

The background of the cover is a collage of several black and white street maps from different cities. These maps are scattered and partially overlapping. Numerous thick, bright red arrows are drawn over the maps, all pointing towards a central black rectangular box. The arrows originate from various points on the maps and converge on the box, creating a sense of direction and focus.

Critical texts translations documents and photographs on the work of the Situationist International This volume is a revised and expanded version of a special issue of the journal October Winter 1997 that was devoted to the work of the Situationist International SI The first section of the issue contained previously unpublished critical texts and the second section contained

translations of primary texts that had previously been unavailable in English The emphasis was on the SI's profound engagement with the art and cultural politics of their time 1957-1972 with a strong argument for their primarily political and activist stance by two former members of the group T J Clark and Donald Nicholson-Smith Guy Debord and the Situationist International supplements both sections It reprints important hard-to-find essays by Giorgio Agamben, Libero Andreotti, Jonathan Crary, Thomas Y. Levin, Greil Marcus, and Tom McDonough and doubles the number of translations of primary texts which now encompass a broader and more representative range of the SI's writings on culture and language In a field still dominated by hagiography the critical texts were selected for their willingness to confront critically the history and legacy of the SI They examine the group within the broader framework of the historical and neo-avant-garde and beyond that the postwar world in general The translations trace the SI's reflections on the legacy of the avant-garde in art and architecture particularly on the linguistic and spatial significance of montage aesthetics Many of the translated works are by Guy Debord 1932-1994 the impresario of the SI especially known for his book *The Society of the Spectacle*

Guy Debord, the Situationist International, and the Revolutionary Spirit James Trier, 2019-07-15 Winner of the 2020 Choice Outstanding Academic Title Award Guy Debord the Situationist International and the Revolutionary Spirit presents a history of the two avant-garde groups that French filmmaker and subversive strategist Guy Debord founded and led the Lettrist International 1952-1957 and the Situationist International 1957-1972 Debord is popularly known for his classic book *The Society of the Spectacle* 1967 but his masterwork is the Situationist International SI which he fashioned into an international revolutionary avant-garde group that orchestrated student protests at the University of Strasbourg in 1966 contributed to student unrest at the University of Nanterre in 1967-1968 and played an important role in the occupations movement that brought French society to a standstill in May of 1968 The book begins with a brief history of the Lettrist International that explores the group's conceptualization and practice of the critical anti-art practice of *déplacement* as well as the subversive spatial practices of the *dérive*, psychogeography and unitary urbanism These practices which became central to the Situationist International anticipated many contemporary cultural practices including culture jamming, critical media literacy and critical public pedagogy This book follows up the edited book *Déplacement as Pedagogical Praxis* Sense Publishers 2014 and together they offer readers particularly those in the field of Education an introduction to the history, concepts and critical practices of a group whose revolutionary spirit permeates contemporary culture as can be seen in the political actions of Pussy Riot in Russia, the yellow vest protesters in France, the Black Lives Matter movement and the striking teachers and student protesters on campuses throughout the U.S. See inside the book

The Situationist International Alastair Hemmens, Gabriel Zacarias, 2020-04-20 From its foundation in 1957 to its self-dissolution in 1972 the Situationist International established itself as one of the most radical revolutionary organisations of the twentieth century This book brings together leading researchers on the SI to provide a comprehensive critical analysis of the group's key concepts and contexts from its relationship to earlier

artistic avant gardes romanticism Hegelianism the history of the workers movement and May 68 to the concepts and practices of spectacle constructed situations everyday life and d tournament The volume also considers historically underexamined areas of the SI including the situation of women in the group and its opposition to colonialism and racism With contributions from a broad range of thinkers including Anselm Jappe and Michael L wy this account takes a fresh look at the complex workings of a group that has come to define radical politics and culture in the post war period

The Situationist International in Britain Sam Cooper,2016-08-25 This book tells for the first time the story of the Situationist International s influence and afterlives in Britain where its radical ideas have been rapturously welcomed and fiercely resisted The Situationist International presented itself as the culmination of the twentieth century avant garde tradition as the true successor of Dada and Surrealism Its grand ambition was not unfounded Though it dissolved in 1972 generations of artists and writers theorists and provocateurs punks and psychogeographers have continued its effort to confront and contest the society of the spectacle This book constructs a long cultural history beginning in the interwar period with the arrival of Surrealism to Britain moving through the countercultures of the 1950s and 1960s and finally surveying the directions in which Situationist theory and practice are being taken today It combines agile historicism with close readings of a vast range of archival and newly excavated materials including newspaper reports underground pamphlets Psychogeographical films and experimental novels It brings to light an overlooked but ferociously productive period of British avant garde practice and demonstrates how this subterranean activity helps us to understand postwar culture late modernism and the complex internationalization of the avant garde As popular and academic interest in the Situationists grows this book offers an important contribution to the international history of the avant garde and Surrealism It will prove a valuable resource for researchers and students of English and Comparative Literature Modernism and the Avant Gardes Twentieth Century and Contemporary History Cultural Studies Art History and Political Aesthetics

