Stiffed The Betrayal Of The Modern Man

Victor J. Seidler

Stiffed The Betrayal Of The Modern Man:

Stiffed Susan Faludi, 1999-09-22 One of the most talked about books of last year the Pulitzer Prize winning author of *Backlash* now explores the collapse of traditional masculinity that has left men feeling betrayed With *Backlash* in 1991 Susan Faludi broke new ground when she put her finger directly on the problem bedeviling women and the light of recognition dawned on millions of her readers what s making women miserable isn t something they re doing to themselves in the name of independence It s something our society is doing to women The book was nothing less than a landmark Now in *Stiffed* the author turns her attention to the masculinity crisis plaguing our culture at the end of the 90s an era of massive layoffs Angry White Male politics and Million Man marches As much as the culture wants to proclaim that men are made miserable or brutal or violent or irresponsible by their inner nature and their hormones Faludi finds that even in the world they supposedly own and run men are at the mercy of cultural forces that disfigure their lives and destroy their chance at happiness As traditional masculinity continues to collapse the once valued male attributes of craft loyalty and social utility are no longer honored much less rewarded Faludi s journey through the modern masculine landscape takes her into the lives of individual men whose accounts reveal the heart of the male dilemma *Stiffed* brings us into the world of industrial workers sports fans combat veterans evangelical husbands militiamen astronauts and troubled bad boys whose sense that they ve lost their skills jobs civic roles wives teams and a secure future is only one symptom of a larger and historic betrayal With *Backlash* in 1991 Susan Faludi broke new ground when she put her finger directly on the problem bedeviling women and the light of recognition dawned on millions of her readers what s making women miserable isn t something they re doing to themselves in the name of independence It s something our society is doing to women The book

was nothing less than a landmark Now in *Stiffed* the author turns her attention to the masculinity crisis plaguing our culture at the end of the 90s an era of massive layoffs Angry White Male politics and Million Man marches As much as the culture wants to proclaim that men are made miserable or brutal or violent or irresponsible by their inner nature and their hormones Faludi finds that even in the world they supposedly own and run men are at the mercy of cultural forces that disfigure their lives and destroy their chance at happiness As traditional masculinity continues to collapse the once valued male attributes of craft loyalty and social utility are no longer honored much less rewarded Faludi's journey through the modern masculine landscape takes her into the lives of individual men whose accounts reveal the heart of the male dilemma *Stiffed* brings us into the world of industrial workers sports fans combat veterans evangelical husbands militiamen astronauts and troubled bad boys whose sense that they've lost their skills jobs civic roles wives teams and a secure future is only one symptom of a larger and historic betrayal

New Soviet Man John Haynes, 2024-07-30 Cinema has long been recognised as the privileged bridge between Soviet ideologies and their mass public Recent feminist oriented work has drawn out the symbolic role of women in Soviet culture but not surprisingly men too were expected to play their part In this first full length study of masculinity in Stalinist Soviet cinema John Haynes examines the New Soviet Man not only as an ideal of masculinity presented to Soviet cinemagoers but also precisely as a man in his specific and hotly debated social cultural and political context A detailed analysis of Stalinist discourse sets the stage for an examination of the imagined relationship between the patriarch Stalin and his model sons in the key genre cycles of the era from the capital to the collective farms and ultimately to the very borders of the Soviet state Informed by contemporary and present day debates over the social and cultural significance of cinema and masculinity *New Soviet Man* draws on a range of theoretical and comparative material to produce engaging and accessible readings accounting for both the appeal of and the inherent potential for subversion within films produced by the Stalinist culture industry *New Soviet Man* will be widely read by students and specialists in the fields of film studies Russian and Soviet studies gender and modern European history

Young Men and Masculinities Victor J. Seidler, 2013-07-04 In this book Victor J Seidler one of the leading contributors to the growing debate about masculinities turns his attention to the lives of young men and their understandings of themselves as gendered beings By contextualizing their experiences and subjectivities within a rapidly globalizing world Seidler pays particular attention to the impact of the global media How does the mass circulation of images of men's bodies desires and sexualities affect their self perception and behaviours and how are these images framed within particular histories cultures and traditions Questioning universalist theories of hegemonic masculinities the book argues that young men often feel caught between prevailing masculinities and their own struggle for self definition It explores both how the idea of men as the First Sex has been established within the West and the ways in which men in other cultures and societies affirm their gendered identities Seidler pioneers new methodologies that involve listening to the silences surrounding male experience as well as to oral testimonies This enables

