**First Peoples In Canada** Alan D. McMillan, Eldon Yellowhorn, 2009-12-01 First Peoples in Canada provides an overview of all the Aboriginal groups in Canada Incorporating the latest research in anthropology archaeology ethnography and history this new edition describes traditional ways of life traces cultural changes that resulted from contacts with the Europeans and examines the controversial issues of land claims and self government that now affect Aboriginal societies Most importantly this generously illustrated edition incorporates a Nativist perspective in the analysis of Aboriginal cultures *Contact in the 16th Century* Brad Loewen, Claude Chapdelaine, 2016-05-12 From Labrador to Lake Ontario the Gulf of Saint Lawrence to French Acadia and Huronia Wendaki to Tadoussac and from one chapter to the next this scholarly collection of archaeological findings focuses on 16th century European goods found in Native contexts and within greater networks forming a conceptual interplay of place and mobility The four initial chapters are set around the Gulf of Saint Lawrence where Euro Native contact was direct and the historical record is strongest Contact networks radiated northward into Inuit settings where European iron nails roofing tile fragments and ceramics are found Glass beads are scarce on Inuit sites as well as on Basque sites on the Gulf's north shore but they are numerous in French Acadia Ceramics on northern Basque sites are mostly from Spain An historical review discusses the partnership between Spanish Basques and Saint Lawrence Iroquoians c 1540 1580 The four chapters set in the Saint Lawrence valley show Tadoussac as a fork in inland networks Saint Lawrence Iroquoians obtained glass beads around Tadoussac before 1580 Algonquin from Lac Saint Jean began trading at Tadoussac after that They plied a northern route that linked to Huronia Wendaki via the Ottawa Valley and the Frontenac Uplands Finally four chapters set around Lake Ontario focus on contact between this region and the Saint Lawrence valley Huron Wendat sites around the Kawartha Lakes show an influx of Saint Lawrence trade in the 16th century followed by an immigration wave about 1580 Huron Wendat sites near Toronto show an unabated inflow of Native materials from the Saint Lawrence valley however neutral sites west of Lake Ontario show Native and European materials arriving from the south A review of glass bead evidence presented by various authors shows trends that cut across chapters and bring new impetus to the study of beads to discover 16th century networks among French and Basque fishers Inuit and Algonquian foragers and Iroquoian farmers With contributions from Sara Barreiro Meghan Burchell Claude Chapdelaine Martin S Cooper Amanda Crompton Vincent Delmas Sergio Escribano Ruiz William Fox Sarah Grant Francois Guindon Erik Langevin Brad Loewen Jean Francois Moreau Jean Luc Pilon Michel Plourde Peter Ramsden Lisa Rankin and Ronald F Williamson Published in English

**Natives and Newcomers** Bruce G. Trigger, 1986 According to convential nineteenth century wisdom societies of European origin were naturally progressive native societies were static One consequence of this attitudde was the almost universal separation of history and anthropology Today despite a growing interest in changes in Amerindian societies this dichotomy continues to distort the investigation of Canadian history and to assign native peoples only a marginal place in it Natives and Newcomers discredits that myth In a spirited and critical re examination of relations between the French and the Iroquoian speaking inhabitants of the St Lawrence lowlands from the incursions of Jacques Cartier through the explorations of Samuel de Champlain and the Jesuit missions into the early years of the royal regime Natives and Newcomers argues that native people have played a significant role in shaping the development of Canada Trigger also shows that the largely ignored French traders and their employees established relations with native people that were indispensable for founding a viable European colony on the St Lawrence The brisk narrative of this period is complemented by a detailed survey of the stereotypes about native people that have influenced the development of Canadian history and anthropology and by candid discussions of how historical ethnographical and archaeological approaches can and cannot be combined to produce a more rounded and accurate understanding of the past *Diversity and Complexity in Prehistoric Maritime Societies* Bruce J. Bourque, 2007-09-04 New England archaeology has not always been everyone s cup of tea only late in the Golden of nineteenth century archaeology as archaeology s focus turned westward did a few pioneers look northward as well causing a brief flurry of investigation and excavation Between 1892 and 1894 Charles C Willoughby did some exemplary excavations at three small burial sites in Bucksport Orland and Ellsworth Maine and made some models of that activity for

