Still Barred from Prison Claire Culhane, 1985 **Comparing Prison Systems** Nigel South, Robert P. Weiss, 2014-01-02 This book provides in depth original and critical analyses by leading scholars of the penal systems of 16 nations around the world focusing on changes in social structure culture and punishment since 1975 Contributors provide an international and comparative context in which to understand the impact of recent profound economic social and political changes on penal theory and practice **Disruptive Prisoners** Chris Clarkson, Melissa Munn, 2021-07-20 In this history of prison reform in mid twentieth century Canada the voices of prisoners help to provide a nuanced understanding of prisoners as active agents of change **Encyclopedia of Prisons and Correctional Facilities** Mary Bosworth, 2004-12-15 The two volume Encyclopedia of Prisons and Correctional Facilities aims to provide a critical overview of penal institutions within a historical and contemporary framework Issues of race gender and class are fully integrated throughout in order to demonstrate the complexity of the implementation and intended results of incarceration The Encyclopedia contains biographies articles describing important legal statutes and detailed and authoritative descriptions of the major prisons in the United States Comparative data and examples are employed to analyze the American system within an international context The Encyclopedia s 400 entries are written by recognized authorities The appendix contains a comprehensive listing of every federal prison in the U S complete with facility details and service information *The Criminal's Handbook: A Practical Guide to Surviving Arrest and Incarceration in Canada* C. W. Michael, 2012 *Imprisoning Our Sisters* Stephanie Hayman, 2006-07-11 Using extensive interviews and previously unexplored archival material Hayman examines the work of the Task Force on Federally Sentenced Women and assesses the opening of the first three prisons She questions the notion that prisons can simultaneously heal and punish suggesting that the power of the prison inevitably triumphs over the good intentions of reformers Demarginalizing Voices Jennifer M. Kilty, Maritza Felices-Luna, Sheryl C. Fabian, 2014-11-13 Numerous books explore the how to of qualitative research but few discuss what it means to actually engage in it particularly when researchers adopt alternative methods to shed light on the experiences of marginalized populations In Demarginalizing Voices scholars share personal stories about their research with marginalized populations including Aboriginal peoples sex workers the dead and the dying women and men in prison women and men released from prison and the homeless and the hospitalized In the process they answer questions of relevance to anyone engaged in qualitative research What can scholars expect when their research requires them to establish human connections and relationships with their subjects What role do ethics review boards and institutions play when researchers explore new often less accepted methods How do researchers reconcile academic life and its expectations with their activism These powerful accounts from the cutting edge of qualitative research not only create a space in academia that centres marginalized voices they open up the field to new debates and discussion **Behead and Cure** Susan Armstrong-Reid, 2025-11-14 The war in Vietnam was an ethical minefield for the

medical humanitarians who volunteered to treat the injured and dying The United States government used humanitarian aid as a counterinsurgency strategy and weapon of war The Vietnamese people could not understand why the Americans and their allies sought at once to attack them and to save them by providing medical care Civilian medical teams increasingly questioned their complicity in the war and whether neutrality was possible Behead and Cure explores the ethics of humanitarianism in Vietnam through the stories of seven medical teams from the United States Britain Canada and Australia Non combatant women played key roles in all aspects of caring for civilians this book repositions them from the sidelines of the Vietnam War to the centre Drawing on interviews and first hand accounts Susan Armstrong Reid considers how personality life experience place and the culture of medical teams affected women s professional and personal lives in Vietnam and their lives afterwards Confronted daily with the horrors of war they were expected to fulfill their gendered roles as purveyors of Western medical care humanitarian ambassadors and models of femininity Some proved resilient and pursued a lifelong commitment to peace movements and humanitarian causes Others suffered burnout and sought to expunge the memory of their years in Vietnam Behead and Cure provides a new perspective on the ethical dilemmas facing humanitarian workers and the collateral human costs of war that remain timely today It reveals how the experience of Vietnam changed humanitarians views of their profession their own countries foreign policies and the place of the United States in the world

Women Prisoners and Health Justice Dianne Hatton, Anastasia Fisher, 2018-04-19 Incarceration severely affects the health and wellbeing of women both during their incarceration and following release further complicating the health disparities they already experience as a consequence of gender race and social class The scope of this international problem remains largely hidden from health professionals and policy makers This book brings the issues into the light with contributions from leading advocates criminologists feminists nurses physicians public health professionals social workers sociologists and former prisoners

Punishment in Disguise Kelly Hannah-Moffat, 2001-01-01 A look at some current forms of penal governance in Canadian federal women s prisons and a suggestion that the prison system itself given its primary functions of custody and punishment is consistent in thwarting attempts at progressive reform
