Still Life Withs A Novel:

Still Life Norbert Schneider, 2003 How do the objects in a still life reflect the customs ideas and aspirations of the time This is one of the questions which Schneider asks in this book Still lifes chart the history of scientific discoveries and their acceptance as well as the gradual replacement of the mediaeval concept of the world **The Still Life in the Fiction of A. S. Byatt** Elizabeth Hicks, 2010-08-11 This book explores the ways in which English writer A S Byatt s visual still lifes descriptions of real or imagined artworks and what are termed verbal still lifes scenes such as laid tables rooms and market stalls are informed by her veneration of both realism and writing It examines Byatt s adoption of the Barthesian concept of textual pleasure showing how her ekphrastic descriptions involve consumption and take time to unfold for the reader thereby highlighting the limitations of painting It also investigates the ways in which Byatt s still lifes demonstrate her debts to English modernist author Virginia Woolf French writer Marcel Proust and the Pre Raphaelite Brotherhood of nineteenth century Britain A number of Byatt s verbal still lifes are read as semiotic markers of her characters particularly with regard to economic status and class Further her descriptions uniting food and sexuality are perceived as part of her overall representation of pleasure Finally Byatt s employment of vanitas iconography in many of her portrayals of death is discussed showing how her recurring motif of Keats s Ode on a Grecian Urn teases out the still life s inherent tension between living passion and cold artwork **Still Life: A GMA Book Club Pick** Sarah Winman, 2022-09-13 A Good Morning America Book Club Pick A captivating bighearted richly tapestried story of people brought together by love war art flood and the ghost of E M Forster by the celebrated author of Tin Man Tuscany 1944 As Allied troops advance and bombs sink villages a young English soldier Ulysses Temper finds himself in the wine cellar of a deserted villa There he has a chance encounter with Evelyn Skinner a middle aged art historian intent on salvaging paintings from the ruins In each other Ulysses and Evelyn find a kindred spirit amidst the rubble of war torn Italy and paint a course of events that will shape Ulysses s life for the next four decades Returning home to London Ulysses reimmerses himself in his crew at The Stoa and Parot a motley mix of pub crawlers and eccentrics all the while carrying with him his Italian evocations So when an unexpected inheritance brings him back to where it all began Ulysses knows better than to tempt fate he must return to the Tuscan hills With beautiful prose extraordinary tenderness and bursts of humor and light Still Life is a sweeping portrait of unforgettable individuals who come together to make a family and a deeply drawn celebration of beauty and love in all its forms **Still Life** Elisha Cohn, 2016 Still Life Suspended Development in the Victorian Novel rethinks the nineteenth century aesthetics of agency through the Victorian novel s fascination with states of reverie trance and sleep These states challenge contemporary scientific and philosophical accounts of the perfectibility of the self which privileged reflective self awareness In dialogue with the field of literature and science studies and affect studies this book shows how Victorian writers used narrative form to respond to the analytical practices and knowledge production of those other disciplines Drawing upon canonical texts by

Charlotte Brontë George Eliot George Meredith and Thomas Hardy Still Life contends that depictions of non purposive perceptual experience suspend the processes of self cultivation Bildung central to Victorian aesthetics science psychology and political theory as well as most critical accounts of the novel form Departing from the values of individual cultivation and moral revelation associated with the genre these writers offer an affective framework for understanding the subtly non instrumental powers of narrative Victorian novels ostensibly working within the parameters of the Bildungsroman are suspended by moments of still life a decentered lyricism associated with states of diminished consciousness They use this style to narrate what should be unnarratable experiences not dependent on reflective consciousness which express a distinctive ambivalence toward dominant developmental frameworks of individual self culture **The Fiction of A.S. Byatt** Louisa Hadley, 2017-09-16 This Guide examines the key critical responses to Byatt's fiction both her novels and short stories tracing the wider debates about realism postmodernism and feminism with which they engage The Guide also explores the themes which are central to Byatt's work such as her depiction of writer figures and her conception of artistic vision

Picturing the Language of Images Laurence Petit, 2014-04-11 Picturing the Language of Images is a collection of thirty three previously unpublished essays that explore the complex and ever evolving interaction between the verbal and the visual The uniqueness of this volume lies in its bringing together scholars from around the world to provide a broad synchronic and diachronic exploration of the relationship between text and image as well as a reflection on the limits of representation through a re thinking of the very acts of reading and viewing While covering a variety of media such as literature painting photography film and comics across time from the 18th century to the 21st century this collection also provides a special focus on the work of particular authors such as A S Byatt W G Sebald and Art Spiegelman **A.S. Byatt and the Heliotropic Imagination** Jane Campbell, 2004-05-26 Contemporary writer Byatt uses the term heliotropic in two ways First it refers to her exploration and development of her own relation to the sun and to how her women characters experience adventures of the mind and feelings that bring them into the sun's light Second it refers to the fact that she suffers from seasonal affective disorder and Writing and Seeing Rui Manuel G. de Carvalho Homem, Maria de Fátima Lambert, 2006 The essays in this volume are informed by a variety of theoretical assumptions and of critical methodologies but they all share an interest in the intersections of word and image in a variety of media This unifying rationale secures the present collection's central position in the current critical context defined as it predominantly is by ways of reading that are based on a relational nexus The intertextual the intermedial the intersemiotic are indeed foregrounded and combined in these essays conceptually as much as in the critical practices favoured by the various contributions Studies of literature in its relation to pictorial genres enjoy a relative prominence in the volume but the range of media and of approaches considered is broad enough to include photography film video television comic strips animated film public art material culture The backgrounds of contributors are likewise diverse culturally academically linguistically The volume combines contributions by

prominent scholars and critics with essays by younger scholars from a variety of backgrounds The resulting plurality of perspective is indeed a source of new insights into the relations between writing and seeing and it contributes to making this collection an exciting new contribution to word and image studies **Modernism** Ástráður Eysteinnsson, Vivian Liska, 2007

The two volume work *Modernism* has been awarded the prestigious 2008 MSA Book Prize *Modernism* has constituted one of the most prominent fields of literary studies for decades While it was perhaps temporarily overshadowed by postmodernism recent years have seen a resurgence of interest in modernism on both sides of the Atlantic These volumes respond to a need for a collective and multifarious view of literary modernism in various genres locations and languages Asking and responding to a wealth of theoretical aesthetic and historical questions 65 scholars from several countries test the usefulness of the concept of modernism as they probe a variety of contexts from individual texts to national literatures from specific critical issues to broad cross cultural concerns While the chief emphasis of these volumes is on literary modernism literature is seen as entering into diverse cultural and social contexts These range from inter art conjunctions to philosophical environmental urban and political domains including issues of race and space gender and fashion popular culture and trauma science and exile all of which have an urgent bearing on the poetics of modernity **Sleep and the Novel** Michael Greaney, 2018-04-04

Sleep and the Novel is a study of representations of the sleeping body in fiction from 1800 to the present day which traces the ways in which novelists have engaged with this universal indispensable but seemingly nondescript region of human experience Covering the narrativization of sleep in Austen the politicization of sleep in Dickens the queering of sleep in Goncharov the aestheticization of sleep in Proust and the medicalization of sleep in contemporary fiction it examines the ways in which novelists envision the figure of the sleeper the meanings they discover in human sleep and the values they attach to it It argues that literary fiction harbours on its margins a sleeping partner one that we can nickname the Schlafroman or sleep novel whose quiet absorption in the wordlessness and passivity of human slumber subtly complicates the imperatives of self awareness and purposive action that traditionally govern the novel
