Routes Peter Leary, 2016-08-18 The delineation and emergence of the Irish border radically reshaped political and social realities across the entire island of Ireland For those who lived in close quarters with the border partition was also an intimate and personal occurrence profoundly implicated in everyday lives Otherwise mundane activities such as shopping visiting family or travelling to church were often complicated by customs restrictions security policies and even questions of nationhood and identity The border became an interface not just of two jurisdictions but also between the public political space of state territory and the private familiar spaces of daily life The effects of political disunity were combined and intertwined with a degree of unity of everyday social life that persisted and in some ways even flourished across if not always within the boundaries of both states On the border the state was visible to an uncommon degree as uniformed agents road blocks and built environment at precisely the same point as its limitations were uniquely exposed For those whose worlds continued to transcend the border the power and hegemony of either of those states and the social structures they conditioned could only ever be incomplete As a consequence border residents lived in circumstances that were burdened by inconvenience and imposition but also endowed with certain choices Influenced by microhistorical approaches *Unapproved Routes* uses a series of discrete histories of the Irish Boundary Commission the Foyle Fisheries dispute cockfighting tournaments regularly held on the border smuggling and local conflicts over cross border roads to explore how the border was experienced and incorporated into people's lives emerging at times as a powerfully revealing site of popular agency and action

Dreamland Carly Goodman, 2023-03-13 In a world of border walls and obstacles to migration a lottery where winners can gain permanent residency in the United States sounds too good to be true Just as unlikely is the idea that the United States would make such visas available to foster diversity within a country where systemic racism endures But in 1990 the United States Diversity Visa Lottery was created to do just that *Dreamland* tells the surprising story of this unlikely government program and its role in American life as well as the global story of migration Historian Carly Goodman takes readers from Washington D C where proponents deployed a colorblind narrative about our nation of immigrants to secure visas for white immigrants to the African countries where it flourished and fostered dreams of going to America From the post office to the internet aspiring emigrants visa agents and others embraced the lottery and tried their luck in a time of austerity and limits Rising African immigration to the United States has enriched American life created opportunities for mobility and nourished imagined possibilities But the promise of the American dream has been threatened by the United States embrace of anti immigrant policies and persistent anti Black racism

Border Contraband George T. Díaz, 2015-02-28 Winner Jim Parish Award for Documentation and Publication of Local and Regional History Webb County Heritage Foundation 2015 Present day smuggling across the U S Mexico border is a professional often violent criminal activity However it is only the latest chapter in a history of illicit business dealings that stretches back to 1848 when attempts by Mexico and the United States to tax commerce across the Rio Grande upset local trade and caused popular resentment Rather than acquiesce to what they regarded as arbitrary trade regulations borderlanders continued to cross goods and accepted many forms of smuggling as just In *Border Contraband* George T D az provides the first history of the common yet little studied practice of smuggling across the U S Mexico border In Part I he examines the period between 1848 and 1910 when the United States and Mexico s trade concerns focused on tariff collection and on borderlanders attempts to avoid paying tariffs by smuggling Part II begins with the onset of the Mexican Revolution in 1910 when national customs and other security forces on the border shifted their emphasis to the interdiction of prohibited items particularly guns and drugs that threatened the state D az s pioneering research explains how greater restrictions have transformed smuggling from a low level mundane activity widely accepted and still routinely practiced into a highly profitable professional criminal enterprise **Spatial Appropriations in Modern Empires, 1820-1960** Didier

Guignard, Iris Seri-Hersch, 2019-09-18 This book provides fresh insights into colonial and imperial histories by focusing on spatial appropriations Moving away from European notions of property appropriation encompasses the many ways in which social actors consider a space as their own This space may be physical or immaterial public or intimate lived or imagined In modern empires spatial appropriations amounted neither to a material and violent dispossession orchestrated by European or Japanese powers nor to an ongoing and unquestioned resistance by subaltern peoples They were rather sites of complex interactions in which the part of each actor owed as much to foreign domination as to other political social economic and environmental factors Cutting across common historiographical boundaries the chapters of this book bring to light the declination and conjugation of various forms of spatial appropriation in the modern imperial age 1820 1960 taking readers on

Mobility, Transnationalism and Contemporary African Societies Tilo Grätz, 2010-01-08 The book is meant to shed new light on migratory processes

pertinent to Sub Saharan Africa It starts out from the position that contemporary migratory movements can only be assessed by employing an appropriate theoretical framework which helps with conceptualising both localised strategies of migrants i.e. their modes of adaptation economic and social integration into host societies and the way they maintain relationships back home across places and nations i.e. translocal aspects of their mobility in terms of networking communication or economic as well as cultural transfers It in this respect the book contributes to the current debate on processes and effects of worldwide mobility addressing causes and effects and the various aspects of a culture of migration relevant for the African continent Additionally the book tries to go beyond the usual structural discussions and reflections on mobility and migration by looking at actual migrant practices their social creativity the employment of flexible responses to often restrictive governmental policies Finally the volume also discusses the often neglected issue of involuntary immobility as well as the significance of borders in both limiting mobility and in creating new borderline strategies to employ a notion by Ines Kohl with regard to migrants transnational strategies The book addresses a wide readership in Human Sciences especially from African Studies Anthropology Sociology Geography and Political Sciences