Arts and Politics of the Situationist International 1957-1972 Edward John Matthews,2021-10-01 Arts and Politics of the Situationist International contextualizes the SI within a comprehensive aesthetic and theoretical framework that integrates its concepts and practical activities with previous critical thinkers political activists artists and poets The SI belongs to a history of radical gestures and cultural practices concerned with re imagining everyday life and overcoming alienation This book regards the SI as a critical interdisciplinary endeavor in the history of consciousness particularly as a moment in an ongoing western European trajectory of aesthetic negation dating back to the early nineteenth century The chapters search for origins of the SI in French Symbolist poetry Dada and Surrealism Hegelian Marxism and Lefebvrian social theory in an effort to provide a clearly defined something out of which the SI developed as an increasingly radical collective of artists writers and theorists

Gaming Utopia Claudia Costa Pederson,2021-04-06 In Gaming Utopia Ludic Worlds in Art Design and Media Claudia Costa Pederson analyzes modernist avant garde and contemporary video games to challenge the idea that gaming is an

exclusively white heterosexual male corporatized leisure activity and reenvisioning it as a catalyst for social change. By looking at over fifty projects that together span a century and the world, Pederson explores the capacity for sociopolitical commentary in virtual and digital realms and highlights contributions to the history of gaming by women, queer, and transnational artists. The result is a critical tool for understanding video games as imaginative forms of living that offer alternatives to our current reality. With an interdisciplinary approach, *Gaming Utopia* emphasizes how game design, creation, and play can become political forms of social protest and examines the ways that games as art open doors to a more just and peaceful world.

Urban Design Ecologies Brian McGrath, 2013-01-14. The discipline of urban design is undergoing a rapid expansion and realignment. It is experiencing a shift from a profession dominated by architects and planners directed at urban development to a more expansive set of practices engaging new forms of social and environmental ecologies as cities worldwide adapt to economic restructuring, mass migrations, and climate change. Bringing together classic and new texts from the last 40 years, this AD Reader focuses attention on the critical tools needed to understand how cities have been designed and constructed and then changed over time. This enables new ways of envisioning how cities must be conceived and adapted in the future to the dual conditions of rapid urbanisation and economic restructuring coupled with unpredictable environmental conditions due to climate change. With its emphasis on both urban design and the ecological, this book brings together key articles that point the way forward for reconciling the often conflicting concerns of urbanism and environmentalism. Twenty-three texts are organised into four distinct sections covering metropolitan architecture, the sprawling megalopolis, the megacity, and the recently emerging metacity. These are broadly chronological and highlight the recent thinking behind some of the key urban developments ranging from the art of traditional city making covered by European architects and historians in the late 20th century to contemporary Tokyo described by Atelier Bow Wow. Features original texts from Reyner Banham, Rem Koolhaas, Aldo Rossi, Colin Rowe, David Graham, Shane Bernard, Tschumi, Oswald Mathias Ungers, and Robert Venturi. Denise Scott Brown and Steven Izenour. Contains newly commissioned texts from Mary Cadenasso, Sharon Haar, and Victoria Marshall. Carlos Leite, Steward T. A. Pickett, and Albert Pope. Includes new translations of important essays by Vittorio Gregotti and Paola Vigan. Topics range from the European historic city to the Las Vegas Strip and the megacity of São Paulo, taking in the global sustainable city.

