Stereotypes in Contemporary Anglo-German Relations Rainer Emig,2000 *Britain, Germany and the Cold War* R. Gerald Hughes,2007-06-11 This well researched book details the ambiguity in British policy towards Europe in the Cold War as it sought to pursue détente with the Soviet Union whilst upholding its commitments to its NATO allies From the early 1950s Britain pursued a dual policy of strengthening the West whilst seeking détente with the Soviet Union British statesmen realized that only through compromise with Moscow over the German question could the elusive East West be achieved Against this the West German hard line towards the East endorsed by the United States was seen by the British as perpetuating tension between the two blocs This cast British policy onto an insoluble dilemma as it was caught between its alliance obligations to the West German state and its search for compromise with the Soviet bloc Charting Britain's attempts to reconcile this contradiction this book argues that Britain successfully adapted to the new realities and made hitherto unknown contributions towards détente in the early 1960s whilst drawing towards Western Europe and applying for membership of the EEC in 1961 Drawing on unpublished US and UK archives Britain Germany and the Cold War casts new light on the Cold War the history of détente and the evolution of European integration This book will appeal to students of Cold War history British foreign policy German politics and international history **Touring Beyond the Nation: A**

Transnational Approach to European Tourism History Eric G.E. Zuelow,2016-12-05 When tourists travel they often seek the exotic The farther they venture the more unique the cultures they gaze upon the greater the prestige accrued cross cultural contact is commonplace Yet despite the obviously transnational character of the tourist experience national borders define existing studies of tourism Spanish French or German tourism is treated almost in isolation and there are only hints of a larger transnational impetus behind the creation of national tourism products This volume tells a different story Although

modern tourism first evolved in Europe changes were never confined to national borders The Grand Tour the birthplace of modern tourism was consummately transnational in both its execution and its influence Although seaside resorts originated in Britain the aesthetic and scientific ideas that made beaches desirable emerged through conversation among Dutch painters English travellers and both British and Continental scientists and philosophers When travel was finally available to the masses Irish tourism advocates looked to England Continental Europe and America for ideas The Nazi leisure organization Strength through Joy KdF was based on an earlier Italian model the Dopolavoro World's Fair promoters raided previous fairs in other countries for ideas European wide demand and taste helped shape nudist practice in France and beyond At every turn practices and products developed because tourism lent itself to trans national discourse The contributors examine a wide range of topics that together make a powerful argument for the adoption of a new transnational model for understanding modern tourism An essential addition to the library of academics studying the history of tourism popular culture and leisure in Europe the book will also provide interest to scholars of transnational topics including Europeanization and globalization

Tabloiding the Truth Steve Buckledee, 2020-06-09 What skills do journalists exhibit in sensationalising exaggerating and otherwise tabloiding the truth while usually stopping short of stating unambiguous falsehoods Why has the tabloid news not collapsed as predicted but thrived as a medium in an age of interaction and online commentary This book is a comprehensive and accessible exploration of the British tabloid newspapers from the 1960s to the present day Examining topics such as sex and the representation of women national stereotypes and Britain's relationship with Europe war coverage celebrities investigative journalism and instances where the tabloids have misread the public mood the author draws on Critical Discourse Analysis and Stylistics to take a language led approach to the UK tabloids With its interdisciplinary approach and readable prose style this book will be of interest to a wide range of readers across language and linguistics media and communication journalism political science and British cultural studies

Hybrid Humour , 2010-01-01 An interdisciplinary and transcultural study of comedy in a pan European perspective that include East West and Southern European examples These range from humour in Polish poetry via jokes about Italian migrants in English speaking TV commercials to Turkish comedy literature and cartoons in Germany Turkish Surinamese Iranian and Moroccan literary humour in the Netherlands Beur humour in many media in France and Asian humour in literature film and TV series in Great Britain The volume is prefaced and informed by contemporary postcolonial theories that show humour not as an essential quality of each particular culture or as a common denominator of humanity but as a complex structure of dialogue conflict and sometimes resolution The volume is of interest for students and scholars of Comparative Literature Cultural Studies and Media Studies as well as for students and experts in the cultures and literatures that are covered in the collection of essays It is relevant for courses on globalisation migration and integration

The Allied Occupation of Germany Francis Graham-Dixon, 2013-09-18 In the years following World War II the allies occupied a shattered Germany

Britain held North Western Germany for ten years overseeing the rehabilitation of the biggest single forced population movement in modern history as Germans from around Europe were expelled from the crumbling Third Reich This was a humanitarian crisis with most hospitals houses transport networks and schools destroyed during the war and the British and Americans running enormous and often inhumane refugee camps Here Francis Graham Dixon assesses how the British squared their ethical focus on liberalism with their status as an occupying power and examines the economic military and political pressures of the period through the key turning points of the end of World War II the bombing of Hamburg in 1943 the mismanagement of the refugee camp system and the fallout between occupiers and occupied after the Nuremberg trials of 1945 6 The first book to compare German and British sources from the period this is an essential contribution to the literature on World War II the Cold War and post war Europe **British Images of Germany** R. Scully, 2012-10-30 British Images of Germany is the first full length cultural history of Britain s relationship with Germany in the key period leading up to the First World War Richard Scully reassesses what is imagined to be a fraught relationship illuminating the sense of kinship Britons felt for Germany even in times of diplomatic tension
