Small Claims My Little Trials In Life:

Good Dirt David E. Morine, Paul Flint, 2011-12-20 The best selling conservation classic completely expanded revised and updated David Morine was a briefcase conservationist specializing in human nature During his fifteen years in charge of land acquisition for The Nature Conservancy Morine helped protect more than three million acres of wilderness finding plenty to laugh about and learn from along the way Here are the stories behind the deals and the people who made them an enlightening entertaining occasionally unsettling look at the dirty job of keeping America clean **Vacationland** David E.

Morine, 2015-10-30 David Morine's long love affair with Maine began when he was a boy in 1946 and his parents rented their first lakeside cabin in Fryeburg At first skeptical about the cost and the lack of plumbing or electricity the Morines quickly felt right at home There was plenty of good fishing and good company to fill the long summer days Although David didn't know it at the time his career began to take shape that summer when he first splashed his feet in the pristine waters of Lovewell Pond He went on to become an internationally recognized conservationist and served for fifteen years as the head of land acquisition for The Nature Conservancy He is also a natural storyteller and he recounts the fondly remembered pleasures of family vacations and reveals many adventures and misadventures he had along the way This second edition of Vacationland includes the same wonderful quirky personal stories as the first edition along with four new funny and nostalgia filled tales about summering in Maine *Two Coots in a Canoe* David E. Morine, Paul Flint, 2011-05-03 A journey of whim

humor and self discovery along the Connecticut River When retired CEO Ramsay Peard 61 called his old friend David Morine 59 and asked the longtime conservationist if he wanted to canoe the Connecticut River Morine said he'd do it under one condition no camping We'll rely on the kindness of strangers And that's what they did Mooching their way down the river and staying with strangers every night Morine and Peard got an inside look at such issues as the demise of farming the loss of manufacturing gay rights and Wal Mart versus Main Street and they were able to delve deep into the lives of complete strangers But Morine soon realized the one life he never dug into was Peard's After spending a month with him in a canoe he had no idea that his friend's innermost thoughts had taken a fateful course Written in the tradition of Bill Bryson's *A Walk in the Woods* this book will be treasured by conservationists canoeists and old friends still seeking a thrill Everyone else will be delightfully entertained **Down East**, 2003-08 *Leaves of a life, reminiscences* Montagu Stephen Williams, 1893 Life

Jury Crisis Drury R. Sherrod, 2019-02-08 Juries have a bad reputation Often jurors are seen as incompetent biased and unpredictable and jury trials are seen as a waste of time and money In fact so few criminal and civil cases reach a jury today that trial by jury is on the verge of extinction Juries are being replaced by mediators arbitrators and private judges The wise trial of Twelve Angry Men has become a fiction As a result a foundation of American democracy is about to vanish The Jury Crisis What s Wrong with Jury Trials and How We Can Save Them addresses the near collapse of the jury trial in America its causes consequences and cures Drury Sherrod brings his unique perspective as a social psychologist who became a jury consultant to the reader applying psychological research to real world trials and explaining why juries have become dysfunctional While this collapse of the jury can be traced to multiple causes including poor public education the absence of peers and community standards in a class stratified racially divided society and people s reluctance to serve on a jury the focus of this book is on the conduct of trials themselves from jury selection to evidence presentation to jury deliberations Judges and lawyers believe wrongly that jurors can put aside their biases sit quietly through hours days or weeks of conflicting testimony and not make up their minds until they have heard all the evidence Unfortunately the human brain doesn t work that way A great deal of psychological research on jurors and other decision makers shows that our brains intuitively leap to story telling before we rationally analyze facts or evidence Weaving details into a narrative is how we make sense of the world and it s very hard to suppress this tendency Consequently a majority of jurors actually make up their minds before they have heard much of the evidence Judges arbitrators and mediators have similar biases The Jury Crisis deals with an important social problem namely the near collapse of a thousand year old institution and proposes how to fix the jury system and restore trial by jury to a more prominent place in American society *Leaves of a Life* Montagu Stephen Williams, 1890 *The World's Most Famous Court Trial* John Thomas Scopes, 1997 Complete transcript of the controversial Scopes Monkey Trial which tested the law that made it illegal for public school teachers in Tennessee to teach Charles

Darwin's theory of evolution The complete transcript of the 1925 case of the State of Tennessee v John Thomas Scopes a 24 year old high school teacher accused of violating the Butler Act which had passed in Tennessee on March 21 1925 forbidding the teaching in any state funded educational establishment of any theory that denies the story of the divine creation of man as taught in the Bible and to teach instead that man has descended from a lower order of animals The law made it Perhaps the first modern media event the trial attracted enormous national and international attention to the small town of Dayton Tennessee during the sweltering July of 1925 A star studded cast of trial attorneys included the great orator and three time Democratic presidential candidate William Jennings Bryan and the brilliant trial lawyer and champion of the downtrodden Clarence Darrow among others The climax of the trial came on the seventh day when the defense put the senior Bryan on the stand as an expert on the Bible and he was ruthlessly interrogated by Darrow As a milestone in the American struggle between modernity and the forces of Protestant fundamentalism and a vivid manifestation of the clash between two valid principles academic freedom and democratic control of the public schools the Scopes case has tremendous historical significance Scopes was found guilty and paid a fine of 100 and costs At the sentencing he told the Judge I feel that I have been convicted of violating an unjust statute I will continue in the future as I have in the past to oppose this law in any way I can Any other action would be in violation of my ideal of academic freedom that is to teach the truth as guaranteed in our Constitution of personal and religious freedom I think the fine is unjust William Jennings Bryan died a few days after the trial ended Clarence Darrow moved on to other cases most notably the Sweet case in Detroit in 1926 and his last trial the Massie trial in Honolulu in 1931 Illustrated with photographs from the trial This edition also includes statements by scientists entered at the defense's request and the text of a lengthy concluding speech that Bryan prepared but never delivered Clarence Darrow 1857-1938 was a well known trial lawyer renowned for his progressive sympathies and successful work for labor and the poor He achieved fame for his defense of Leopold and Loeb in 1924 the Massie trial in 1931 and this his most famous defense of John Scopes in 1925 the only time Darrow ever volunteered his services in a case a case in which he saw education in danger from the source that always hampered it religious fanaticism **Paving the Way** Herma Hill

Kay, 2021-04-13 The first wave of trailblazing female law professors and the stage they set for American democracy When it comes to breaking down barriers for women in the workplace Ruth Bader Ginsburg's name speaks volumes for itself but as she clarifies in the foreword to this long awaited book there are too many trailblazing names we do not know Herma Hill Kay former Dean of UC Berkeley School of Law and Ginsburg's closest professional colleague wrote Paving the Way to tell the stories of the first fourteen female law professors at ABA and AALS accredited law schools in the United States Kay who became the fifteenth such professor labored over the stories of these women in order to provide an essential history of their path for the more than 2 000 women working as law professors today and all of their feminist colleagues Because Herma Hill Kay who died in 2017 was able to obtain so much first hand information about the fourteen women who preceded her Paving

the Way is filled with details quiet and loud of each of their lives and careers from their own perspectives Kay wraps each story in rich historical context lest we forget the extraordinarily difficult times in which these women lived Paving the Way is not just a collection of individual stories of remarkable women but also a well crafted interweaving of law and society during a historical period when women s voices were often not heard and sometimes actively muted The final chapter connects these first fourteen women to the second wave of women law professors who achieved tenure track appointments in the 1960s and 1970s carrying on the torch and analogous challenges This is a decidedly feminist project one that Justice Ruth Bader Ginsburg advocated for tirelessly and admired publicly in the years before her death