innovative analysis of the contradictions young men are faced with in both creating their own gendered identities and establishing more equal relationships within a world of intense inequalities *Bringing Up Daddy* Stella Bruzzi,2019-07-25 Offering a broad perspective on the Hollywood dad looking at important Hollywood fathers and discussing films from many genres this book adopts a multi faceted theoretical approach making use of psychoanalysis sociology and masculinity studies and contextualising the father figure within both Hollywood and American history **Queering the Subversive Stitch** Joseph McBrinn,2021-04-08 The history of men s needlework has long been considered a taboo subject This is the first book ever published to document and critically interrogate a range of needlework made by men It reveals that since medieval times men have threaded their own needles stitched and knitted woven lace handmade clothes as well as other kinds of textiles and generally delighted in the pleasures and possibilities offered by all sorts of needlework Only since the dawn of the modern age in the eighteenth and the nineteenth centuries did needlework become closely aligned with new ideologies of the feminine Since then men s needlework has been read not just as feminising but as queer In this groundbreaking study Joseph McBrinn argues that needlework by male artists as well as anonymous tailors sailors soldiers convalescents paupers prisoners hobbyists and a multitude of other men and boys deserves to be looked at again Drawing on a wealth of examples of men s needlework as well as visual representations of the male needleworker in museum collections from artist s papers and archives in forgotten magazines and specialist publications popular novels and children s literature and even in the history of photography film and television he surveys and analyses many of the instances in which needlemen have contested resisted and subverted the constrictive ideals of modern masculinity This audacious original carefully researched and often amusing study demonstrates the significance of needlework by men in understanding their feelings agency identity and history *Heroines in History* Katie Pickles,2022-07-21 Heroines in History A Thousand Faces moves beyond stories of individual heroines taking a thematic synthesising and global in scope approach to challenge previous understandings of heroines in history Responding to Joseph Campbell s Hero with a Thousand Faces Katie Pickles explores the idea of a transcultural heroine archetype that recurs through time Each chapter addresses an archetypal theme important for heroines in history The volume offers a new consideration of the often awkward position of women in history and embeds heroines in the context of their times as well as interpreting and analysing how their stories are told re told and represented at different moments To do so it recovers and compares some women now forgotten along with well known recent heroines and brings together a diversity of women from around the world Pickles looks at the interplay of gender race heredity status class and politics in different ways and chronicles the emergence of heroines as historical subjects valued for their substance and achievements rather than as objects valued for their image and celebrity In an accessible and original way the book builds upon developments in women s and gender history and is essential reading for anyone interested in this field

Masculinities and Culture John Beynon,2001-11-16 What is masculinity Is masculinities a more appropriate term How

are masculinities socially culturally and historically shaped How are particular masculinities created enacted and represented in specific settings How can masculinities best be researched and theorized Masculinities and Culture explores how masculinities or ways of being a man are anchored in time and place the products of socio historical and cultural circumstances It examines the emergence of a masculinity fit for Empire in the mid to late nineteenth century and by way of contrast the more recent media driven commercial New Man and New Lad masculinity The author considers some of the media discourses shaping masculinities today and the formation of specific masculinities in specific settings such as prisons hospitals and schools which both define and in turn are defined by strongly held conceptions of acceptable masculine behaviour He concludes by reviewing a range of ways in which masculinities might be researched from fieldwork and auto biographical and life history approaches through to semiotics and the use of both film and literary texts This lively text provides a comprehensive introduction to contemporary debates concerning masculinities as gendered constructions along with the means of researching and theorizing them

White Masculinity in Crisis in Hollywood's Fin de Millennium Cinema Pete Deakin, 2019-10-15 White Masculinity in Crisis in Hollywood's Fin de Millennium Cinema claims that Hollywood cinema had a significant relationship with the millennial crisis of masculinity From Fight Club Fincher 1999 and American Psycho Harron 2000 to Office Space Judge 1999 The Matrix Wachowski's 1999 and American Beauty Mendes 1999 Pete Deakin attests that alongside the emergent crisis came a definitive body of some twenty five Hollywood crisis titles each film with a representational concern for the apparent masculine malaise Asking whether Hollywood helped create propel or sooth the very notion of the crisis of masculinity at this time Deakin engages with some important cultural questions how discursive or even authentic was it and more vitally whose actual crisis was this To this end scholars of film studies media studies gender studies history and sociology will find this book particularly useful

Wounded Masculinities Valeria Quaglia, 2023-12-05 This book contributes to the emerging field of men's health studies delving into how men incorporate adapt negotiate or reject health care practices to perform masculinities in social interactions By moving beyond the simplistic association between men masculinity and the adoption of risky or unhealthy practices this book draws from recent critical perspectives on the study of men's health seeking to challenge and problematize the relationship between masculinities and health The text presents original empirical findings derived from qualitative and digital research examining the different ways in which men re negotiate their masculinities after the onset of a chronic illness focusing on diabetes as a strategic case study Living with a chronic illness implies that those gender practices that are usually taken for granted suddenly become unachievable and impose a reconfiguration of the masculine self as well as a negotiation of the very meaning of masculinity The volume aims to critically examine this interactive process of re negotiation while also reflecting on men masculinities and their health on a more general level This book serves as a valuable resource for students and scholars in social sciences working on the intersection of gender and health as well as for health professionals seeking a deeper understanding of the

connection between men gender and health **Shame** David Keen, 2025-12-02 The uses of shame and shamelessness in spheres that range from social media and consumerism to polarized politics and mass violence Today we are caught in a shame spiral a vortex of mutual shaming that pervades everything from politics to social media We are shamed for our looks our culture our ethnicity our sexuality our poverty our wrongdoings our politics But what is the point of all this shaming and countershaming Does it work And if so for whom In Shame David Keen explores the function of modern shaming paying particular attention to how shame is instrumentalized and weaponized Keen points out that there is usually someone who offers an escape from shame and that many of those who make this offer have been piling on shame in the first place Self interested manipulations of shame Keen argues are central to understanding phenomena as wide ranging as consumerism violent crime populist politics and even war and genocide Shame is political as well as personal To break out of our current cycle of shame and shaming and to understand the harm that shame can do we must recognize the ways that shame is being made to serve political and economic purposes Keen also traces the rise of leaders on both sides of the Atlantic who possess a dangerous shamelessness and he asks how shame and shamelessness can both be damaging Answering this question means understanding the different types of shame And it means understanding how shame and shamelessness interact not least when shame is instrumentalized by those who are selling shamelessness Keen points to a perverse and inequitable distribution of shame with the victims of poverty and violence frequently being shamed while those who benefit tend to exhibit shamelessness and even pride
