**America's Painful Past** Tim Gruenewald, 2021-07-28 During the global Black Lives Matter protests of 2020 many called upon the United States to finally face its painful past Tim Gruenewald's new book is an in depth investigation of how that past is currently remembered at the national museums in Washington DC Curating America's Painful Past reveals how the tragic past is either minimized or framed in a way that does not threaten dominant national ideologies Gruenewald analyzes the National Museum of American History NMAH the United States Holocaust Memorial Museum USHMM the National Museum of African American History and Culture NMAAHC and the National Museum of the American Indian NMAI The NMAH the nation's most popular history museum serves as the benchmark for the imagination of US history and identity The USHMM opened in 1993 as the United States official Holocaust memorial and stands adjacent to the National Mall Gruenewald makes a persuasive case that the USHMM established a successful blueprint for narrating horrific and traumatic histories Curating America's Painful Past contrasts these two museums to ask why America's painful memories were largely absent from the memorial landscape of the National Mall and argues that social injustices in the present cannot be addressed until the nation's painful past is fully acknowledged and remembered It was only with the opening of the NMAAHC in 2016 that a detailed account of atrocities committed against African Americans appeared on the National Mall Gruenewald focuses on the museum's narrative structure in the context of national discourse to provide a critical reading of the museum When the NMAI opened in 2004 it presented for the first time a detailed history from a Native American perspective that sought to undo conventional museum narratives However criticism led to more traditional exhibitions and national focus Nevertheless the museum still marginalizes memories of the vast numbers of Indigenous victims to European colonization and to US expansion In a final chapter Gruenewald offers a thought experiment imagining a memory site like the recently opened National Memorial for Peace and Justice Montgomery Alabama situated on the National Mall so the reader can assess how profound an effect projects of national memory can have on facing the past as a matter of present justice **Exhibiting Dilemmas** Amy Henderson, 2016-06-21 In twelve essays on such diverse Smithsonian Institution holdings as the Hope Diamond the Wright Flyer wooden Zuni carvings and the Greensboro North Carolina Woolworth lunch counter that became a symbol of the Civil Rights movement Exhibiting Dilemmas explores a wide range of social political and ethical questions faced by museum curators in their roles as custodians of culture Focusing on the challenges posed by the transformation of exhibitions from object driven cabinets of curiosities to idea driven sources of education and entertainment the contributors all Smithsonian staff members provide a lively and sometimes provocative discussion of the increasingly complex enterprise of acquiring and displaying objects in a museum setting Smithsonian National Museum of African American History and Culture Between 14th and 15th Streets NW and Constitution Avenue, NW and Madison Drive, NW, 2008 **Hearing on**

**Alexander Von Humboldt and the United States** Eleanor Jones Harvey, 2020-04-14 The enduring influence of naturalist and explorer Alexander von Humboldt on American art, culture, and politics. Alexander von Humboldt (1769-1859) was one of the most influential scientists and thinkers of his age. A Prussian-born geographer, naturalist, explorer, and illustrator, he was a prolific writer whose books graced the shelves of American artists, scientists, philosophers, and politicians. Humboldt visited the United States for six weeks in 1804, engaging in a lively exchange of ideas with such figures as Thomas Jefferson and the painter Charles Willson Peale. It was perhaps the most consequential visit by a European traveler in the young nation's history, one that helped to shape an emerging American identity grounded in the natural world. In this beautifully illustrated book, Eleanor Jones Harvey examines how Humboldt left a lasting impression on American visual arts, sciences, literature, and politics. She shows how he inspired a network of like-minded individuals who would go on to embrace the spirit of exploration, decry slavery, advocate for the welfare of Native Americans, and extol America's wilderness as a signature component of the nation's sense of self. Harvey traces how Humboldt's ideas influenced the transcendentalists and the landscape painters of the Hudson River School and laid the foundations for the Smithsonian Institution, the Sierra Club, and the National Park Service. **Alexander von Humboldt and the United States** looks at paintings, sculptures, maps, and artifacts and features works by leading American artists such as Albert Bierstadt, George Catlin, Frederic Church, and Samuel F. B. Morse. Published in association with the Smithsonian American Art Museum, Washington, DC. Exhibition Schedule: Smithsonian American Art Museum, Washington, DC, September 18, 2020 - January 3, 2021.
