Dynamic Form Cara L. Lewis, 2020-07-15 Dynamic Form traces how intermedial experiments shape modernist texts from 1900 to 1950 Considering literature alongside painting sculpture photography and film Cara Lewis examines how these arts inflect narrative movement contribute to plot events and configure poetry and memoir As forms and formal theories cross from one artistic realm to another and back again modernism shows its obsession with form and even at times becomes a formalism itself but as Lewis writes that form is far more dynamic than we have given it credit for Form fulfills such various functions that we cannot characterize it as a mere container for content or matter nor can we consign it to ignominy opposite historicism or political commitment As a structure or scheme that enables action form in modernism can be plastic protean or even fragile and works by Henry James Virginia Woolf Mina Loy Evelyn Waugh and Gertrude Stein demonstrate the range of form's operations Revising three major formal paradigms spatial form pure form and formlessness and recasting the history of modernist form this book proposes an understanding of form as a verbal category as a kind of doing Dynamic Form thus opens new possibilities for conversation between modernist studies and formalist studies and simultaneously promotes a capacious rethinking of the convergence between literary modernism and creative work in other media

Still Life Elisha Cohn, 2016 Still Life Suspended Development in the Victorian Novel rethinks the nineteenth century aesthetics of agency through the Victorian novel's fascination with states of reverie trance and sleep These states challenge contemporary scientific and philosophical accounts of the perfectibility of the self which privileged

reflective self awareness In dialogue with the field of literature and science studies and affect studies this book shows how Victorian writers used narrative form to respond to the analytical practices and knowledge production of those other disciplines Drawing upon canonical texts by Charlotte Bront George Eliot George Meredith and Thomas Hardy Still Life contends that depictions of non purposive perceptual experience suspend the processes of self cultivation Bildung central to Victorian aesthetics science psychology and political theory as well as most critical accounts of the novel form Departing from the values of individual cultivation and moral revelation associated with the genre these writers offer an affective framework for understanding the subtly non instrumental powers of narrative Victorian novels ostensibly working within the parameters of the Bildungsroman are suspended by moments of still life a decentered lyricism associated with states of diminished consciousness They use this style to narrate what should be unnarratable experiences not dependent on reflective consciousness which express a distinctive ambivalence toward dominant developmental frameworks of individual self culture

Skepticism's Pictures Melissa Lo, 2023-05-26 In seventeenth century northern Europe as the Aristotelian foundations of scientia were rocked by observation experiment confessional strife and political pressure natural philosophers came to rely on the printed image to fortify their epistemologies and none more so than Ren Descartes In *Skepticism's Pictures* historian of science Melissa Lo chronicles the visual idioms that made sustained revised and resisted Descartes's new philosophy Drawing on moon maps political cartoons student notebooks treatises on practical mathematics and other sources Lo argues that Descartes transformed natural philosophy with the introduction of a new graphic language that inspired a wide range of pictorial responses shaped by religious affiliation political commitment and cultural convention She begins by historicizing the graphic vocabularies of Descartes's *Essais* and *Principia philosophiae* and goes on to analyze the religious and civic volatility of Descartes's thought which compelled defenders such as Jacques Rohault and Wolferd Senguerd to reconfigure his pictures according to their local visual cultures and stimulated enemies such as Gabriel Daniel to unravel Descartes's visual logic with devastating irony In the epilogue Lo explains why nineteenth century French philosophers divorced Descartes's thought from his pictures creating a modern image of reason and a version of philosophy absent visuality Engaging and accessible *Skepticism's Pictures* presents an exciting new approach to Descartes and the visual reception of seventeenth century physics It will appeal to historians of early modern European science philosophy art and culture and to art historians interested in histories that give images their argumentative power
