Steinbeck And Film Recognitions:

Authorship in Film Adaptation Jack Boozer, 2009-06-03 Authoring a film adaptation of a literary source not only requires a media conversion but also a transformation as a result of the differing dramatic demands of cinema. The most critical central step in this transformation of a literary source to the screen is the writing of the screenplay. The screenplay usually serves to recruit producers, director, and actors to attract capital investment and to give focus to the conception and production of the film project. Often undergoing multiple revisions prior to production, the screenplay represents the crucial decisions of writer and director that will determine how and to what end the film will imitate or depart from its original source. *Authorship in Film Adaptation* is an accessible provocative text that opens up new areas of discussion on the central process of adaptation surrounding the screenplay and screenwriter-director collaboration. In contrast to narrow binary comparisons of literary source text and film, the twelve essays in this collection also give attention to the underappreciated role of the screenplay and film pre-production that can signal the primary intention for a film. Divided into four parts, this collection looks first at the role of Hollywood's activist producers and major auteurs such as Hitchcock and Kubrick as they worked with screenwriters to formulate their audio-visual goals. The second part offers case studies of *Devil in a Blue Dress* and *The Sweet Hereafter* for which the directors wrote their own adapted screenplays. Considering the variety of writer-director working relationships that are possible, Part III focuses on adaptations that alter genre, time, and place, and Part IV investigates adaptations that alter stories of romance, sexuality, and ethnicity.

Hollywood As Historian Peter C. Rollins, 2021-03-17 A commendably comprehensive analysis of the issue of Hollywood's ability to shape our minds, invigorating reading. Booklist. Film has exerted a pervasive influence on the American mind, and in eras of economic instability and international conflict, the industry has not hesitated to use motion pictures for propaganda purposes. During less troubled times, citizens' ability to deal with political and social issues may be enhanced or thwarted by images absorbed in theaters. Tracking the interaction of Americans with important movie productions, this book considers such topics as racial and sexual stereotyping, censorship of films, comedy as a tool for social criticism, the influence of great men and their screen images, and the use of film to interpret history. *Hollywood As Historian* benefits from a variety of approaches. Literary and historical influences are carefully related to *The Birth of a Nation* and *Apocalypse Now*, two highly tendentious epics of war and cultural change. How political beliefs of filmmakers affected cinematic styles is illuminated in a short survey of documentary films made during the Great Depression. Historical distance has helped analysts decode messages unintended by filmmakers in the study of *The Snake Pit* and *Dr Strangelove*. *Hollywood As Historian* offers a versatile, thought-provoking text for students of popular culture, American studies, film history, or film as history. Films considered include *The Birth of a Nation* (1915), *The Plow that Broke the Plains* (1936), *The River* (1937), *March of Time* (1935), *1953 City Lights* (1931), *Modern Times* (1936), *The Great Dictator* (1940), *The Grapes of Wrath* (1940), *Native Land* (1942), *Wilson* (1944), *The Negro Soldier* (1944), *The Snake Pit* (1948), *On the Waterfront* (1954), *Dr*

Strangelove 1964 Who's Afraid of Virginia Woolf 1966 and Apocalypse Now 1979 Recommended reading for anyone concerned with the influence of popular culture on the public perception of history American Journalism *Badmen, Bandits, and Folk Heroes* Juan J. Alonzo, 2009 *Badmen Bandits and Folk Heroes* is a comparative study of the literary and cinematic representation of Mexican American masculine identity from early twentieth century adventure stories and movie Westerns through contemporary self representations by Chicano writers and filmmakers In this deeply compelling book Juan J Alonzo proposes a reconsideration of the early stereotypical depictions of Mexicans in fiction and film rather than viewing stereotypes as unrelentingly negative Alonzo presents them as part of a complex apparatus of identification and disavowal Furthermore Alonzo reassesses Chicano self representation in literature and film and argues that the Chicano expression of identity is characterized less by essentialism than by an acknowledgement of the contingent status of present day identity formations Alonzo opens his provocative study with a fresh look at the adventure stories of Stephen Crane and the silent Western movies of D W Griffith He also investigates the conflation of the greaser the bandit and the Mexican revolutionary into one villainous figure in early Western movies and more broadly traces the development of the badman in Westerns He newly interrogates the writings of Amrico Paredes regarding the makeup of Mexican masculinity and productively trains his analytic eye on the recent films of Jim Mendiola and the contemporary poetry of Evangelina Vigil Throughout *Badmen Bandits and Folk Heroes* Alonzo convincingly demonstrates how fiction and films that formerly appeared one dimensional in their treatment of Mexicans and Mexican Americans actually offer surprisingly multifarious and ambivalent representations At the same time his valuation of indeterminacy contingency and hybridity in contemporary cultural production creates new possibilities for understanding identity formation
