*Six Lost Leaders* George W. Liebmann, 2001-01-01 In his new book George W Liebmann discusses the work of six largely forgotten figures Octavia Hill William Glyn Jones Mary Richmond George William Brown Mary Parker Follet and Bryan Keith Lucas Three are British three American Some came from affluent backgrounds some grew up poor One was barely educated another spent eleven years at some of the world's more prestigious institutions of higher learning What united them all was a shared conviction that citizenship involved more than voting that society consists of more than the marketplace or political institutions and that professional values are important for shaping a civil discourse With a sympathetic eye toward the fulfillment of these common aspirations Liebmann looks at the national health social work housing management and educational initiatives spearheaded by these powerful figures over the past two centuries This study is a fascinating retort to our cynical age of political disillusionment and an innovative contribution to social and political history **America's**

**Political Inventors** George W. Liebmann, 2017-12-11 Recent American political developments including the election of Donald Trump reveal profound disquiet with the highly centralized political regime based on discretionary allocation of funds and powers to interest groups that has developed since the creation of emergency institutions after America's entry into World War I This book demonstrates the effectiveness in American history of measures conceived in a different spirit addressing the population at large rather than particular interest groups relying on citizen and local initiative and founded not on the distribution of frequently unearned benefits and powers but on reciprocal contributions and obligations George W Liebmann discusses John Winthrop and his foundation of New England towns John Locke and the creation of Southern plantations Thomas Jefferson and his scheme for the organization of Northwestern townships and American territories and states Joseph Pulitzer and the origins of municipal home rule John Wesley Powell and the creation of reclamation districts Hugh Hammond Bennett and the fostering of soil conservation districts and Byron Hanke and the development of residential community associations The book concludes with a number of public policy proposals relating to housing urban renewal care of the elderly immigration and youth unemployment conceived in the same spirit Liebmann brings to light little known facts concerning the growth of practices and institutions that Americans take for granted His book will be of interest to students of biography history and government *The Common Law Tradition* George Liebmann, 2017-09-04 This book commemorates a

place and a time in American law teaching but more importantly an outlook the common law tradition That outlook was empirical and tolerant These values were carried into expression by a group of people who were not part of a cult or faction nor ruled by the herd instinct Now in paperback *The Common Law Tradition* is a collective portrait of five scholars who epitomize the tradition The focus is Chicago in the 1960s The five figures considered Edward H Levi Harry Kalven Jr Karl Llewellyn Philip Kurland and Kenneth Culp Davis did much to broaden the perspectives of the legal academy Levi made use of sociology economics and comparative law Kalven collaborated with sociologists on the Jury Project and with economists on

tax law and auto compensation plans Llewellyn's commitment to empirical research underpinned his work on the Uniform Commercial Code Kurland's approach to constitutional law was highlighted by his insistence on the relevance of legal history Davis was an energetic comparativist in his work on administrative law What distinguished these Chicagoans is that their work was practical and rooted in the law and hence yielded concrete applications The group's diversity the tolerant atmosphere in which they taught and wrote and the attachment of its individual members to empirical approaches differentiate them from today's legal scholars and make their ideas of continuing importance *Utopian Universities* Miles Taylor, Jill Pellew, 2020-11-12 In a remarkable decade of public investment in higher education some 200 new university campuses were established worldwide between 1961 and 1970 This volume offers a comparative and connective global history of these institutions illustrating how their establishment intellectual output and pedagogical experimentation sheds light on the social and cultural topography of the long 1960s With an impressive geographic coverage using case studies from Europe the Americas Africa and Asia the book explores how these universities have influenced academic disciplines and pioneered new types of teaching architectural design and student experience From educational reform in West Germany to the establishment of new institutions with progressive interdisciplinary curricula in the Commonwealth the illuminating case studies of this volume demonstrate how these universities shared in a common cause the embodiment of utopian ideals of living learning and governance At a time when the role of higher education is fiercely debated *Utopian Universities* is a timely and considered intervention that offers a wide ranging historical dimension to contemporary predicaments *From Charity to Social Work* Elizabeth N. Agnew, 2004 Mary E Richmond 1861-1928 was a contemporary of Jane Addams and an influential leader in the American charity organization movement In this biography the first in depth study of Richmond's life and work Elizabeth N Agnew examines the contributions of this important if hitherto under valued woman to the field of charity and to its development into professional social work Orphaned at a young age and largely self educated Richmond initially entered charity work as a means of self support but came to play a vital role in transforming philanthropy previously seen as a voluntary expression of individual altruism into a valid organized profession Her career took her from charity organization leadership in Baltimore and Philadelphia to an executive position with the prestigious Russell Sage Foundation in New York City Richmond's progressive civic philosophy of social work was largely informed by the social gospel movement She strove to find practical applications of the teachings of Christianity in response to the social problems that accompanied rapid industrialization urbanization and poverty At the same time her tireless efforts and personal example as a woman created an appealing if ambiguous path for other professional women A century later her legacy continues to echo in social work and welfare reform **The Professional Ideal in the Victorian Novel** S. Colon, 2007-05-14 This book makes the claim that Victorian novels do not simply reflect professional ideology they also scrutinize its dilemmas contradictions and limitations In this volume innovative readings of canonical texts like *Sybil* Barchester Towers *Romola* and *Daniel Deronda*

