Six Approaches To Child Rearing:

Six Approaches to Child Rearing Donald Eugene Mead,1980 Parents And The Dynamics Of Child Rearing George W Holden,2019-07-11 Research into parent child relationships is a diverse field of inquiry attracting investigators from a variety of disciplines and subdisciplines This book integrates and synthesizes the literature by focusing on issues concerning the parent The text is organized around four key questions What determines parental behavior What are the effects of parenting on children What makes some parents more effective than others Why do some parents maltreat their children George Holden adopts a dynamic rather than a static perspective on parenting This dynamic approach reflects parents capacity to modify their behavior as they respond to changes in their children and in their own lives Throughout the text historical antecedents as well as methodological and theoretical issues are highlighted Although the book is designed for advanced courses focusing on the parent child relationship it also provides a good overview for those interested in current research concerning parenting **A Model Mother? Family Policy and Childrearing in Post-Devolution Scotland** Tania Wood,2014-03-17 This book explores childrearing approach as one of the prime sites of the reproduction of social inequality During the latter half of the 2000s UK and Scottish government policy placed increasing emphasis on the importance of parenting and the early years as factors likely to have an impact on health education and employment outcomes Between 2005 and 2008 the timeframe considered by this study a number of policy initiatives emerged which were intended to support better parenting This book argues that what was presented as a model of good parenting was in essence a model of middle class parenting which misunderstood and devalued other parenting approaches In this study Lareau s typology of childrearing approach is used as a means of situating the UK parenting policy discourse within a broader theoretical context and assessing critically the extent to which this policy discourse reflects childrearing approaches in Scotland The book concludes that family policy between 2005 and 2008 did not fully reflect the variety of childrearing approaches in Scotland and that mothers whose circumstances and childrearing approach diverged from the policy model may not have been adequately supported Child Care and Education 6th Edition Carolyn Meggitt,Julia Manning-Morton,Tina Bruce,2016-07-04 Deliver an in depth programme of teaching for level 3 and level 4 with this classic textbook that inspires your students to go further Written by an expert team of childcare authors the sixth edition of this classic textbook offers an in depth approach to Childcare and Early Years study unmatched by any course specific texts Child Care and Education 6th Edition provides full details of all the topics and frameworks relevant to level 3 and level 4 qualifications It offers the opportunity to analyse and explore theories and practice at a high level of detail Provides post level 3 material in clearly marked Moving On sections at the end of each chapter Focuses on the practicalities of working within a real life setting using case studies and observation tasks Suitable for level 3 qualifications and courses that bridge the gap between levels 3 and 4 **Resources in Education** ,2001-10 *Starting Strong II Early Childhood Education and Care* OECD,2006-09-14 This

Multicultural Child Care Paul Vedder, Ellen Bouwer, Trees Pels, 1996 What is the state of multicultural education in child care centres in Western European countries What should multicultural education in these centres look like These are the two key questions addressed in this book In this study the authors have analysed the state of multicultural education in child care centres in the Netherlands England Scotland Denmark Sweden Germany Belgium France and Spain The main situation considered here is the Netherlands where the recent and rapid growth of the number of child care centres together with the growing numbers of immigrant children visiting these centres have given a strong impetus to concerns about the quality of centre education from a multicultural perspective For centre staff sensitive responses towards children and parents as well as parental involvement have become essential for managing cultural diversity in a way beneficial for both migrant and indigenous families It is argued that defining and improving the quality of centre education from a multicultural perspective require discussions between staff and parents about educational goals and the means to achieve them The book gives recommendations for improving the relationship between staff and parents by way of consensus building about these aims BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
