dollars of valuation was lost The Flash Crash as it became known represented what was then the fastest drop in market history When share values rebounded less than half an hour later experts around the globe were left perplexed What had they just witnessed Navinder Singh Sarao hardly seemed like a man who would shake the world's financial markets to their core Raised in a working class neighborhood in West London Nav was a preternaturally gifted trader who played the markets like a computer game By the age of thirty he had left behind London's trading arcades working instead out of his childhood home For years the money poured in But when lightning fast electronic traders infiltrated markets and started eating into his profits Nav built a system of his own to fight back It worked until 2015 when the FBI arrived at his door Depending on whom you ask Sarao was a scourge a symbol of a financial system run horribly amok or a folk hero who took on the tyranny of Wall Street and the high frequency traders A real life financial thriller Flash Crash uncovers the remarkable behind the scenes narrative of a mystifying market crash a globe spanning investigation into international fraud and a man at the center of them both

Pivots, Patterns, and Intraday Swing Trades, + Website M. William Scheier, 2014-01-28 An original approach to trend discovery and trade entry Initial forays into day trading stock index futures reveal a starkly different decision environment There is no time to dwell on technical conditions Intraday volatility in the stock indices is far more exaggerated than the daily bar charts of other markets partly due to the extreme leverage partly due to the intense attention And positioning techniques that prove reliable in the action of the long term trends in other instruments tend to fail in the countertrend reactions of the highly leveraged S P futures contract within the short term For the informed trader tremendous opportunities in these intraday trend swings can be captured This book will show you how Filled with detailed technical models this reliable resource skillfully utilizes innovative methodologies for trend discovery and trade entry in mini stock index futures markets It offers a fresh approach to understanding and capitalizing on market volatility allowing you to sort out the apparent chaos of the day trading environment through codified and recognizable trade entry setups Highlights trading techniques that are anything but mechanical scalping Explores conceptual event models and their accompanying rules Contains tools by which major intraday swing trends can be identified quickly and often at the very turning points where they begin Explains the underlying order and structure to the markets based on the repetitive nature of human behavior Engaging and informative this reliable resource will put you in a better position to excel in today's dynamic markets
