Six Epistles To Eva Hesse:

Six Epistles to Eva Hesse Donald Davie, 1970 *Collected Poems* Donald Davie, 1991-06-02 Donald Davie's poems are here arranged chronologically from the 1950s to the beginning of the 1990s. Taken together, the poems display that reverence for the distinctive qualities of the English language which has earned him a name as one of Britain's finest living poets. Davie's voice: judgemental, ironic, epigrammatic, humorous, self-lacerating, speaks always with reference to an unhuman perpendicular standard that itself goes unquestioned. It is not a standard of Beauty or Truth. Davie is a poet of the third member of the Platonic triad: Justice. Helen Vendler, *The New Yorker*. Davie's poems are on the quiet side, often casual and musing in mood and tone, determined to resist large gestures of assent or denial. Donald Davie may just be the best English poet-critic of our time. William Pritchard, *The New Republic*. Donald Davie's *Collected Poems* does more than mark the culmination of one of the most distinguished careers in post-war British poetry; it is the autobiographical journey of a living poet at the height of his creative powers and the mastery of his craft. Davie is considered the most important and valuable contemporary link between poetry in England and America. Sarah E. McNeil, *Little Rock Free Press*. *The Cambridge Companion to British Poetry, 1945-2010* Edward Larrissy, 2016 This Companion brings together sixteen essays that explore the full diversity of British poetry since the Second World War. Focusing on famous and neglected names alike, from Dylan Thomas to John Agard, leading scholars provide readers with insight into the ongoing importance and profundity of post-war poetry. At Home in Time Patrick Deane, 1994 Patrick Deane argues that modern English poetry in some key aspects is deeply indebted to the classical tradition and more particularly to the attitudes and modes of the eighteenth century. He illustrates how neo-Augustan values are apparent in the works of T. S. Eliot, W. H. Auden, Louis MacNeice, A. D. Hope, Donald Davie, Charles Tomlinson and others. *Lives of the Poets* Michael Schmidt, 2010-04-14 National Book Critics Circle Award Finalist In this stunning volume of epic breadth, Michael Schmidt connects the lives and works of more than 300 poets over the last 700 years, spanning distant shores from Scotland to Australia to the Caribbean, all sharing the English language. Schmidt reveals how each poet has transformed a common language of poetry into the rustic rhythms and elegiac ballads, love sonnets and experimental postmodern verse that make up our lyrical canon. A comprehensive guided tour that is lively and always accessible. *Lives of the Poets* illuminates our most transcendent literary tradition. **Yeats as Precursor** S. Matthews, 2000-01-27 As both a late Romantic and a modern, W. B. Yeats has proved to be perhaps the most influential poet of the early twentieth century. In this original study, Steven Matthews traces through close readings of significant poems the flow of Yeatsian influence across time and cultural space. By engaging with the formalist criticism of Harold Bloom and Paul de Man in their dialogues with Jacques Derrida, he also considers Yeats's significance as the founding presence within the major poetry criticism of the century.
