Stephen The Black:

Stephen the Black Caroline H. Pemberton, 1899 **The Shadow of the Black Hole** John W. Moffat, 2020-06-16 Black holes entered the world of science fiction and films in the 1960s and their popularity in our culture remains today The buzz surrounding black holes was and is due in large part to their speculative nature It is still difficult for the general public to determine fact versus fiction as it pertains to this terrifying idea something big enough to swallow anything and everything in close proximity with a gravitational force so strong that nothing including light can escape In the fall of 2015 scientists at the Laser Interferometry Gravitational Wave Observatory LIGO detected the first sounds from black holes brought to earth by the gravitational waves that emitted from the merging of two black holes 1.4 billion light years away in space This confirmed the existence of gravitational waves which Albert Einstein predicted in 1916 In the spring of 2017 physicists and astronomers who were working on the Event Horizon Telescope EHT project captured the first image of a black hole This was the supermassive black hole hosted by the galaxy M87 in the constellation Virgo 53 million light years away and the image shows the shadow the black hole casts upon the bright light surrounding it In this book John Moffat shares the history of black holes and presents the latest research into these mysterious celestial objects including the astounding results from gravitational wave detection and the shadow of the black hole **Black Saints in Early Modern Global Catholicism** Erin Kathleen Rowe, 2019-12-12 This is the untold story of how black saints and the slaves who venerated them transformed the early modern church It speaks to race the Atlantic slave trade and global Christianity and provides new ways of thinking about blackness holiness and cultural authority Where No Black Woman Has Gone Before Diana Adesola Mafe, 2018-03-01 A look at African American women in science fiction fantasy and horror A compelling contribution to the scholarship on speculative cinema and television Journal of American Culture When Lieutenant Uhura took her place on the bridge of the Starship Enterprise on Star Trek the actress Nichelle Nichols went where no African American woman had ever gone before Yet several decades passed before many other black women began playing significant roles in speculative i.e. science fiction fantasy and horror film and television a troubling omission given that these genres offer significant opportunities for reinventing social constructs such as race gender and class Challenging cinema's history of stereotyping or erasing black women onscreen *Where No Black Woman Has Gone Before* showcases twenty-first century examples that portray them as central figures of action and agency Writing for fans as well as scholars Diana Adesola Mafe looks at representations of black womanhood and girlhood in American and British speculative film and television including *28 Days Later* *AVP Alien vs Predator* *Children of Men* *Beasts of the Southern Wild* *Firefly* and *Doctor Who* Series 3 Each of these has a subversive black female character in its main cast and Mafe draws on critical race postcolonial and gender theories to explore each film and show placing the black female characters at the center of the analysis and demonstrating their agency The first full study of black female characters in speculative film and television *Where No Black Woman Has Gone Before* shows why heroines such

as Lex in AVP and Zo in Firefly are inspiring a generation of fans just as Uhura did **A Madman's Will** Gregory May,2023-04-11 The untold saga of John Randolph's 383 slaves freed in his much contested will of 1821 finally comes to light Few legal cases in American history are as riveting as the controversy surrounding the will of Virginia Senator John Randolph 1773-1833 which almost inexplicably freed all 383 of his slaves in one of the largest and most publicized manumissions in American history So famous is the case that Ta Nehisi Coates has used it to condemn Randolph's cousin Thomas Jefferson for failing to free his own slaves With this groundbreaking investigation historian Gregory May now reveals a more surprising story showing how madness and scandal shaped John Randolph's wildly shifting attitudes toward his slaves and how endemic prejudice in the North ultimately deprived the freedmen of the land Randolph had promised them Sweeping from the legal spectacle of the contested will through the freedmen's dramatic flight and horrific reception in Ohio *A Madman's Will* is an extraordinary saga about the alluring promise of freedom and its tragic limitations **Constructing Black Selves** Lisa Diane McGill,2005-11-01 In 1965 the Hart Cellar Immigration Reform Act ushered in a huge wave of immigrants from across the Caribbean Jamaicans Cubans Haitians and Dominicans among others How have these immigrants and their children negotiated languages of race and ethnicity in American social and cultural politics As black immigrants to which America do they assimilate *Constructing Black Selves* explores the cultural production of second generation Caribbean immigrants in the United States after World War II as a prism for understanding the formation of Caribbean American identity Lisa D McGill pays particular attention to music literature and film centering her study around the figures of singer actor Harry Belafonte writers Paule Marshall Audre Lorde and Piri Thomas and merengue hip hop group Proyecto Uno Illuminating the ways in which Caribbean identity has been transformed by mass migration to urban landscapes as well as the dynamic and sometimes conflicted relationship between Caribbean American and African American cultural politics *Constructing Black Selves* is an important contribution to studies of twentieth century U S immigration African American and Afro Caribbean history and literature and theories of ethnicity and race **Black-Brown Solidarity** John D. Márquez,2014-01-01 Houston is the largest city in the Gulf South a region sometimes referred to as the black belt because of its sizeable African American population Yet over the last thirty years Latinos have become the largest ethnic minority in Houston which is surpassed only by Los Angeles and New York in the number of Latino residents Examining the history and effects of this phenomenon *Black Brown Solidarity* describes the outcomes of unexpected coalitions that have formed between the rapidly growing Latino populations and the long held black enclaves in the region Together minority residents have put the spotlight on prominent Old South issues such as racial profiling and police brutality Expressions of solidarity John D Márquez argues have manifested themselves in expressive forms such as hip hop music youth gang cultural traits and the storytelling of ordinary residents in working class communities Contrary to a growing discourse regarding black brown conflict across the United States the blurring of racial boundaries reflects broader arguments regarding hybrid cultures that unsettle the orders established by

centuries old colonial formations Accentuating what the author defines as a racial state of expendability the lynchpin of vigilante violence and police brutality the new hybridization has resulted in shared wariness of a linked fate Black Brown Solidarity also explores the ways in which the significance of African American history in the South has influenced the structures through which Latinos have endured and responded to expendability Mining data from historical archives oral histories legal documents popular media and other sources this work is a major contribution to urban studies ethnic studies and critical race theory Black Skin, Blue Books Daniel G. Williams, 2012-09-15 Williams analyses and compares the ways in which African Americans and the Welsh have defined themselves as minorities within larger nation states the UK and US The study is grounded in examples of actual friendships and cultural exchanges between African Americans and the Welsh such as Paul Robeson's connections with the socialists of the Welsh mining communities and novelist Ralph Ellison's stories about his experiences as a GI stationed in wartime Swansea This wide ranging book draws on literary historical visual and musical sources to open up new avenues of research in Welsh and African American studies **Herd Register of the American Jersey Cattle Club**, 1896 Herd Register American Jersey Cattle Club, 1896
