Herringshaw's National Library of American Biography Thomas William Herringshaw, 1914 **The American Civilizing Process** Stephen Mennell, 2013-04-24 Since 9 11 the American government has presumed to speak and act in the name of civilization But is that how the rest of the world sees it And if not why not Stephen Mennell leads up to such contemporary questions through a careful study of the whole span of American development from the first settlers to the American Empire He takes a novel approach analysing the USA's experience in the light of Norbert Elias's theory of civilizing and decivilizing processes Drawing comparisons between the USA and other countries of the world the topics discussed include American manners and lifestyles Violence in American society The impact of markets on American social character American expansion from the frontier to empire The curse of the American Dream and increasing inequality The religiosity of American life Mennell shows how the long term experience of Americans has been of growing more and more powerful in relation to their neighbours This has had all pervasive effects on the way they see themselves their perception of the rest of the world and how the rest of the world sees them Mennell's compelling and provocative account will appeal to anyone concerned about America's role in the world today including students and scholars of American politics and society **The Making of America** W. Cleon Skousen, The United States of America has been blessed with the world's greatest political success formula In a little over a century this formula allowed a small segment of the human family less than 6 percent to become the richest nation on earth It allowed them to create more than half of the world's total output in production and enjoy the highest standard of living in the history of the world In this book we learn how the Founding Fathers discovered this success formula Much of this discovery is told in the words of the Founders themselves so that the reader can feel the power of their minds sweeping away thousands of years of bad government and illogical laws to formulate a whole new society based on human freedom By returning to the roots of the Founders thinking and contemplating the logic that they used in establishing the Constitution we can better understand the challenges and solutions that confront us in today's political world This eBook includes the original index illustrations footnotes table of contents and page numbering from the printed format *Cobbett's Parliamentary History of England from the Norman Conquest in 1066, to the Year 1803, from which Last-mentioned Epoch it is Continued Downwards in the Work Entitled, "Cobbett's Parliamentary Debates" ...
