Morgan, 2016-01-20 Slaves achieved a degree of economic independence producing food tending cash crops raising livestock manufacturing furnished goods marketing their own products consuming and saving the proceeds and bequeathing property to their descendants The editors of this volume contend that the legacy of slavery cannot be understood without a full appreciation of the slaves economy

*Economic Growth and the Ending of the Transatlantic Slave Trade* David Eltis, 1987-06-11 This watershed study is the first to consider in concrete terms the consequences of Britain's abolition of the Atlantic slave trade Why did Britain pull out of the slave trade just when it was becoming important for the world economy and the demand for labor around the world was high Caught between the incentives offered by the world economy for continuing trade at full tilt and the ideological and political pressures from its domestic abolitionist movement Britain chose to withdraw believing in part that freed slaves would work for low pay which in turn would lead to greater and cheaper products In a provocative new thesis historian David Eltis here contends that this move did not bolster the British economy rather it vastly hindered economic expansion as the empire's control of the slave trade and its great reliance on slave labor had played a major role in its rise to world economic dominance Thus for sixty years after Britain pulled out the slave economies of Africa and the Americas flourished and these

powers became the dominant exporters in many markets formerly controlled by Britain Addressing still volatile issues arising from the clash between economic and ideological goals this global study illustrates how British abolitionism changed the tide of economic and human history on three continents

*Slavery and the Enlightenment in the British Atlantic, 1750-1807* Justin Roberts, 2013-07-08 This book examines the daily details of slave work routines and plantation agriculture in the eighteenth century British Atlantic focusing on case studies of large plantations in Barbados Jamaica and Virginia Work was the most important factor in the slaves experience of the institution Slaves day to day work routines were shaped by plantation management strategies that drew on broader pan Atlantic intellectual and cultural principles Although scholars often associate the late eighteenth century Enlightenment with the rise of notions of liberty and human rights and the dismantling of slavery this book explores the dark side of the Enlightenment for plantation slaves Many planters increased their slaves workloads and employed supervisory technologies to increase labor discipline in ways that were consistent with the process of industrialization in Europe British planters offered alternative visions of progress by embracing restrictions on freedom and seeing increasing labor discipline as central

**Cultural Heritage and Slavery** Stephan Conermann, Claudia Rauhut, Ulrike Schmieder, Michael Zeuske, 2023-11-20 In the recent cultural heritage boom community based and national identity projects are intertwined with interest in cultural tourism and sites of the memory of enslavement Questions of historical guilt and present responsibility have become a source of social conflict particularly in multicultural societies with an enslaving past This became apparent in the context of the Black Lives Matter movement in 2020 when statues of enslavers and colonizers were toppled controversial debates about streets and places named after them re ignited and the European Union apologized for slavery after the racist murder of George Floyd Related debates focus on museums on artworks acquired unjustly in societies under colonial rule the question of whether and how museums should narrate the hidden past of enslavement and colonialism including their own colonial origins with respect to narratives about presumed European supremacy and the need to establish new monuments for the enslaved their resistance and abolitionists of African descent In this volume we address this dissonant cultural heritage in Europe with a strong focus on the tangible remains of enslavement in the Atlantic space in the continent This may concern for instance the residences of royal noble and bourgeois enslavers charitable and cultural institutions universities banks and insurance companies financed by the traders and owners of enslaved Africans merchants who dealt in sugar coffee and cotton and the owners of factories who profited from exports to the African and Caribbean markets related to Atlantic slavery
