The Night Child     **Sister Death** Beatrice Marovich,2023-02-07 Winner 2024 Bela Kornitzer Alumni Award Drew University Life and death are commonly seen as representing the starker of binaries Death is the ultimate adversary of all that lives Beatrice Marovich argues that such understandings of mortality have been deeply influenced by a strain of Christian political theology that has left its mark on both religious and secular narratives Adapting the figure of Sister Death from Saint Francis of Assisi she calls for recognizing that life and death are family Drawing on a wide range of sources from Toni Morrison to Jacques Derrida psychoanalysis to grassroots death positive movements Marovich critiques a racialized political theology that pits life and death against each other in a state of endless war In a time of extinctions it is necessary to disrupt this dominant story in order to apprehend death as a collective multispecies event Sister Death proposes an alternative view in which life and death are not mortal enemies destined for mutual destruction Instead they are engaged in a contested tense and sometimes mutually empowering form of connection a sisterhood Eloquent and approachable this book deftly integrates the insights of a number of disciplines to provide a profound reconsideration of the relations between life and death Sister Death also features a series of original works by the artist Krista Dragomer that stage an ongoing conceptual conversation with the text

Suzanne Degges-White, 2017-06-21 Sibling relationships are special in many ways not least because often siblings are the family members who go through their whole lives together But those relationships can be fraught with strife or tension bouts of happiness or strain and stress They can predict and affect other relationships in our lives and they can offer solace or sadness over the years Here Suzanne Degges White looks at the variety of sibling relationships with an eye to improving both the good and the bad Using real stories throughout the author illustrates the broad spectrum of problems and rewards that can come from having a sibling Examining such factors as the early family constellation birth order cultural diversity and family communication patterns Degges White illustrates how these relationships can affect so many other areas of our lives and considers how adult sibling conflict rivalry abuse and loss influence our lives She offers suggestions for effective responses to adult sibling conflict as well as enhancing family communication and deepening the sibling connection in adulthood No matter what the sibling relationship is or has become this work will help readers consider how situations might be improved or addressed even if it means letting go of unhealthy sibling relationships     **Love is Death and Wound** Li Zi,
