Step Right Up The Adventure Of Circus In America

Brooks McNamara

Step Right Up The Adventure Of Circus In America:

Step Right Up! LaVahn G. Hoh, William H. Rough, 1990 Describes all aspects of the circus and the evolution of every act from its beginnings to today's performances With more than 300 photographs **The Many Worlds of Circus** Robert Sugarman, 2009-05-27 Acrobats and manipulators of objects trained animals and clowns have been performing throughout history In the eighteenth century the invention of the circus ring provided a focus for the activities and the modern circus was born Once the circus was the most spectacular entertainment many Americans saw When the supply of cheap labor disappeared and other forms of entertainment became available the giant circuses shrank and in the last quarter of the twentieth century new one ring circuses returned The Circus and Circus Culture area of the Popular Culture Association has been examining circus history circus life the relationship of circus to society and the impact of circus on the visual and literary arts since 1997 This book is a collection of papers from its annual conferences This fascinating collection showcases the transnational richness and cultural depth of the circus in an array of historical and contemporary settings Strongly recommended for circus enthusiasts and students of popular culture history and theater Janet M Davis Associate Professor Chair of the Department of American Studies College of Liberal Arts at UT Austin author of *The Circus Age Culture and Society under the American Big Top* **Traveling the Rainbow** Derrel B. DePasse, 2001 Reveals how the artist recorded his memories of the American railroad and the traveling circus as landscapes *Cirque Global* Louis Patrick Leroux, Charles R. Batson, 2016-05-01 With a billion dollar industry centred in Montreal the province of Quebec has established itself as a major hub for contemporary circus Cirque du Soleil has a global presence and troupes such as Cirque loize and 7 doigts de la main are state of the art innovators The National Circus School of Montreal the only state funded elite training facility in North America is an influential leader in artistry and technique Montreal based Cirque du Soleil's Cirque du Monde supports arts for social change on many continents and is renowned for its social circus training and research Cirque Global is the first book length study of this new variety of circus and its international impact The contributors offer critical perspectives on this rapidly developing art form and its aesthetics ethics business practices pedagogical implications and discursive significations Essays explore creative entrepreneurial and cultural forces that are shaping Quebec's dynamic nouveau cirque Lavishly illustrated with photographs from circus performances the volume showcases Quebec circus's hybrid forms which have merged the ethos and aesthetics of European circuses with American commercial and industrial creativity Cirque Global is the definitive study of the phenomenon of Quebec circus and is an important model for future research on contemporary circus Showman Clifford Edward Watkins, 2003 A road weary show veteran Lowery landed a spot in the Ringling Brothers Sideshow Band at the height of the golden age of circuses At a time when the nation slammed the doors on African American travel and opportunity his work with the Ringling Brothers changed the music scene By 1910 as a result of his performances there were fourteen circus acts that employed African American bands Jacket **Showing Off, Showing Up** Laurie

Frederik, Kimberley Bell Marra, Catherine A. Schuler, 2017-05-18 The interdisciplinary essays in *Showing Off Showing Up* examine acts of showing a particular species of performance that relies on competition and judgment active spectatorship embodied excess and exposure of core values and hidden truths Acts of showing highlight those dimensions of performance that can most manipulate spectators and consumers often through over the top heightening and skewing of presentation Many forms of showing and of heightened performance however operate more enigmatically and covertly while still profoundly affecting the social world even if our reactions to them are initially flippant or unconcerned because it's just a show Examining a wide range of examples from dog shows to competitive dancing to carnivals to striptease the essays illuminate how such events variously foster competition exaggerate a characteristic and reveal hidden truths There is as much to be learned about the power of showing through subtlety and underlying intentionality as through overt display The book's theoretical introduction and 12 essays by leading scholars reveal how diverse particularly efficacious genres of showing are theoretically connected and why they merit more concerted attention especially in the 21st century *The Big Tent* Gregory J. Renoff, 2012-11-01 For many people the circus with its clowns exotic beasts and other colorful iconography is lighthearted entertainment Yet for Greg Renoff and other scholars the circus and its social context also provide a richly suggestive repository of changing attitudes about race class religion and consumerism In the South during the nineteenth and early twentieth centuries traveling circuses fostered social spaces where people of all classes and colors could grapple with the region's upheavals *The Big Tent* relates the circus experience from the perspectives of its diverse audiences telling what locals might have seen and done while the show was in town Renoff digs deeper too He points out for instance that the performances of these itinerant outfits in Jim Crow era Georgia allowed boisterous unrestrained interaction between blacks and whites on show lots and on city streets on Circus Day Renoff also looks at encounters between southerners and the largely northern population of circus owners promoters and performers who were frequently accused of inciting public disorder and purveying lowbrow prurience in part due to residual anger over the Civil War By recasting itself as a showcase of athleticism equestrian skill and God's wondrous animal creations the circus appeased community leaders many of whose businesses prospered during circus visits Ranging across a changing social cultural and economic landscape *The Big Tent* tells a new history of what happened when the circus came to town from the time it traveled by wagon and river barge through its heyday during the railroad era and into its initial decline in the age of the automobile and mass consumerism

The Gospel of Kindness Janet M. Davis, 2016 *The Gospel of Kindness* explores the historical significance of the American animal welfare movement at home and overseas from the Second Great Awakening to the Second World War Focused on laboring animals at its inception the movement evolved into an expansive gospel of kindness transforming animal mercy into a signature American value ***The Education of a Circus Clown*** David Carlyon, 2016-01-28 2017 Freedley Award Finalist Theatre Library Association 2016 Best Circus Book of the Year Stuart Thayer Prize Circus Historical Society The 1960s

American hippie clown boom fostered many creative impulses including neo vaudeville and Ringling's Clown College. However, the origin of that impulse, clowning with a circus, has largely gone unexamined. David Carlyon, through an autoethnographic examination of his own experiences in clowning, offers a close reading of the education of a professional circus clown, woven through an eye-opening, sometimes funny, occasionally poignant look at circus life. Layering critical reflections of personal experience with connections to wider scholarship, Carlyon focuses on the work of clowning while interrogating what clowns actually do, rather than using them as stand-ins for conceptual ideas or as sentimental figures.

The New York Concert Saloon Brooks McNamara, 2007-05-28 Publisher Description
