Stiff Critique:

The Persuasion Handbook James Price Dillard, Michael Pfau, 2002-07-23 The Persuasion Handbook provides readers with cogent comprehensive summaries of research in a wide range of areas related to persuasion. From a topical standpoint, this handbook takes an interdisciplinary approach covering issues of interest to interpersonal and mass communication researchers as well as psychologists and public health practitioners. Persuasion is presented in this volume on a micro to macro continuum moving from chapters on cognitive processes, the individual, and theories of persuasion to chapters highlighting broader social factors and phenomena related to persuasion such as social context and larger scale persuasive campaigns. Each chapter identifies key challenges to the area and lays out research strategies for addressing those challenges.

A Free Corrector Joshua McNall, 2015 A Free Corrector evaluates Colin Gunton's treatment of Augustine's legacy on the Trinity and the doctrine of creation. Gunton claimed that Augustine's work ultimately contributed to a host of problems for the Western tradition. Joshua McNall addresses this in conjunction with Gunton's argument regarding Augustine's afterlife. In the end, A Free Corrector argues that while Gunton was far too free in his correctio of Augustine, it is also true that isolated aspects of his Augustinian narrative remain viable.

The Naked Preacher Jason C. Boyd, 2018-03-29 This new volume in the SCM Research series argues that both preaching and Action Research are inherently exposing practices. They require a deep level of self-consciousness and a willingness to hold oneself up to critique and comment. But at their best, they are both formed within a deep and supportive critical community. Applying a methodology rooted in Action Research as a way of Doing Theology (ART) and drawn from the author's own research within a specific community of practice, The Naked Preacher demonstrates for preachers and ministers new ways to be critically and constructively self-aware. It also offers an important contribution for practical theologians with an interest in action research and critical reflection.

Attitudes and Persuasion Philip Erwin, 2014-02-24 Attitudes and Persuasion provides an up-to-date overview of the crucial role that attitudes play in our everyday lives and how our thoughts and behaviour are influenced. The nature, function, and origins of attitudes are examined, and a review of how they can be measured is given. The book addresses complex questions such as whether we always behave in accordance with our attitudes and what factors may influence us to change them.

Principled Resistance to ECtHR Judgments - A New Paradigm? Marten Breuer, 2019-07-17 The book analyses the position of the ECtHR, which has been more and more confronted with criticism coming from the national sphere, including the judiciary. This culminated in constitutional court judgments declaring a particular ECtHR judgment non-executable for reasons of constitutional law. Existing scholarship does not differentiate enough between cases of mere political unwillingness to execute an ECtHR judgment and cases where execution is blocked for legal reasons, mainly of constitutional law nature. At the same time, the discussion under EU law on national constitutional identity, limiting the reach of the former, has been only loosely linked with the ECHR context. This book presents a new dogmatic concept: principled

resistance to analyse such cases Taking up examples from the national level it strives to find out whether the legal reasoning behind principled resistance shows enough commonalities in order to qualify such incidents as expression of a new paradigm

Explaining U.S. Imprisonment Mary Bosworth,2010 Explaining U S Imprisonment builds on and extends some of the contemporary issues of women in prison minorities and the historical path to modern prisons as well as the social influences on prison reform

Desire in Ashes Simon Wortham,Chiara Alfano,2015-12-17 The indebtedness of contemporary thinkers to Derrida s project of deconstruction is unquestionable whether as a source of inspiration or the grounds of critical antagonism This collection considers how best to recall deconstruction Rather than reduce it to an object of historical importance or memory these essays analyze its significance in terms of complex matrices of desire provoked in this way deconstruction cannot be dismissed as dead nor unproblematically defended as alive and well Repositioned on the threshold of life death deconstruction profoundly complicates the field of critical thought which still struggles to memorialize inter or reduce the deconstructive corpus to ashes
