Sixty Years of Nuclear History Fred Roberts,1999 *International Bibliography of Political Science* Compiled by the British Library of Political and Economic Science,2000-02 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge on the social sciences **Commentationes Scientiarum Socialium** ,1972 *The Changing Face of Military Power* A. Dorman,M. Smith,M. Uttley,2002-03-13 With the end of the Cold War perceptions of the role of armed forces in the international environment changed dramatically and have led to a critical re evaluation of defence budgets defence bureaucracies and defence roles *The Changing Face of Military Power* brings together some of the most eminent scholars in the field of defence studies to assess the changing dynamics of military power It focuses in particular on the move towards joint service cooperation as a way of minimising costs and increasing efficiency Annual Bibliography of British and Irish History ,2002 *Hidden Agendas* John Pilger,2010-09-02 In this powerful book journalist and film maker John Pilger strips away the layers of deception dissembling language and omission that prevent us from understanding how the world really works From the invisible corners of Tony Blair s Britain to Burma Vietnam Australia South Africa and the illusions of the media age power he argues has its own agenda Unchallenged it operates to protect its interests with a cynical disregard for people shaping and often devastating millions of lives By unravelling the hidden histories of contemporary events Pilger allows us to read between the lines He also celebrates the eloquent defiance and courage of those who resist oppression and give us hope for the future Tenaciously researched and written with passion and wit *Hidden Agendas* will change the way you see the world *Current Contents* Institute for Scientific Information (Philadelphia),1999 **Current Contents** ,1999

une menace suprême pour les autres. Demain il en sera de même. Cette perspective rend d'autant plus précieuse la lecture d'un ouvrage qui se propose de couvrir l'évolution des armements et des stratégies nucléaires pour mieux en confirmer l'omniprésence au XXI^e siècle et en comprendre le sens. Pascal Boniface est directeur de l'Institut de Relations Internationales et Stratégiques IRIS et auteur d'une quarantaine d'ouvrages sur les questions internationales. Barthélémy Courmont est docteur en science politique, chercheur à l'IRIS et responsable du bureau IRIS Taiwan. Spécialiste des questions nucléaires et des États-Unis, il est l'auteur de plusieurs ouvrages d'études stratégiques.

The British National Bibliography Arthur James Wells, 2002
The Cumulative Book Index, 1999 *Labour Research*, 1999 *The Secret History of the Five Eyes* Richard Kerbaj, 2025-01-07
This is the definitive account of the Western world's most powerful but least known intelligence alliance which remains central to the defense of the free world in a dangerously uncertain time. The Five Eyes, a spy network between the intelligence agencies of the US, UK, Canada, Australia, and New Zealand, has been steeped in secrecy since its official formation in 1956. Yet the Five Eyes' very existence is not legally binding; it functions as a marriage of convenience riddled with distrust, competing intelligence agendas, and a massive imbalance of power that favors the US. Richard Kerbaj draws on interviews with intelligence officials, world leaders, and recently declassified archives to reveal the authoritative but unauthorized stories of the alliance. In bypassing the usual censorship channels, he tells this extraordinary account of the Five Eyes' unlikely cast of characters who played a crucial role in its history and exposes the network's hidden role in influencing global events that continue to shape our daily lives.

A History of the English-Speaking Peoples since 1900 Andrew Roberts, 2010-12-16
Prize-winning British historian tells the story of the English-speaking peoples in the 20th century. Winston Churchill's *History of the English Speaking Peoples* ended in 1900. Andrew Roberts, Wolfson History prizewinner, has been inspired by Churchill's example to write the story of the 20th century. Churchill wrote: "Every nation or group of nations has its own tale to tell. Knowledge of the trials and struggles is necessary to all who would comprehend the problems, perils, challenges, and opportunities which confront us today. It is in the hope that contemplation of the trials and tribulations of our forefathers may not only fortify the English-speaking peoples of today but also play some small part in uniting the whole world that I present this account." As the greatest of all the trials and tribulations of the English-speaking peoples took place in the twentieth century, Roberts' book covers the four world historical struggles in which the English-speaking peoples have been engaged: the wars against German Nationalism, Axis Fascism, Soviet Communism, and now the War against Terror. But just as Churchill did in his four volumes, Roberts also deals with the cultural, social, and political history of the English global diaspora.
