Misadventures of a Civil War Submarine James P. Delgado,2012-03-19 In 2001 while vacationing on Panama s Pacific coast maritime archaeologist James P Delgado came upon the hulk of a mysterious iron vessel revealed by the ebbing tides in a small cove at Isla San Telmo Local inquiries proved inconclusive the wreck was described as everything from a sunken Japanese suicide submarine from World War II to a poison laden craft of death that was responsible for the ruin of the pearl beds decades before His professional interest fully aroused Delgado would go on to learn that the wreck was the remains of one of the first successful deep diving submersibles built in 1864 by Julius H Kroehl an innovator and entrepreneur who initially sought to develop his invention for military use during the Civil War The craft s completion coming too late for that conflict Kroehl subsequently convinced investors that it could be used to harvest pearls from the Pacific beds off Panama in waters too deep for native pearl divers to reach In *Misadventures of a Civil War Submarine* Delgado chronicles the confluence of technological advancement entrepreneurial aspiration American capitalist ambition and ignorance of the physiological effects of deep diving As he details the layers of knowledge uncovered by his work both in archival sources and in the field excavation of Kroehl s ill fated vessel Delgado weaves the tangled threads of history into a compelling narrative This finely crafted saga will fascinate and inform professional archaeologists and researchers naval historians students and aficionados of maritime exploration and interested general readers
