Let me know if there is anything I can do. This well-meaning offer is frequently expressed when a relative or friend suffers a death or other heart-wrenching loss such as divorce, termination of a job, having to put a parent in a nursing home or Alzheimer's facility, loss of one's home or the empty nest syndrome. This book moves beyond that offer and other platitudes and gives practical steps to take to help alleviate the pain of loss, the heartbreak from a variety of shattering experiences. These steps are drawn straight from real-life experiences; the stories of people demonstrate how one or more of these seven steps helped them turn grief of futility and despair into understanding, faith, and hope. Helping Those Experiencing Loss Robert J. Grover, Professor Emeritus, Susan G. Fowler, 2011-07-13. This book provides a guide for grieving youth and adults as well as extensive descriptive lists of recommended professional literature resources. Grief caused by loss is both a very common human experience and a highly individualized one. For example, children experience a number of losses that are unique to their young age, such as sibling and parent death, adoption, or divorce, and should be given special consideration by professionals and parents helping them in these situations. For gay, lesbian, or cohabiting heterosexual couples that suffer the loss of a partner, societal standards often deny the survivors in these relationships the right to grieve. *Helping Those Experiencing Loss: A Guide to Grieving Resources* is a book like no other, supplying compassionate information for navigating the emotional distress that every man and woman will experience in their lifetime, as well as a comprehensive guide to the literature of bereavement and grieving. It explains the grieving process, interpreting the results of research on the topic in plain language and addressing specific groups: children, young adults, parents who have lost a child, adults who have lost spouses, and the aging population. **Pastoral Care in Pregnancy Loss** Thomas Moe, 2014-01-02. Until now, the church has been unaware of the need for ministry to those suffering from pregnancy loss. At a time when approximately one in four pregnancies ends in loss, the need to understand and provide caring ministry is painfully obvious. *Pastoral Care in Pregnancy Loss* introduces the religious community to the issue of pregnancy loss and describes the ministries that can be helpful to those who experience these tragedies. Effective ministry in pregnancy loss requires that one develop basic life theories in order to prepare for such in-depth care. Thus, the book is more than a how-to, as it explores why there is suffering and why some suffer more than others, how to find grace when God seems far away, how to minister when we don't have answers, and how religious ministry can consistently work with other helping professionals in support of the individual. With the foundation of ministry theory provided by *Pastoral Care in Pregnancy Loss*, you can help your faith community develop strategies for ministry to those suffering from pregnancy loss. Numerous case studies illustrate what is usually done wrong in providing pastoral care in these difficult and delicate

situations and explain why those who experience loss may blame themselves why they may blame God and why they may not feel able to return to church Providing helpful insight to hospital pastoral care departments church libraries funeral directors counselors and psychologists nursing and obstetrics professionals and seminaries with a marriage and family ministry specialty this book provides readers with information about three types of pregnancy loss miscarriage still birth and neonatal loss church outreach the grieving process victims as consenters or experiencers the spiritual needs of those suffering loss practical ministries crisis support and long term support Pastoral Care in Pregnancy Loss furthers your understanding of pregnancy loss by enumerating theories on how suffering and loss are viewed by those suffering either as a time of testing a time of training a mystery of God a sign of punishment and warning or as having no meaning The book also shows how pregnancy loss affects five different types of personal relationships and discusses both immediate and long term concerns of providing pastoral care From helping the victim find meaning or reason for the loss to providing support in preparing for future pregnancies this book provides much needed guidance to an often neglected ministry *The Wiley Blackwell Encyclopedia of Family Studies, 4 Volume Set* Constance L.
