Salman Rushdie, 2002 The subjects of Salman Rushdie's new collection of non-fiction range from *The Wizard of Oz* U2 India and Indian writing the death of Princess Diana and football to twentieth century writers including Angela Carter Arthur Miller Edward Said J M Coetzee and Arundhati Roy In a central section *Messages from the Plague Years* Rushdie focuses on the fight against the Iranian fatwa presenting texts both personal and political which show for the first time how it was to live through those days Rushdie's columns for the *New York Times* confront current issues Kashmir Northern Ireland Kosovo Islam and the West as well as lighter topics such as reality TV sport and sleaze The book ends with the lectures that give it its tide Rushdie's exploration of the theme of frontiers crossing them breaking taboos and in the light of September 11 the world of permeable frontiers in which we all live *Catholic Borderlands* Anne M. Martinez, 2014-10-01 In 1905 Rev Francis

Clement Kelley founded the Catholic Church Extension Society of the United States of America Drawing attention to the common link of religion Kelley proclaimed the Extension Society's duty to be that of preventing American Protestant missionaries public school teachers and others from separating people from their natural faith Catholicism Though domestic evangelization was its founding purpose the Extension Society eventually expanded beyond the national border into Mexico in an attempt to solidify a hemispheric Catholic identity Exploring international racial and religious implications Anne M Martinez's *Catholic Borderlands* examines Kelley's life and actions including events at the beginning of the twentieth century that prompted four exiled Mexican archbishops to seek refuge with the Archdiocese of Chicago and befriend Kelley This relationship inspired Kelley to solidify a commitment to expanding Catholicism in Mexico Puerto Rico and the Philippines in

response to the national plan of Protestantization which was indiscreetly being labeled as Americanization Kelley's cause intensified as the violence of the Mexican Revolution and the Cristero Rebellion reverberated across national borders Kelley's work with the U S Catholic Church to intervene in Mexico helped transfer cultural ownership of Mexico from Spain to the United States thus signaling that Catholics were considered not foreigners but heirs to the land of their Catholic forefathers

Postcolonial Readings of Music in World Literature Cameron Fae Bushnell, 2013 This book reads representations of Western music in literary texts to reveal the ways in which artifacts of imperial culture function within contemporary world literature Bushnell argues that Western music's conventions for performance composition and listening established during the colonial period persist in postcolonial thought and practice Music from the Baroque Classical and Romantic periods Bach through Brahms coincides with the rise of colonialism and Western music contains imperial attitudes and values embedded within its conventions standards and rules The book focuses on the culture of classical music as reflected in the worlds of characters and texts and contends that its effects outlast the historical significance of the real composers pieces styles and forms Through examples by authors such as McEwan Vikram Seth Bernard MacLaverty Chang rae Lee and J M Coetzee the book demonstrates how Western music enters narrative as both acts of history and as structures of analogy that suggest subject positions human relations and political activity that in turn describes a postcolonial condition The uses to which Western music is put in each literary text reveals how European art music of the seventeenth through the nineteenth centuries is read and misread by postcolonial generations exposing mostly hidden cultural structures that influence our contemporary understandings of social relations and hierarchies norms for resolution and for assigning significance and standards of propriety The book presents strategies for thinking anew about the persistence of cultural imperialism reading Western music simultaneously as representative of imperial cultural dominance and as suggestive of resistant structures forms and practices that challenge the imperial hegemony

The most important themes observed include topics that engage in discussions of the indigenous Border crossings heroes and folk saints the city of Tijuana and violence in the Borderlands to name a few. These themes have led to the birth of the Teatro del Norte movement a group of determined playwrights insistent on presenting dramaturgical themes that show the bond between their particular geographies histories socio political and economic situations thereby giving birth to an original voice and new aesthetic of representation. Dealing with the topics already mentioned and pairing them with more timely ones like immigration reform namely this study can serve as an invaluable resource to many interdisciplinary academic settings and can grant an eye opening insight to Border relations through several critical readings.

Reading the Margins Michael J Gilmour, 2024-09-24. The Bible and theology are contested spaces battlegrounds where participants guard entrenched beliefs against perceived threats. But literature observes novelist Salman Rushdie opens the universe. It expands what we perceive and understand and ultimately what we are. Writers make our world feel larger and more inclusive. When other forces push in the direction of narrowness bigotry tribalism cultism and war fiction encourages understanding sympathy and identification with others. Reading the Margins invites readers to immerse themselves in imaginary worlds and to pursue visions of justice and compassion. Whether stories about poverty empire war or the environment the writers considered raise moral questions and often in the process even unwittingly deepen our understanding of biblical calls for kindness and mercy. Reading the Margins offers a kind of commentary on biblical ethics. Using Matthew's Beatitudes and sheep and goats parable as an organizing principle Gilmour argues there is much to learn about Jesus's peacemakers and call to feed the hungry from aspirational fiction and poetry.
