Convention and the Individual in Medieval English Romance Lucy Brookes,2025-04 Offers a nuanced reading of character and subjectivity in medieval romance via an exploration of its conventions Medieval romances can be characterised by their formulaic motifs predictable plots and stock figures and character types This book offers a fresh perspective on these conventions arguing that authors used them and the expectations they generate as a form of shorthand to interiority Understanding romance conventions in this way reveals that romance characters complex and often contradictory inner lives are made available precisely through the genre s narrative structures shapes and norms Drawing upon recent work in the History of Emotions and Affect Theory the author explores character and subjectivity in a variety of English romance texts from 1100 to 1500 such as Amis and Amiloun Le Bone Florence of Rome The Squire of Low Degree Sir Orfeo Sir Gawain and the Green Knight and Malory s Le Morte Darthur Through new readings of these texts the book demonstrates the contribution made by romance to the growing significance of the individual in fiction after the twelfth century by paying particular attention to the ways in which convention expectation and genre intersect with character formation and the representation of identity

Narrating Medicine in Middle English Poetry Eve Salisbury, 2022-08-11 Exploring medical writing in England in the 100 years after the advent of the Great Mortality this book examines the storytelling practices of poets patients and physicians in the midst of a medieval public health crisis and demonstrates how literary narratives enable us to see a kinship between poetry and the healing arts Looking at how we can learn to diagnose a text as if we were diagnosing a body Salisbury provides new insights into how we can recuperate the voices of those afflicted by illness in medieval texts when we have no direct testimony She considers how we interpret stories told by patients in narratives mediated by others ways that women factor into the shaping of a medical canon how medical writing intersects with religious belief and memorial practices governed by the Church and ways that regimens of health benefit a population in the throes of an epidemic

Bodily and Spiritual Hygiene in Medieval and Early Modern Literature Albrecht Classen, 2017-03-20 While most people today take hygiene and medicine for granted they both have had their own history We can gain deep insights into the pre modern world by studying its health care system its

approaches to medicine and concept of hygiene Already the early Middle Ages witnessed great interest in bathing hot and cold swimming and good personal hygiene Medical activities grew over time but even early medieval monks were already great experts in treating the sick The contributions examine literary medical historical texts and images and probe the information we can glean from them The interdisciplinary approach of this volume makes it possible to view this large field in a complex and diversified manner taking into account both early medieval and early modern treatises on medicine water bathing and health Such a cultural historical perspective creates a most valuable bridge connecting literary and scientific documents under the umbrella of the history of mentality and history of everyday life The volume does not aim at idealizing the past but it definitely intends to deconstruct modern myths about the dirty and unhealthy Middle Ages and early modern age

Medieval literary voices Louise D'Arcens, Sif Ríkharðsdóttir, 2022-07-05 Voice is a fleeting physical phenomenon that leaves behind traces of its existence Medieval literary voices offers a wide reaching approach to the concept of literary voices both the vanished authorial ones and the implicit textual ones Its impressive lineup deepens our understanding of how literary voices evoke the elusive voices lurking beyond the text capturing the absent authorial voice the traces of scribal voices and the soundscape of the uttered text It explores multiple dimensions of medieval voice and vocalisations and the interactions between literary voices and their authorial scribal and socio political settings It contends that through the theorizing of literary voices we can begin to understand the ways in which medieval voices mediate or proclaim an embodied selfhood or material presence how they dictate or contest moral conventions and how they create and sustain narrative soundscapes

The Routledge Companion to Literature and Food Lorna Piatti-Farnell, Donna Lee Brien, 2018-04-19. The Routledge Companion to Literature and Food explores the relationship between food and literature in transnational contexts, serving as both an introduction and a guide to the field in terms of defining characteristics and development. The Arthurian World Victoria Coldham-Fussell, Miriam Edlich-Muth, Renée Ward, 2022-06-30. This collection provides an innovative and wide-ranging introduction to the world of Arthur by looking beyond the canonical texts and themes, taking instead a transversal perspective on the Arthurian narrative. Together, its thirty-four chapters explore the continuities that make the material recognizable from one century to another, as well as transformations specific to particular times and places, revealing the astonishing variety of adaptations that have made the Arthurian story popular in large parts of the world. Divided into four parts: *The World of Arthur in the British Isles*, *The European World of Arthur*, *The Material World of Arthur*, and *The Transversal World of Arthur*, the volume tracks the legend's movement across temporal, geographical and material boundaries. Broadly chronological, each part views the unfolding Arthurian story through its own lens, while temporal and geographical overlaps between the sections underscore the proximity of these developments in the legend's history. Ranging from early Latin chronicles and Welsh poetry to twenty-first-century anime and political conspiracies, this comprehensive and illuminating book will be of interest to anyone researching Arthurian literature or tracing the evolution of medievalism through literature, the visual arts and popular culture.

Arthurian Literature Elizabeth Archibald, David F. Johnson, 2010. The influence and significance of the legend of Arthur are fully demonstrated by the subject matter and time span of articles here. Topics range from early Celtic sources and analogues of Arthurian plots to popular interest in King Arthur in 16th-century London, from the 13th-century French prose *Mort Artu* to Tennyson's *Idylls of the King*. It includes discussion of shapeshifters and loathly ladies, attitudes to treason, royal deaths and funerals in the 15th century, and the 19th-century late medieval Scottish politics and early modern chivalry.

[Warriors and Wilderness in Medieval Britain](#) Robin Melrose, 2017-02-07. Tracing the development of the King Arthur story in the late Middle Ages, this book explores Arthur's depiction as a wilderness figure, the descendant of the northern Romano-British hunter-warrior god. The earliest Arthur was a warrior, but in the 11th-century Welsh tale *Culhwch and Olwen*, he is less a warrior and more a leader of a band of rogue heroes. The story of Arthur was popularized by Geoffrey of Monmouth in his Latin *History of the Kings of Britain* and was translated into Middle English in Layamon's *Brut* and the

later alliterative Alliterative Morte Arthure Both owed much to the epic poem Beowulf which draws on the Anglo Saxon fascination with the wilderness The most famous Arthurian tale is Sir Gawain and the Green Knight in which the wilderness and themes from Beowulf play a leading role Three Arthurian tales set in Inglewood Forest place Arthur and Gawain in a wilderness setting and link Arthur to medieval Robin Hood tales

Performance and the Middle English Romance

Linda Marie Zaerr,2012 An examination of if and how medieval romance was performed uniquely uniting the perspective of a scholar and practitioner Although English medieval minstrels performed gestes a genre closely related to romance often playing the harp or the fiddle the question of if and how Middle English romance was performed has been hotly debated Here the performance tradition is explored by combining textual historical and musicological scholarship with practical experience from a noted musician Using previously unrecognised evidence the author reconstructs a realistic model of minstrel performance showing how a simple melody can interact with the text and vice versa She argues that elements in Middle English romance which may seem simplistic or repetitive may in fact be incomplete as missing an integral musical dimension metrical irregularities for example may be relics of sophisticated rhythmic variation that make sense only with music Overall the study offers both a more accurate comprehension of minstrel performance and a deeper appreciation of the romances themselves Linda Marie Zaerr is Professor of Medieval Studies at Boise State University
