## **Slow Birds And Other Stories:**

**Slow Birds and Other Stories** Ian Watson, 1985-01-01 Eleven stories deal with slow motion bombs spatial anomalies African ghosts time travelers post nuclear worlds and evolutionary change

**Slow Birds: And Other Stories** Ian Watson, 2011-09-29 Where do the metal death gliders come from To the glass sailors of the five villages the slow birds that inched over the Earth at shoulder height appearing and vanishing were a mystery until young Daniel climbed aboard one of the scarred Missiles and vowed to find out where it went Ian Watson's third short story collection is his best yet a brilliant array of original and imaginative inventions that plunge the reader into strangely familiar new worlds

**Salvage Rites: And Other Stories** Ian Watson, 2011-09-29 Ian Watson's latest collection shows the same range and apparently inexhaustible fund of ideas that have characterized all his previous books No other contemporary figure in SF is so prolific or inventive a writer of short stories In the title story we immediately encounter a phantasmagoric vision of a society increasingly dependent on recycling its usable material other brilliant inventions include a planet inhabited by lemur like aliens who bafflingly produce marvellously finished stone carvings without apparently having the tools to do so The Moon and Michelangelo people fighting their way through the various levels of what appears to be a real life version of a computer adventure game Jewels in an Angel's Wing and a zoo in which are caged the extensions into our universe of four dimensional hyperbeings Hyperzoo And that is only the beginning there are fifteen stories in all each one a state of the art example of short science fiction at its finest

**Evil Water: And Other Stories** Ian Watson, 2011-09-29 In his fourth short story collection Watson again demonstrates the extraordinary scope of his imagination The title story has ancient witchcraft meeting complacent modern suburbia in a tale of spine chilling horror while When the Timegate Failed casts an unexpected light in the dangers of space travel and man's powers of self delusion Alien matters of a different kind crop up in Windows in which mysterious artefacts found on Mars prove to be something of a problem for their chic human owners Evil Water is a highly inventive collection which is a delight to read

**Sunstroke: And Other Stories** Ian Watson, 2011-09-29 This second collection of Watson's short stories further demonstrates his seemingly inexhaustible imagination In The Thousand Cuts the entire human race finds its consciousness blanked out for varying periods but life seems somehow to have gone on in the missing days and indeed previously intractable problems have moved towards a solution In Sunstroke a doctor blinded accidentally during the voyage to a seemingly benign new world becomes gradually aware of disturbing changes afflicting her sighted companions These stories and many others confirm Watson's place in the forefront of contemporary SF writers

**Bird Child and Other Stories** Patricia Grace, 2024-01-30 Mythology and contemporary Mori life are woven together seamlessly in this spectacular collection by Aotearoa's foremost short story writer The titular story Bird Child plunges you deep into Te Kore an ancient time before time In another the formidable goddess Mahuika Keeper of Fire becomes a doting mother and friend Later Grace's own childhood vividly shapes the world of the young character Mereana and a widower's

may have three Take parents teachers schools exams weight friends enemies then there s the mess that groan ups have made of the world Like all the wars they fight And they ve used up the water the air the forests as though there were no generation after them      Deathhunter Ian Watson,2011-09-29 The regions that have survived the holocaust in Watson s new novel have largely transformed themselves from prewar violence into a peaceful utopia without either conflict or art In place of belief in a religious afterlife the old and ailing accept euthanasia at Houses of Death where priestlike guides counsel them One of these guides is Jim Todhunter who pursues research into the nature of death despite official censure When he is assigned to guide that rarity in the new world a murderer he finds a natural ally in the obsessive Nathan Weinberger himself an ex guide As usual with Watson the initial impression of a green and pleasant land is revealed to be only one facet of a more complex and disturbing reality      *Queenmagic, Kingmagic* Ian Watson,2011-09-29 In another world somewhere in space and time two countries Bellogard and Chorny are locked in perpetual war conducted by magic Each of the main members of the two countries courts king queen prince bishop knight and squire has their own form of magic and special ways of moving magically A war may continue for centuries until one side succeeds in killing the other side s king at which point the whole world vanishes only to reappear and have the cycle begin again Pedino is a young Bellogardian who becomes the queen s squire and as part of his training is sent into a seedier part of the city to uncover a Chornian spy During his adventures he meets and falls in love with a whore Sara who turns out to be a Chornian bishop s squire Pedino succeeds in killing the other Chornian bishop a remarkable achievement for a mere squire but in the manoeuvres which follow Chorny proves to have outwitted its rival and Pedino s whole world is threatened with extinction There have been many stories modelled on chess games but none so ingenious and enjoyable as Ian Watson s latest novel And as one would expect from Watson the story of Bellogard and Chorny is only the beginning When Pedino and Sara manage to escape the destruction of their universe they find themselves in a series of even more bizarre worlds operating under still stranger rules as they seek to discover the purpose of their existence and the meaning of their universe *Queenmagic Kingmagic* is Ian Watson in sparkling exuberant form      Birds of Heaven, and Other Stories Vladimir Galaktionovich Korolenko,2019-11-19 In *Birds of Heaven and Other Stories* Vladimir Korolenko crafts a rich tapestry of narratives that explore the intricate relationships between humanity and the natural world The collection is marked by Korolenko s lyrical prose and profound empathy utilizing a blend of realism and romanticism to portray the lives of marginalized individuals in late 19th century Russia Through vivid imagery and nuanced character development the stories delve into themes of suffering redemption and the transcendent beauty of the environment offering readers a reflective insight into the intersection of human emotions and the natural realm Vladimir Korolenko a prominent figure in the Russian literary canon was profoundly influenced by his experiences with social injustice and personal hardship Born in 1853 he faced exile for his revolutionary activism which honed his sensitivity toward the plight of the oppressed This personal history imbues his writing with authenticity and urgency as he seeks to amplify the voices of

