Sketchbooks are an outstanding feature in more than a few exhibitions they have a downright prominent place in showcases above them monitors where all sheets can be seen on touch screens a visual pleasure and an exciting event Unfortunately however many people continue to be rather baffled by sketchbooks What goes on there Most are convinced that the purpose of a sketchbook is to prepare for a work typically a painting Its pages contain impressions of a preliminary nature sketched in a few strokes which are completed at another time and another place But things have changed and this is a development we have to examine at long last in greater depth sketchbooks can accomplish more they plough a field other than that of pre liminarity To date there is no publication that explores their true significance within the creative process Is it not called for to take a close look at the weight artists attach to the silent companion in their jacket pocket This is the purpose of this book

alluring and primitive a reflection of their fears and suppressed desires But who was Sara Baartman Who was the woman who became the Hottentot Venus Based on research and interviews that span three continents Sara Baartman and the Hottentot Venus tells the entwined histories of an elusive life and a famous icon In doing so the book raises questions about the possibilities and limits of biography for understanding those who live between and among different cultures In reconstructing Baartman s life the book traverses the South African frontier and its genocidal violence cosmopolitan Cape Town the ending of the slave trade the Industrial Revolution the French Revolution the Napoleonic Wars London and Parisian high society and the rise of racial science The authors discuss the ramifications of discovering that when Baartman went to London she was older than originally assumed and they explore the enduring impact of the Hottentot Venus on ideas about women race and sexuality The book concludes with the politics involved in returning Baartman s remains to her home country and connects Baartman s story to her descendants in nineteenth and twentieth century South Africa Sara Baartman and the Hottentot Venus offers the authoritative account of one woman s life and reinstates her to the full complexity of her history

Creative Collaboration Vera John-Steiner,2006-08-03 Rodin s sculpture The Thinker dominates our collective imagination as the purest representation of human inquiry the lone stoic thinker But while the Western belief in individualism romanticizes this perception of the solitary creative process the reality is that scientific and artistic forms emerge from the joint thinking passionate conversations emotional connections and shared struggles common in meaningful relationships In Creative Collaboration Vera John Steiner offers rare and fascinating glimpses into the dynamic alliances from which some of our most important scholarly ideas scientific theories and art forms are born Within these pages we witness the creative process unfolding in the intimate relationships of Jean Paul Sartre and Simone de Beauvoir Henry Miller and Anais Nin Marie and Pierre Curie Martha Graham and Erick Hawkins and Georgia O Keeffe and Alfred Stieglitz the productive partnerships of Pablo Picasso and Georges

Braque Albert Einstein and Marcel Grossmann Aaron Copland and Leonard Bernstein and Freeman Dyson and Richard Feynman the familial collaborations of Thomas and Heinrich Mann Hubert and Stuart Dreyfus and Margaret Mead Gregory Bateson and Mary Catherine Bateson and the larger ensembles of The Guarneri String Quartet Lee Strasburg Harold Clurman and The Group Theater and such feminist groups as The Stone Center and the authors of Women s Ways of Knowing Many of these collaborators complemented each other meshing different backgrounds and forms into fresh styles while others completely transformed their fields Here is a unique cultural and historical perspective on the creative process Indeed by delving into these complex collaborations John Steiner illustrates that the mind rather than thriving on solitude is clearly dependent upon the reflection renewal and trust inherent in sustained human relationships Here is a unique cultural and historical perspective on the creative process and a compelling depiction of the associations that nurtured our most talented artists and thinkers By delving into these complex intimate collaborations John Steiner illustrates that the mind rather than thriving on solitude is clearly dependent upon the dialogue renewal and trust inherent in sustained human relationships
