Stepladder Babies:

Exposure Therapy for Children with Anxiety and OCD Tara S. Peris, Eric A. Storch, Joseph F. McGuire, 2020-01-11

Many providers have difficulty implementing exposure based cognitive behavioral therapy for youth with anxiety and obsessive compulsive disorder OCD despite it being the leading treatment for this condition Exposure Therapy for Children with Anxiety and OCD Clinician's Guide to Integrated Treatment provides a step by step framework for how providers apply exposure therapy in practice The book begins with empirical support for the treatment followed by suggested implementation of exposures for specific conditions and ages Tables of sample exposures and case illustrations are provided throughout the book and common challenges that may complicate implementation are addressed Intended for busy providers to implement directly into practice chapters provide clinical excerpts and illustrate techniques in an easy how to format Summarizes empirical support for exposure treatment efficacy Recommends how to implement exposure therapy treatment for anxiety and OCD Provides guidance on overcoming common challenges when implementing exposures in practice Offers separate treatment guidelines for children and adolescents Integrates exposure therapy with other therapy modalities Includes case studies and clinical excerpts illustrating techniques

Handbook of Child Psychopathology Michel Hersen, 2013-11-11

Although the field of child psychopathology is of relatively recent origin it is a healthy burgeoning one Within the past 10 to 20 years numerous articles and books have been published and the field can now be described as emerging with an identity of its own No longer can child psychopathology be viewed simply as a downward extension of adult psychopathology Rather children must be viewed as children not as miniature adults Such a situation requires that issues of child psychology and developmental psychology be intimately considered when delineating the problems of children Such a focus has guided our efforts in soliciting contributors and topics for this volume All contributors are active researchers and clinicians in the area of child psychopathology and all are acutely aware of the special considerations of child and developmental psychology as they relate to child behavior problems Further all contributors are empirically minded consequently the various chapters are data based and represent the most up to date knowledge available However since research based knowledge is more abundant in some topic areas than in others the chapters vary in length and scope