those often disregarded by society using his literary prowess to advocate for compassion and understanding *Birds of Heaven and Other Stories* is a compelling invitation to explore the depths of the human experience through the lens of nature The collection is recommended for readers who appreciate poignant storytelling and the exploration of the human condition making it a significant addition to the canon of Russian literature      **Under Heaven's Bridge** Ian Watson, Michael Bishop, 2011-09-29 A multinational expedition has landed on the planet Onogoro a cold and dour world circling one star of a binary pair Their objective is to investigate a strange alien race known to the human visitors as the Kybers These aliens dwelling in a great network of ruined palaces are partly biological creatures and partly machines with the ability to switch themselves off at will Expedition scientists discover that the Kyber's sun is soon to blaze up in a nova yet the Kybers are not alarmed      Worlds So Strange and Diverse Grzegorz Trębicki, 2015-02-05 This book represents an analysis of contemporary fantasy non mimetic literature in all its richness and diversity and offers a preliminary definition of the major fields of taxonomical interest in addition to marking some of the unmapped territories of fantastic fiction In its first part the book presents an overview of all major previous theoretical discussions of the issue particularly those by Tzvetan Todorov Rosemary Jackson Darko Suvin Brian Attebery Marek Ożiewicz and Farah Mendlesohn The second part of the book provides an interesting comprehensive taxonomy of its own based on the notion of supragenological types of literature first introduced by Andrzej Żgórski      The Soul of a Cat, and Other Stories Margaret Benson, 2022-07-21 This book was written by Margaret Benson an English author and Egyptologist best known for her excavation of the Precinct of Mut Despite her achievements in Egyptology the current publication has no relation to her professional work instead it focuses on her admiration of cats through tales that she weaves be it feral cats or house cats      Converts Ian Watson, 2011-09-29 He is a financial giant but the Sponsor wants more he wants to become a super human to be the modern day Adam father to a new generation of humans with heightened DNA He had the viral injection to change himself the will to do it and now all he needs is an Eve to join him on his journey He thinks he's found the perfect match in Jean Sandra Norwich a woman convinced she is trapped between the genes of her mother and daughter The Sponsor offers her freedom and so much more the chance to be the mother of all Superbeings But she will get more than she bargained for CONVERTS is a masterpiece of science fiction and Ian Watson has superbly reworked Ovid's METAMORPHOSES to create an extraordinary futuristic tale      **Honeymoon and Other Stories** Kevin Canty, 2017-02-22 Kevin Canty is a master of the short story a writer whose work has been compared to that of Flannery O'Connor and Raymond Carver but always with the understanding that Canty's is strikingly new cool and real Now in Honeymoon after two novels Kevin Canty returns to short fiction his first collection since his debut *A Stranger in this World* a book that was hailed as Superb These tautly structured stories breathe with sharp distilled intelligence Honeymoon is a book about love about lovers and would be lovers exploring unlikely alliances all of them toeing a certain eventful edge a decision between rational restraint and something altogether different In the title story a man

leaves his lover's wedding with the bride's ex-girlfriend in *Flipper* a young escapee from fat camp discovers a different kind of hunger while enjoying a pregnant teen's gifts of forbidden chocolate in *Aquarium* a thirty-eight year old woman who claims to follow the straight and narrow tries to resist seducing her fifteen year old nephew again Revealing the hidden longings and quirky needs of both men and women with a tough sensitivity and deep sometimes biting humor *Honeymoon* presents a masterful writer purely at home in his form yet continuing to push himself and his stories to their limits with enthusiasm and daring

[The Book of the River](#) Ian Watson, 2011-09-29 The river cuts right across the known world from the impassable Far Precipices to the sea The people on one bank are cut off from those on the other for the black current has the power to stop them crossing Only women can travel repeatedly up and down the river but when Yaleen joins the boating guild and becomes a riverwoman she is singled out to follow an even more extraordinary path
