conditions of a horse's life in the Colony. In past years before the present war large numbers of English horses have been sent to Natal for military service but the results were not satisfactory all became useless and the large majority died the change from English stables and English methods of management to those in vogue in the Colony almost invariably proved fatal.

Using firsthand accounts, this history addresses the many uses of equines during the war, the methods by which they were obtained, their costs, their suffering on the battlefields and roads, their consumption by soldiers, and such topics as racing and mounted music. The book is supplemented by accounts of the Lightning Mule Brigade, the Charge of the Mule Brigade, five appendices, and 37 illustrations. More than 700 Civil War equines are identified and described with incidental information and identification of their masters.