exhibition at the Chicago World's Fair. These activities were encouraged by E. Putnam, director of the Harvard Peabody Museum and head of anthropology at the Columbian Exposition. Even earlier, another director of the Peabody, Jeffries Wyman, spawned some real interest in the shellheaps of the Maine coast, but that did not last very long. Twentieth-century New England archaeology, specifically in Maine, was for its first fifty years rather low key, too, with short-lived but important activity by Arlo and Oric A. Bates, a Harvard student prior to World War I. Another Massachusetts institution, the Peabody Foundation at Andover, took some minor but responsible steps toward further understanding of the area's prehistoric past.

**Archaeology of the Iroquois** Jordan E. Kerber, 2007-07-19 This timely volume offers a compilation of twenty-four articles covering a wide spectrum of topics in Iroquoian archaeology. Culled from leading publications, the pieces collectively represent the current state of knowledge and research in the field. A comprehensive research bibliography with more than 500 entries will be a key resource for specialists and non-specialists alike. Both text and bibliography are structured in five sections: Origins, Precolumbian Dynamics, Postcolumbian Dynamics, Material Culture Studies, and Contemporary Iroquois Perspectives. Repatriation and Collaborative Archaeology. Along with seminal essays by major figures in regional archaeology, the book includes responses by Haudenosaunee writers to the political context of contemporary archaeological work. This collection will prove indispensable to scholars in all areas of Iroquois studies, students and teachers of Iroquoian archaeology, and professional and avocational archaeologists in the United States and Canada. *The Far Northeast* Kenneth R. Holyoke, M. Gabriel Hrynicky, 2022-03-22 *The Far Northeast 3000 BP to Contact* is the first volume to synthesize archaeological research from across Atlantic Canada and northern New England for the period spanning from 3000 years ago to European contact. Recently, notions of the Woodland period in the broader Northeast have drawn scrutiny from experts due to increasing awareness that its hallmarks, such as horticulture, village formation, mortuary ceremonialism, and the advent of various technologies, appear to be less synchronous than once thought. By paying particular attention to the Far Northeast and its unique yet sometimes marginal position in Woodland discourse, this work offers a much-needed in-depth look at one of the best-documented cases of hunter-gatherer persistence and adaptation at the eve of European contact. Penned by academic, government, and cultural resource management archaeologists, the seventeen chapters in *The Far Northeast 3000 BP to Contact* draw on decades of research in considering this period both in terms of variability within the region and integration with broader cultural patterns in the Northeast and beyond. **Man in the Northeast**, 1991

Interdisciplinary Approaches to Canadian Society Alan F.J. Artibise, 1990-08-01 Far more than a bibliographic account of the major works in Canadian Studies, *Interdisciplinary Approaches to Canadian Society* provides a broad examination of the state of this growing field of study. Each chapter stresses the importance of the interdisciplinary and multidisciplinary approaches which have come to characterize Canadian Studies. Also, in an unprecedented collaborative effort, almost all the chapters are jointly authored by anglophone and francophone scholars. The works on Quebec and the francophone community

respect the distinct nature of this facet of Canada As stated in the introduction this work is a primer in the field and a guide to further pursuits Its users will welcome it as a friendly introduction to an exciting country **Bears** Heather A.

Lapham,Gregory A. Waselkov,2024-04-02 Although scholars have long recognized the mythic status of bears in indigenous North American societies of the past this is the first volume to synthesize the vast amount of archaeological and historical research on the topic Bears charts the special relationship between the American black bear and humans in eastern Native American cultures across thousands of years *Beckstead Site - 1977* James F. Pendergast,1984-01-01 This a detailed

account of excavations on the Beckstead St Lawrence Iroquoian village site which took place in 1977 as a result of the site being threatened by a road widening project After quoting from the earliest references to the site by the settlers and an explanation of the excavation plan the author describes and discusses the archaeological features Published in English
