Still More Wandering Thoughts:

Distraction Natalie M. Phillips, 2016-09-13 Enlightenment writers fiercely debated the nature of distraction in literature. Early novel reading typically conjures images of rapt readers in quiet rooms but commentators at the time described reading as a fraught activity one occurring amidst a distracting cacophony that included sloshing chamber pots and wailing street vendors. Auditory distractions were compounded by literary ones as falling paper costs led to an explosion of print material forcing prose fiction to compete with a dizzying array of essays, poems, sermons, and histories. In *Distraction* Natalie M. Phillips argues that prominent Enlightenment authors from Jane Austen and William Godwin to Eliza Haywood and Samuel Johnson were deeply engaged with debates about the wandering mind even if they were not equally concerned about the problem of distractibility. Phillips explains that some novelists in the 1700s, viewing distraction as a dangerous wandering from singular attention that could lead to sin or even madness, attempted to reform diverted readers. Johnson and Haywood, for example, worried that contemporary readers would only focus long enough to look into the first pages of essays and novels. Austen offered wry commentary on the issue through the creation of the daft Lydia Bennet, a character with an attention span so short she could listen only half a minute. Other authors radically redefined distraction as an excellent quality of mind, aligning the multiplicity of divided focus with the spontaneous creation of new thought. Laurence Sterne's *Tristram Shandy*, for example, won audiences with its comically distracted narrator and uniquely digressive form. Using cognitive science as a framework to explore the intertwined history of mental states, philosophy, science, and literary forms, Phillips explains how arguments about the diverted mind made their way into the century's most celebrated literature. She also draws a direct link between the disparate theories of focus articulated in eighteenth-century literature and modern experiments in neuroscience, revealing that contemporary questions surrounding short attention spans are grounded in long conversations over the nature and limits of focus.

A Better Way to Think H. Norman Wright, 2011-10 Bestselling self-help author and counselor helps people be more successful and happy by empowering them to replace negative thoughts with healthy self-talk.

Multiple Pathways of Cognitive Aging Grzegorz Sedek, Thomas M. Hess, Dayna R. Touron, 2022 *Multiple Pathways of Cognitive Aging* explores adaptive functioning in later life. It considers both the factors underlying individual differences in late-life cognitive change as well as the nature of the compensatory mechanisms developed by most successful and active middle-aged and older adults.

Religion and Modern Thought T. W. Freckelton, 1893 *Plain sermons, by contributors to the 'Tracts for the times'* [ed. by I. Williams and W.J. Copeland]. [2 sets, containing differing eds. of vol.1. Vol.3 of the 2nd set is described as being of a New ed.]. Plain sermons, 1842

Our Missions, 1902 *The Astral Plane: Its Scenery, Inhabitants and Phenomena* Charles Webster Leadbeater, 2012-06-11 *The Astral Plane: Its Scenery, Inhabitants and Phenomena* according to Theosophical literature

The Astral Plane C. W. Leadbeater, 2019-11-21 In *The Astral Plane* C. W. Leadbeater presents a systematic exploration of the astral world, drawing upon his experiences as a notable member of the Theosophical Society.

The text is both an inquiry and a manual detailing dimensions beyond the physical realm that human consciousness can access through spiritual development. Leadbeater employs a compelling narrative style blending personal anecdotes with philosophical reflections making complex metaphysical concepts accessible to the lay reader. The literary context of this work is firmly rooted in the early 20th century spiritualist and occult movements where mystical exploration was highly regarded and prevalent among seekers of truth. Leadbeater, a British clairvoyant and occultist, was deeply influenced by his exposure to Eastern philosophies and Western mysticism. His extensive travels and interactions with spiritual leaders provided him with insights that informed his writings. As one of the early proponents of theosophy, Leadbeater sought to unify the esoteric traditions across cultures, making *The Astral Plane* a significant contribution to the literature on spirituality and consciousness. This seminal book is highly recommended for those interested in esoteric studies, metaphysics, and spiritual advancement. Leadbeater's clear elucidation of the astral realm encourages readers to delve into their own spiritual journeys, exploring the unseen dimensions of existence and ultimately broadening their understanding of consciousness. In this enriched edition, we have carefully created added value for your reading experience. A succinct Introduction situates the work's timeless appeal and themes. The Synopsis outlines the central plot, highlighting key developments without spoiling critical twists. A detailed Historical Context immerses you in the era's events and influences that shaped the writing. A thorough Analysis dissects symbols, motifs, and character arcs to unearth underlying meanings. Reflection questions prompt you to engage personally with the work's messages, connecting them to modern life. Hand-picked Memorable Quotes shine a spotlight on moments of literary brilliance. Interactive footnotes clarify unusual references, historical allusions, and archaic phrases for an effortless, more informed read.

Shattering the Great Doubt Chan Master Sheng Yen, Dahui, 2009-05-12

Huatou is a skillful method for breaking through the prison of mental habits into the spacious mind of enlightenment. The huatou is a confounding question much like a Zen koan. Typical ones are: What is wu (nothingness) or What was my original face before birth and death? But a huatou is unlike a koan in that the aim is not to come up with an answer. The practice is simple: ask yourself your huatou relentlessly in meditation as well as in every other activity. Don't give up on it; don't try to think your way to an answer. Resolve to live with the sensation of doubt that arises, and it will pervade your entire existence with a sense of profound wonder, ultimately leading to the shattering of the sense of an independent self. Master Sheng Yen brings the traditional practice to life in this practical guide based on talks he gave during a series of huatou retreats. He teaches the method in detail, giving advice for dealing with the typical pitfalls and problems that arise, and answering retreat participants' questions as they experience the practice themselves. He then offers commentary on four classic huatou texts, grounding his instructions in the teaching of the great Chan masters.