Rethinking the Spectacle Devin Penner, 2019-06-15. Spectacle is usually considered a superficial form of politics which tries to distract and deceive a passive audience. It is difficult to see how this type of politics could be reconciled with the democratic requirement of active and informed agency. *Rethinking the Spectacle* re-examines the tension between spectacle and political agency in our hyper-mediated digital society. Devin Penner uses the theories and practices of Guy Debord and the Situationist International as a point of departure, offering both a critical review of Situationist ideas and a way to develop their radical democratic potential in the current political climate. Emphasizing the importance of thinking about the connection between spectacle and broader democratic processes, *Rethinking the Spectacle* also looks at various

models of social and political organization and includes an in depth assessment of the 2011 Occupy movement Ultimately Rethinking the Spectacle concludes that properly conceived spectacle can in fact mobilize the public for egalitarian purposes

Utopia David Ayers, Benedikt Hjärtarson, Tomi Huttunen, Harri Veivo, 2015-12-14 Utopian hope and dystopian despair are characteristic features of modernism and the avant garde Readings of the avant garde have frequently sought to identify utopian moments coded in its works and activities as optimistic signs of a possible future social life or as the attempt to preserve hope against the closure of an emergent dystopian present The fourth volume of the EAM series European Avant Garde and Modernism Studies casts light on the history theory and actuality of the utopian and dystopian strands which run through European modernism and the avant garde from the late 19th to the 21st century The book's varied and carefully selected contributions written by experts from around 20 countries seek to answer such questions as how have modernism and the avant garde responded to historical circumstance in mapping the form of possible futures for humanity how have avant garde and modernist works presented ideals of living as alternatives to the present how have avant gardists acted with or against the state to remodel human life or to resist the instrumental reduction of life by administration and industrialisation

Liquid Crystals Esther Leslie, 2016-11-15 While it is responsible for today's abundance of flat screens on televisions computers and mobile devices most of us have only heard of it in the ubiquitous acronym LCD with little thought as to exactly what it is liquid crystal In this book Esther Leslie enlightens us offering an accessible and fascinating look at not a substance not a technology but a wholly different phase of matter As she explains liquid crystal is a curious material phase that organizes a substance's molecules in a crystalline form yet allows them to move fluidly like water Observed since the nineteenth century this phase has been a deep curiosity to science and in more recent times the key to a new era of media technology In between that time as Leslie shows it has figured in cultural forms from Romantic landscape painting to snow globes from mountaineering to eco disasters and from touchscreen devices to DNA Expertly written but accessible Liquid Crystals recounts the unheralded but hugely significant emergence of this unique form of matter

Illusion and Fetishism in Critical Theory Vasilis Grollios, 2023-12-01 Through the negative dialectics of Theodore Adorno Illusion and Fetishism in Critical Theory offers an examination of Nietzsche Benjamin Castoriadis and the Situationists who put the concept of illusion at the forefront of their philosophical thought Vasilis Grollios argues that these political philosophers except Castoriadis have up to now been wrongly considered by many scholars to be far from the line of thinking of negative dialectics Critical Theory and the early Frankfurt School Open Marxist tradition He illustrates how these thinkers focused on the illusions of capitalism and attempted to show how capitalism by its innate rationale creates social forms that are presented as unavoidable and universal yet are historically specific and of dubious sustainability Providing a unique overview of concepts including illusion totality fetishization contradiction identity thinking and dialectics Grollios expertly reveals how their understanding of critique can help us open cracks in capitalism and radicalize democratic social practice

Thompson, Gregory Smulewicz-Zucker, 2015-09-09 Radical Intellectuals and the Subversion of Progressive Politics is a challenge to contemporary radical politics and political thought This collection of essays critiques the dominant trends and figures on the left that have distorted the legacy of progressive politics arguing that they have moved politics away from issues of class and economic power toward a preoccupation with culture and identity The contributors discuss this new radicalism from the perspective of a more rational form of leftism capable of reviving interest in a more politically relevant form of politics **Capitalism and Class Struggle in the USSR** Neil C. Fernandez, 2018-12-14 First published in 1997 this was the first Autonomist Marxist book on the USSR The various theories of Soviet capitalism are considered more comprehensively than in any previous work and are shown to be inadequate insofar as they fail to demonstrate satisfactorily the predominance of the category of capital A powerful new theory is developed which does precisely this introducing the concepts of bureaucratic forms of both exchange value and money This constitutes an important contribution to the overall theoretical critique of capital Attention is then turned to the class struggle For the first time the various Marxist theories of the USSR are systematically considered in relation to what they say about the working class and its struggle *Semiotics and Hermeneutics of the Everyday* Gregory Paschalidis, Lia Yoka, 2015-06-18 The linchpin of the momentous paradigm shift that produced the new hermeneutics of everyday life was a focus on people as active agents in various cultural contexts uses and practices the merging of the conventional distinctions between the private and the public the local and the global the material and the symbolic and the bridging of the agency structure divide marking grand historical and cultural narratives In their place a wealth of new kinds of narratives were produced out what