accompany groundbreaking work on less familiar texts like *Tancred* and *My Lady Ludlow* to illuminate the Victorians own struggles with the emerging professional ideology The Victorians engagement with fundamental ideas of professional identity such as autonomy meritocracy and the service ethic reveal professionalism s dual basis in materialist and idealist

rationalities *The British National Bibliography* Arthur James Wells,2005 **American Book Publishing Record** ,2003

persist because they are systemic rather than personal in nature Deep and lasting change that could result in lifting millions of people out of poverty will only occur when the systems rather than only the individuals are changed or replaced The author challenges ordinary citizens especially the youth to rise up against animal farm systems in order to create the tomorrow to which they aspire and deserve **Forthcoming Books** Rose Army,2002 [The Future Horizon for a Prophetic Tradition](#) David L. Everett,2017-03-20 In this book David Everett examines how Church has changed throughout a modern postmodern context Everett explores how social gospel dimensions and prophetic radicalism have diminished in a way that it might reestablish itself as a pillar in the community through a retrieval of its prophetic voice and social gospel roots so that it to might be missional minded and civically engage Everett anticipates that this perspective will assist the Black Church in the reclamation of its heritage by confirming its purpose and affirming its position within the missional context that God has placed it **Choice** ,2003 *Development, Civil Society and Faith-Based Organizations* G. substantial contribution to the expression of public voice without border Amartya Sen Suicide bombings collateral damage kidnappings and air strikes pepper the lexicon of twenty first century politics Global Civil Society 2006 7 explores the complex relationship between violence civil society and legitimacy in a unique dialogue that crosses political cultural and religious boundaries Is the use of violence by non state actors ever justified How is violence transmitted from the private to the public sphere Why is terror and the war on terror catalysing rather than suppressing violence Do Western and Islamic traditions of thought offer any solutions This edition of the Yearbook also includes new research on economic and social rights the politics of water and football Chapters include Not Even a Tree Can Violence be Justified in a Global Era Mary Kaldor and Heba Raouf Ezzat Bringing Violence Back Home Jenny Pearce Pipe dream or Panacea Global Civil Society and Economic and Social Rights Marlies Glasius War and Peace the Role of Global Civil Society Mary Kaldor Denisa Kostovicova and Yahia Said Water a Global Contestation Willemijn Dicke Patrick Bond Fadia Daibes Murad Sanjeev Khagram Alessandro Palmieri Carlos Vainer Zo Wilson and Patricia Wouters The Church the Mosque and Global Civil Society Mark Juergensmeyer The Odd Couple Football and Global Civil Society David Goldblatt     Poets and Prophets of the Resistance Joaquín Mauricio Chávez, 2017 Ch vez shows instead how peasant intellectuals acted as political catalysts among their own communities first particularly in the region of Chalatenango laying the groundwork for the peasant movements that were to come In this way he contends the Salvadoran insurgency emerged in a dialogue between urban and peasant intellectuals working together to create and execute a common revolutionary strategy one that drew on cultures of resistance deeply rooted in the country s history poetry and religion Focusing on this cross pollination this book introduces the idea that a pedagogy of revolution originated in this historical alliance between urban and peasant making use of secular and Catholic pedagogies such as radio schools literacy programs and rural cooperatives This pedagogy became more and more radicalized over time as it pushed back against the increasingly repressive structures of 1970s El Salvador
