heroism and self-sacrifice were seized upon by the National Socialists and subsequently his writings and those of his circle were considered by some to be proto-fascist It did not help his reputation that after the Second World War much of the criticism of his works was practiced by uncritical hagiographic George worshippers In recent years however there has been a renewed and unbiased interest among scholars and critics in George and his circle The wide-ranging and original essays in this volume explore anew George's poetry and his contribution to Modernism the relation between his vision of a New Reich and fascist ideology and his importance as a cultural critic Jens Rieckmann is Professor of German at the University of California Irvine **The Works of Stefan George**, 2020-05-01 This translation of all the poems in the main body of the work of George extensively revises the first publication of The Works of Stefan George which appeared in 1949 The editors have also expanded the volume adding a number of George's early poems under the collective title Drawings in Grey two essays including the eulogy on Holderlin and the lyrical drama The Lady's Praying along with a commentary by the translators The Works of Stefan George Stefan Anton George, 1966 **Stauffenberg** Peter Hoffmann, 2003 Most of us are aware of the attempt to assassinate Hitler but few know about those behind it In this family history Peter Hoffmann reveals the tragic and heroic life of Claus Count Stauffenberg South German aristocrat and would-be assassin of Adolph Hitler He details Stauffenberg's formative years showing how his relationship with his brothers Berthold and Alexander their association with the circle of the

poet Stefan George and their professional and political development led them to resist the tyranny of Hitler And the German government first through established channels but culminating in the attempted assassination and coup of 20 July 1944 Stauffenberg is based on the most comprehensive collection of sources yet used including family papers correspondence and information from numerous contemporaries and includes a unique collection of illustrative material This new edition includes important information Hoffmann has discovered since the book was first published *The Works of Stefan George* Stefan Anton George,1949 *The Atonal Music of Arnold Schoenberg, 1908-1923* Bryan R. Simms,2000-11-16 Between 1908 and 1923 Arnold Schoenberg began writing music that went against many of the accepted concepts and practices of this art Largely following his intuition during these years he composed some of the masterpieces of the modern repertoire including *Pierrot lunaire* and *Erwartung* works that have since provoked a large though fragmented body of critical and analytical writing In this book Bryan Simms combines a historical study with a close analytical reading of the music to give us a new and richer understanding of Schoenberg s seminal work during this period **The works of Stefan George rendered into English** Stefan George,Olga Marx,1966 *A Poet's Reich* Melissa S. Lane,Martin A. Ruehl,2011 Stefan George 1868 1933 was one of the most important figures in modern German culture His poetry in its originality and impact has been ranked with that of Goethe and Holderlin Yet George s reach extended beyond the sphere of literature In the early 1900s he gathered around himself a circle of disciples who subscribed to his vision of comprehensive cultural spiritual renewal and sought to turn it into reality The ideas of the George Circle profoundly affected Germany s educated middle class especially in the aftermath of the First World War when their critique of bourgeois liberalism materialism and scholarship Wissenschaft as well as their call for new forms of leadership Herrschaft and a new Reich found wider resonance The essays collected in the present volume critically re examine these ideas their contexts and their influence They provide new perspectives on the intersection of culture and politics in the works of the George Circle not least its ambivalent relationship to National Socialism *The Dynastic Imagination* Adrian Daub,2021-02-17 Adrian Daub s *The Dynastic Imagination* offers an unexpected account of modern German intellectual history through frameworks of family and kinship Modernity aimed to brush off dynastic hierarchical authority and to make society anew through the mechanisms of marriage siblinghood and love It was in other words centered on the nuclear family But as Daub shows the dynastic imagination persisted in time emerging as a critical stance by which the nuclear family s conservatism and temporal limits could be exposed Focusing on the complex interaction between dynasties and national identity formation in Germany Daub shows how a lingering preoccupation with dynastic modes of explanation legitimation and organization suffused German literature and culture Daub builds this conception of dynasty in a syncretic study of literature sciences and the history of ideas engaging with remnants of dynastic ideology in the work of Richard Wagner mile Zola and Stefan George and in the work of early feminists and pioneering psychoanalysts At every stage of cultural progression Daub reveals how the relation of dynastic to nuclear families inflected

Stefan George Introduction

In today's digital age, the availability of Stefan George books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Stefan George books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Stefan George books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or

professional purposes. By accessing Stefan George versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Stefan George books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Stefan George books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Stefan George books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Stefan George books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Stefan George books and manuals for download and embark on your journey of knowledge?
