The Social Context of James Ensor's Art Practice Susan M. Architecture in Development Aggregate Architectural History Collaborative, 2022-04-25 This extensive text investigates how architects planners and other related experts responded to the contexts and discourses of development after World War II Development theory did not manifest itself in tracts of economic and political theory alone It manifested itself in every sphere of expression where economic predicaments might be seen to impinge on cultural factors Architecture appears in development discourse as a terrain between culture and economics in that practitioners took on the mantle of modernist expression while also acquiring government contracts and immersing themselves in bureaucratic processes This book considers how for a brief period architects planners structural engineers and various practitioners of the built environment employed themselves in designing all the intimate spheres of life but from a consolidated space of expertise Seen in these terms development was to cite Arturo Escobar an immense design project itself one that requires
