The Clerical Proletariat and the Resurgence of Medieval English Poetry Kathryn Kerby-Fulton, 2021-05-28 Despite the great literary achievements of Chaucer Langland and the Pearl Poet Ricardian English books were still a niche market in 1400 As Kathryn Kerby Fulton shows however their generation was transformational in nurturing the resurgence of English writing in part as a result of the mass underemployment of clerks originally trained for the church but unable to find steady positions in it Surviving instead as ecclesiastical or choral piece workers or in secular jobs in government or private households this clerical proletariat lived and worked in liminal spaces between the ecclesiastical and lay world And there the most enterprising found new material and new audiences for poetry in English Since English book production in London prior to 1380 was rare Kerby Fulton's study begins in the prior century with great regional poets revealing their early experimentation with a new poetics of vocational crisis Preoccupied with underemployment patronage careerist ambition alienation and changing literary fashion these thirteenth century writers were choosing the more avant garde option of writing in English while feeling backwards to earlier tradition in works such as *Laamon's Brut* and *The Owl and the Nightingale* These early experimenters invoked semi remembered literary forms in a still evolving written vernacular breaking ground for Ricardian writers who turned to these conventions during the massive clerical unemployment of the Great Schism era Kerby Fulton's is the first study of Langland's legacy of articulating an authorial employment crisis and its echoes in Hoccleve and Audelay It also uses new tools for uncovering proletarian writers in unattributed Middle English works including the famous Harley 2253 lyrics the York Realist's Second Trial from the York Cycle *St Erkenwald* and *Wynnere and Wastour* Taking in proletarian themes including class meritocracy the abuse of
